Honey,Samantha Hogenson,2017-11-21 As the nations of the Caribbean respond to the emerging effects of climate change and prepare for those to come tourism has the potential to either worsen or mitigate these impacts In this book we look specifically at marine recreation and how its various sectors ranging from surfing diving and sport fishing to yacht ing and cruise ships are coping with and preparing for climate change in the Caribbean Through essays and case studies by scientists

business leaders government and NGO staff and others we show that tourism could lead the way in reducing human induced climate impacts protecting and restoring crucial ecosystems and habitats and building sustainable futures for the people of the Caribbean and beyond Marine Wildlife and Tourism Management Michael Lu ?ck,2008 Demonstrates that through scientific approaches to understanding and managing tourist interactions with marine wildlife sustainable marine tourism can be achieved *Managing, Marketing, and Maintaining Maritime and Coastal Tourism* Morais de Brito, Mónica,Dias, Alvaro,Patuleia, Mafalda,2019-11-29 The extraordinary beauty cultural wealth and diversity of EU s coastal areas have designated them as one of the preferred destinations for many holiday goers The numerous businesses that operate in these heavily traveled areas have to struggle with other similarly minded companies and with providing sustainable practices for the people and surrounding area Managing Marketing and Maintaining Maritime and Coastal Tourism is a pivotal reference source that provides vital material on the application of multidisciplinary and interdisciplinarity logic surrounding sea tourism While highlighting topics such as destination marketing event management and global business this publication explores the dynamic capabilities and the methods of overall management of hospitality by the sea This book is ideally designed for marketers advertisers tour directors cruise directors travel agents port managers coastal cities managers event coordinators academics students researchers policymakers public managers and tourism entrepreneurs *Marine Tourism, Climate Change, and Resiliency in the Caribbean, Volume I* Kreg Ettenger,Samantha Hogenson,2017-05-23 As the nations of the Caribbean respond to and prepare for climate change tourism has the potential to both worsen and mitigate these effects In this book we look at marine tourism and its connection with ocean health fisheries and critical ecosystems including coral reefs We consider the role that marine protected areas can play in preserving reefs and other ecosystems leading to greater resilience in the face of climate change Finally we look at how the tourism industry is responding to the threat of climate change using its economic and social capital to foster positive change in the Caribbean and other parts of the world While the situation is clearly urgent we hope this volume provides readers with some optimism as well as tangible ideas for using tourism to help mitigate the impending effects of climate change on marine ecosystems and economies Marine Ecotourism Brian Garrod,Julie Wilson,2003-01-03 Marine ecotourism is a major growth area within ecotourism itself a rapidly expanding area within tourism as a whole The activity has been attracting increasing attention both from the popular media and from professionals and academics with an interest in tourism s potential to contribute to sustainable development However there is a growing consensus that far too often the term has been used merely as a tool for capitalising on the good intentions of tourists without the industry itself having to make fundamental changes to their products or to the way they go about their operations This has often been to the detriment of local environments economies and host communities Yet the ideal of ecotourism as it is properly understood is to present local communities with a sustainable development alternative one that works to the benefit of local ecosystems local economies and local people The purpose of the first section of this

book is therefore to introduce the concept of marine ecotourism and to draw out some of the key issues involved in ensuring that marine ecotourism is developed in a genuinely sustainable manner The second section then discusses some practical experiences of planning and managing marine ecotourism from around the world identifying common problems and discussing what might constitute good practice in addressing those problems
