## **Marianne And The Puritan Transformations Of The Couple In French And American Films:**

**Marianne and the Puritan** David I. Grossvogel, 2005-01-01 As recent history continues to show France and the United states enjoy a love hate relationship Expressions of admiration and dismissal of one culture by the other are usually based on superficial judgments derived from well worn clichés that do little more than perpetuate perceived and real differences between the two societies Those who study these differences inevitably examine them through their own cultural peculiarities Marianne and the Puritan attempts to draw these various analyses together by contrasting the different ways each culture constructs the romantic couple through U S and French popular cinema David I Grossvogel's broad sweeping comparative and interdisciplinary study is conducted with great elegance and erudition It is a must for film studies literary criticism francophone studies art history and cultural sociology and anthropology

**The A to Z of French Cinema** Dayna Oscherwitz, MaryEllen Higgins, 2009-09-02 It can be argued that cinema was created in France by Louis Lumière in 1895 with the invention of the cinematographe the first true motion picture camera and projector While there were other cameras and devices invented earlier that were capable of projecting intermittent motion of images the cinematographe was the first device capable of recording and externally projecting images in such a way as to convey motion Early films such as Lumière's *La Sortie de l'usine* a minute long film of workers leaving the Lumière factory captured the imagination of the nation and quickly inspired the likes of Georges Méliès Alice Guy and Charles Pathé Through the years French cinema has been responsible for producing some of the world's best directors Jean Renoir Jean Luc Godard François Truffaut and Louis Malle and actors Charles Boyer Catherine Deneuve Gérard Philipe and Audrey Tautou The A to Z of French Cinema covers the history of French film from the silent era to the present in a concise and up to date volume detailing the development of French cinema and major theoretical and cultural issues related to it This is done through a chronology an introduction photographs a bibliography and hundreds of cross referenced dictionary entries on many of the major actors directors films movements producers and studios associated with French cinema Going beyond mere biographical information entries also discuss the impact and significance of each individual film movement or studio included This detailed scholarly analysis of the development of film in France is useful to both the novice and the expert alike

**Interpretation and Film Studies** Phillip Novak, 2020-07-31 This book argues that the sustained interpretation of individual movies has contrary to conventional wisdom never been a major preoccupation of film studies that indeed the field is marked by a dearth of effective engaging and enlightening critical analyses of single films The book makes this case by surveying what has been written about four historically important and well known movies D W Griffith's *Way Down East* Marcel Carné's *Port of Shadows* Mike Nichols's *The Graduate* and Michelangelo Antonioni's *Red Desert* none of which has been the focus of sustained critical attention and by exhaustively examining the kinds of work published in four influential film journals *Cinema Journal* *Screen* *Wide Angle* and *Movie* The book goes on to argue for the value of the work of interpretation illustrating this value through extended analyses

of Roman Polanski's *Chinatown* and Christopher Nolan's *Memento* both of which thematize interpretation Novak demonstrates the causes and consequences of reading poorly and the importance of reading well Hollywood's America Steven Mintz, Randy W. Roberts, David Welky, 2016-03-07 Fully revised updated and extended the fifth edition of *Hollywood's America* provides an important compilation of interpretive essays and primary documents that allows students to read films as cultural artifacts within the contexts of actual past events A new edition of this classic textbook which ties movies into the broader narrative of US and film history This fifth edition contains nine new chapters with a greater overall emphasis on recent film history and new primary source documents which are unavailable online Entries range from the first experiments with motion pictures all the way to the present day Well organized within a chronological framework with thematic treatments to provide a valuable resource for students of the history of American film Postwar Renoir Colin Davis, 2012-07-26 This book reassesses director Jean Renoir's work between his departure from France in 1940 and his death in 1979 and contributes to the debate over how the medium of film registers the impact of trauma The 1930s ended in catastrophe for both for Renoir and for France *La Règle du jeu* was a critical and commercial disaster on its release in July 1939 and in 1940 France was occupied by Germany Even so Renoir continued to innovate and experiment with his post war work yet the thirteen films he made between 1941 and 1969 constituting nearly half of his work in sound cinema have been sorely neglected in the study of his work With detailed readings of these films and four novels produced by Renoir in his last four decades Davis explores the direct and indirect ways in which film and Renoir's films in particular depict the aftermath of violence **From France With Love** Mary Harrod, 2015-05-21 Love stories have always been at the heart of French cinema but romantic comedies have until recently been absent from it In 2001 the global success of *Amélie* catalysed a major development in the Western world's second largest film industry the appropriation of the Hollywood romantic comedy genre or *Rom Com à l'Américaine* In *From France with Love* Mary Harrod explores this contemporary phenomenon examining both local hits and films with international status Using socio cultural data box office figures and analysis of critical reception she reveals the ways in which these films mirror shifting attitudes towards gender roles within French society as well as the increasingly important interrelation between French national cinema and transnational filmmaking paradigms Forgotten Disney Kathy Merlock Jackson, Carl H. Sederholm, Mark I. West, 2023-06-19 This work demonstrates that not everything that Disney touched turned to gold In its first 100 years the company had major successes that transformed filmmaking and culture but it also had its share of unfinished projects unmet expectations and box office misses Some works failed but nevertheless led to other more stunning and lucrative ones others shed light on periods when the Disney Company was struggling to establish or re-establish its brand In addition many Disney properties popular in their time but lost to modern audiences emerge as forgotten gems By exploring the studio's missteps this book provides a more complex portrayal of the history of the company than one would gain from a simple recounting of its many hits With essays

by writers from across the globe it also asserts that what endures or is forgotten varies from person to person place to place or generation to generation What one dismisses someone else recalls with deep fondness as a magical Disney memory
