The Road to Dictatorship. Germany 1918-1933. Translated ... by Lawrence Wilson. Ten Contributions by Th. Eschenburg [and Others], Etc. (Reprinted.). Theodor ESCHENBURG, Lawrence WILSON (Translator.), 1970 **The Road to Dictatorship**, **The Road to Dictatorship: Germany 1918-1933 ; Ten Contributions by Th. Eschenburg ... [Et Al.] ; Translated From the German by Lawrence Wilson**, 1964 **The Road to Dictatorship, Germany 1918-1933** Theodor Eschenburg, 1964 **European Dictatorships 1918-1945** Stephen J. Lee, 2012-11-12 European Dictatorships 1918 1945 surveys the extraordinary circumstances leading to and arising from the transformation of over half of Europe's states to dictatorships between the first and the second World Wars It describes the course of dictatorship in Europe before and during the Second World War and examines the phenomenon of dictatorship itself and the widely different forms it can take From the notorious dictatorships of Mussolini Hitler and Stalin to less well known states and leaders this book scrutinizes the experiences of Russia Germany Italy Spain and Portugal and Central and Eastern European states This third edition has been revised throughout to include recent historical research and contains a completely new chapter on the meaning of dictatorship Including new tables maps and diagrams this is the perfect survey for all students of the period To view the companion website please visit www.routledge.com/textbooks/9780415454858 Germany and Europe 1919-1939 John Hiden, 2014-09-25 This is the only short study in English to survey Germany's foreign policy from a German viewpoint across the entire inter war period The approach which sets Germany in her full European context is not narrowly diplomatic and it gives as much attention to the Weimar years of the 1920s as it gives to the more familiar story of Germany's international relations under the Third Reich John Hiden has now thoroughly revised his text to take account of new scholarship since the book first appeared in 1977 **The Weimar Republic** Stephen J. Lee, 2013-09-13 The Weimar Republic provides a comprehensive introduction to Germany in the aftermath of the First World War Exploring themes including the formation of the Republic the impact of the Treaty of Versailles and the Republic's problems and achievements it is an invaluable study guide This second edition includes two new chapters the first looks at the Chancellors and Presidents of the Republic the second assesses the career of Gustav Stresemann It also contains a timeline and updated analysis to enhance readers understanding of events and controversies Integrating historical interpretation exam style questions and evaluation of sources this book provides students with a clear understanding and a foundation for examination success
Occupation and Insurgency Colin D. Heaton, 2008 *The German Dictatorship*, 1970 **A Companion to Nazi Germany** Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in

the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich's rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party's emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era's lasting legacy this book offers an in depth examination of modern history's most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich's ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today's political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world Republican and Fascist Germany John Hiden, 2020-10-28 This important addition to modern German studies treats the Weimar Republic and the Third Reich as a continuum exploring its themes through the 1920s and 1930s without artificial breaks John Hiden looks at key issues in political social and economic history and in international relations He highlights Germany's potentially constructive role in Europe before Hitler analyses the country's structural problems considers the importance of personalities and personal responsibility in the period and examines the legacy of the Third Reich to postwar Germany Filled with energy and ideas the book has an intellectual substance far beyond its relatively modest length *The Peculiarities of German History* David Blackbourn, Geoff Eley, 1984-12-13 A well written stimulating piece of scholarship German Studies Review In a major re evaluation of the cultural political and sociological assumptions about the peculiar course of modern German history the authors challenge the widely held belief that Germany did not have a Western style bourgeois revolution Contending that it did indeed experience one but that this had little to do with the mythical rising of the middle class the authors provide a new context for viewing the tensions and instability of 19th and early 20th century Germany **Der Weg in Die Diktatur, 1918 Bis 1933. The Road to Dictatorship, Germany 1918-1933 ... Ten Contributions by Th. Eschenburg and Others , Etc. (Translated by Lawrence Wilson.).** Theodor ESCHENBURG, Lawrence Patrick Roy WILSON, 1964 *The Popular Front in Europe* Helen Graham, Paul Preston, 1988-12-05 Out of the social and economic

turmoil of Europe in the 1930s the Popular Front emerged as the spearhead of the left's bid to stop fascism in its tracks Fifty years on from the birth of the Popular Front this edited collection assesses the impact of the idea of bourgeois proletarian alliance on the European left as a whole It also examines the fate of the Popular Front governments both in France which remained nominally at peace and in Spain where the bitter strife over social and economic reform erupted into open civil war

Democracy Against Itself Mark Chou, 2014-06-18 Why do some democracies self destruct Using the collapse of democracy in ancient Athens and the Weimar Republic as well as the uncertain fate of democratic rule in the United States and China today as illustrative examples Mark Chou examines the conditions and characteristics of democracy that make it prone to self destruct In drawing out the political lessons from these past collapses he explains how a democracy can simply by being democratic sow the seeds of its own destruction
