Hulbert, Noel Capon, Nigel Piercy, 2003 The authors argue that

marketing has lost its way and that companies cannot win in today's highly competitive markets by leaving marketing up to the marketing department. They assert that the new marketplace demands integration of the firm's entire capabilities into a system which delivers exemplary customer satisfaction. Integrating marketing is imperative from the top down and with every major function: finance, operations, sales, R D, customer service, and HR. Only by creating Total Integrated Marketing, they say, which ensures that everyone in the organization has one paramount goal to get and keep customers, can success be achieved. They provide marketing tips and innovations that readers can adapt to their own businesses and revealing cases which lift the lid on good and bad practice around the world.
