Miracles in Mark David Spell,2009-03-04 The Gospel of Mark has long been regarded as The Gospel of Action It contains more miracles and supernatural phenomena than Matthew Luke or John In fact a third of Mark s Gospel is centered on the miraculous deeds of Jesus Mark is clearly more concerned with what Jesus did than with what He said From the vision that Jesus experienced at His baptism to the supernatural events surrounding the crucifixion and resurrection Dr Spell will take the reader on a journey of exploration through the pages of Mark s Gospel The miracles of Jesus are as profoundly important for us today as they were for those who experienced them This study will help to guide readers in finding insights for their own lives *Irony in Mark's Gospel* Jerry Camery-Hoggatt,2005-10-06 The author of this lucid and interdisciplinary study of Mark s Gospel believes that when applied to Gospel texts sociological analysis and literary criticism may be far closer together in purpose and intent than is often supposed Professor Camery Hoggatt therefore begins his work with an exploration of the social functions of narrative in general and of ironic narrative in particular He then turns to the literary functions of the internal elements of the narrative and draws the two discussions together into a single framework that can be used as a lens through which Mark s Gospel can be read The author s claim is that irony especially dramatic irony thoroughly permeates the Gospel and that this evinces a rhetorical strategy central to Mark s whole narrative The second half of the book shows that the presence of irony is especially powerful when the deeper level of meaning is somehow hidden from the story s characters *The Theological Intentions of Mark's Literary Devices* Dean B. Deppe,2015-10-22 What sets *The Theological Intentions of Mark s Literary Devices* apart from other books What niche does it fill that makes its publication important This volume will interest all those who value a literary approach to the Gospel of Mark Dean Deppe introduces some new literary devices in the research of the Gospel of Mark as well as demonstrates the theological intentions of Mark when he employs these literary devices Deppe argues that Mark employs the literary devices of intercalation framework allusionary repetitions narrative surprises and three types of mirroring to indicate where he speaks symbolically and metaphorically at two levels Mark employs these literary devices not just for dramatic tension and irony but also for theological reasons to apply the Jesus tradition to specific problems in his own day *The Christology of Mark's Gospel* Jack Dean Kingsbury,1983 This important work represents a major methodological advance in the study of the Gospels The result

is a significant reassessment of Mark's Christology and a stunning new interpretation of the secrecy motif
