The Roman World 44 BC-AD 180 Martin Goodman,2002-04-12 Goodman presents a lucid and balanced picture of the Roman world examining the Roman empire from a variety of perspectives cultural political civic social and religious **The Building Program of Herod the Great** Duane W. Roller,1998-02-20 Herod King of Judea from 44 to 4 BC was a major figure in the politics of the Roman east during the emperor Augustus's ascension to power **Brill's Companion to Cicero** James M. May,2002-09-01 This volume is intended as a companion to the study of Cicero's oratory and rhetoric for both students and experts in the field for the neophyte it provides a starting point for the veteran Ciceronian scholar a place for renewing the dialogue about issues concerning Ciceronian oratory and rhetoric for all a site of engagement at various levels with Ciceronian scholarship and bibliography The book is arranged along roughly chronological lines and covers most aspects of Cicero's oratory and rhetoric The particular strength of this companion resides in the individual often very original approach to sundry topics by an array of impressive contributors all of whom have spent large portions of their careers concentrating upon the oratorical and rhetorical oeuvre of Cicero A bibliography of relevant items from the past 25 years keyed to specific Ciceronian works completes the volume Brill's Companion to Cicero will become the standard reference work on Cicero for many years **Oratory and Political Career in the Late Roman Republic** Henriette van der Blom,2016-08-15 Oratory and Political Career in the Late Roman Republic is a pioneering investigation into political life in the late Roman Republic It explores the nature and extent to which Roman politicians embraced oratorical performances as part of their political career and how such performances influenced the careers of individual orators such as Gaius Gracchus Pompeius Magnus and Julius Caesar Through six case studies this book presents a complex and multifaceted picture of how Roman politicians employed oratory to articulate their personal and political agendas to present themselves to a public obsessed with individual achievement and ultimately to promote their individual careers By dealing specifically with orators other than Cicero this study offers much needed alternatives to our understanding of public oratory in Rome Moreover the assessment of the impact of public speeches on the development of political careers provides new perspectives on the hotly debated nature of republican political culture **Roman and Local Citizenship in the Long Second Century CE** Myles Lavan,Clifford Ando,2021-11-16 Imperial and Local Citizenship in the Long Second Century CE explores the significance of Roman citizenship in the long century before Caracalla's universal grant of citizenship in 212 CE From this emerges a new portrait of the early Roman empire an exclusive regime of citizenship persisted in a context of remarkable political and cultural integration **The triumviral period: civil war, political crisis and socioeconomic transformations** Pina Polo, Francisco,2020-07-08 Nothing from the subsequent Augustan age can be fully explained without understanding the previous Triumviral period 43-31 BC In this book twenty experts from nine different countries and nineteen universities examine the Triumviral age not merely as a phase of transition to the Principate but as a proper period with its own dynamics and issues

which were a consequence of the previous years The volume aims to address a series of underlying structural problems that emerged in that time such as the legal nature of power attributed to the Triumvirs changes and continuity in Republican institutions both in Rome and the provinces of the Empire the development of the very concept of civil war the strategies of political communication and propaganda in order to win over public opinion economic consequences for Rome and Italy whether caused by the damage from constant wars or alternatively resulting from the proscriptions and confiscations carried out by the Triumvirs and the transformation of Roman Italian society All these studies provide a complete fresh and innovative picture of a key period that signaled the end of the Roman Republic

Orientalism and the Reception of Powerful Women from the Ancient World Filippo Carlà-Uhink, Anja Wieber, 2020-02-06 Why is Cleopatra a descendent of Alexander the Great a Ptolemy from a Greek Macedonian family in popular imagination an Oriental woman True she assumed some aspects of pharaonic imagery in order to rule Egypt but her Orientalism mostly derives from ancient Roman and modern stereotypes both the Orient and the idea of a woman in power are signs in the Western tradition of otherness and in this sense they can easily overlap and interchange This volume investigates how ancient women and particularly powerful women such as queens and empresses have been re imagined in Western and not only Western arts highlights how this re imagination and re visualization is more often than not the product of Orientalist stereotypes even when dealing with women who had nothing to do with Eastern regions and compares these images with examples of Eastern gaze on the same women Through the chapters in this volume readers will discover the similarities and differences in the ways in which women in power were and still are described and decried by their opponents

The World of Juba II and Kleopatra Selene Duane W Roller, 2004-02-24 Raised and educated in Rome Juba II 48 BC AD 23 was sent to uphold Roman interests in northwest Africa as ruler of the client kingdom of Mauretania Together with his wife Kleopatra Selene daughter of Marcus Anthonius and Kleopatra VII he established a rich multicultural environment at their capital renamed Caesarea where Egyptian Hellenistic Greek and indigenous elements came together Juba combined a reign of more than half a century with a career as a distinguished scholar and writer producing an extensive collection of works and shaping Roman knowledge of the southern half of the known world from the Atlantic coast of northwest Africa to India This book explores the complex culture and legacy of the kingdom with emphasis on Juba s scholarship and the world created by these two remarkable monarchs This detailed and comprehensive study is not only the first examination in English of Juba s life and career but the first critical analysis of the king both as an implementer of the Augustan political artistic and intellectual programme and as a notable scholar

Community and Communication C. E. W. Steel, Henriette van der Blom, 2013 This title brings together contributions which rethink the role of public speech in the Roman Republic With careful attention to a range of evidence it shines a light on orators and considers the oratory of diplomatic exchanges and impromptu heckling and repartee alongside the familiar genres of forensic and political speech

Rome and the Near Eastern Kingdoms and Principalities, 44-31 BC Hendrikus A.M. van Wijlick, 2020-12-15 The study presents a critical analysis of the political relations between Rome and Near Eastern kingdoms and principalities during the age of civil war from the death of Julius Caesar in 44 to Mark Antony's defeat at Actium in 31 BC By examining each bilateral relationship separately it argues that those relations were marked by a large degree of continuity with earlier periods Circumstances connected to the civil war had only a limited impact on the interstate conduct of the period despite the effects that the strife had on Rome's domestic politics and the res publica The ever present rival Parthia and its external policies were more influential in steering the relations between Rome and Near Eastern powers

Carney, Sabine Müller, 2020-11-09 This volume offers the first comprehensive look at the role of women in the monarchies of the ancient Mediterranean It consistently addresses certain issues across all dynasties title role in succession the situation of mothers wives and daughters of kings regnant and co regnant women role in cult and in dynastic image and examines a sampling of the careers of individual women while placing them within broader contexts Written by an international group of experts this collection is based on the assumption that women played a fundamental role in ancient monarchy that they were part of not apart from it and that it is necessary to understand their role to understand ancient monarchies This is a crucial resource for anyone interested in the role of women in antiquity

The Quaestorship in the Roman Republic Francisco Pina Polo, Alejandro Díaz Fernández, 2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the cursus honorum and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the control and supervision of Rome's finances As the book shows the quaestorship was a prominent and essential part of the Roman administration

Growing Up Fatherless in Antiquity Sabine R. Hübner, David M. Ratzan, 2009-02-19 As the changes in the traditional family accelerated toward the end of the twentieth century a great deal of attention came to focus on fathers both modern and ancient While academics and politicians alike singled out the conspicuous and growing absence of the modern father as a crucial factor affecting contemporary family and social dynamics ancient historians and classicists have rarely explored ancient father absence despite the likelihood that nearly a third of all children in the ancient Mediterranean world were fatherless before they turned fifteen The proportion of children raised by single mothers relatives step parents or others was thus at least as high in antiquity as it is today This book assesses the wide ranging impact high levels of chronic father absence had on the cultures politics and families of the ancient world *Antony & Cleopatra* Patricia Southern, 2009-05-15
