North of Boston Robert Frost, 2021-02-01 *North of Boston* 1914 is a collection of poems by American poet Robert Frost Following the success of Frost's debut *A Boy's Will* 1913 *North of Boston* was published in London to enthusiastic reviews from both Ezra Pound and W B Yeats His success abroad quickly translated to critical acclaim in the United States and Frost would eventually be recognized as a leading American poet *Mending Wall* takes place in spring as the people emerge from their homes to assess the damage done by the long dark winter Observing that parts of the stone wall on the edge of his property have fallen the poet joins his neighbor to walk the line And set the wall between us once again Although he feels they do not need the wall his neighbor insists that Good fences make good neighbours continuing down the line to reinforce the space between them A meditation on humanity civilization and democracy *Mending Wall* is an iconic and frequently anthologized poem In *After Apple Picking* as fall gives over to winter the poet remembers in dreams how the Magnified apples appear and disappear Stem end and blossom end as he climbs the ladder into the heart of the tree Both a symbol for life and a metaphor for the poetic act apple picking leaves the poet overtired Of the great harvest he himself desired awaiting sleep as he describes its coming on wondering what if anything it will bring With a beautifully designed cover and professionally typeset manuscript this edition of Robert Frost's *North of Boston* is a classic of American literature reimagined for modern readers

Mountain Interval Robert Frost, 2019-05-15 *Mountain Interval* 1916 Robert Frost's third published poetry collection describes a certain sense of the future as circumscribed by the choices of the past one has made The collection's first and most famous poem *The Road Not Taken* in which Frost deploys the forked path in the woods as a metaphor for the course of life itself While the situation evokes the first canto of the *Divine Comedy* Frost avoids Dante's overtly allegorical manner by creating a speaker whose spare vocabulary and vernacular syntax lends the poem a more parable like narrative force
