Peariso,2014-12-01 From burning draft cards to staging nude protests much left wing political activism in 1960s America was distinguished by deliberate outrageousness This theatrical activism aimed at the mass media and practiced by Abbie Hoffman and the Yippies the Black Panthers and the Gay Activists Alliance among others is often dismissed as naive and out of touch or criticized for tactics condemned as silly and off putting to the general public In *Radical Theatrics* however Craig Peariso argues that these over the top antics were far more than just the

spontaneous actions of a self indulgent radical impulse Instead he shows they were well considered aesthetic and political responses to a jaded cultural climate in which an unreflective tolerance masked an unwillingness to engage with challenging ideas Through innovative analysis that links political protest to the art of contemporaries such as Andy Warhol Peariso reveals how the put on the signature activist performance of the radical left ended up becoming a valuable American political practice one that continues to influence contemporary radical movements such as Occupy Wall Street
