Greatest Metal Guitarists Joel McIver, 2008-12-15 The 100 Greatest Metal Guitarists is a controversial and much needed guide to the world of metal guitar featuring the most accomplished performers from the vast legions of metal As well as celebrating the classic metal musicians who have defined the scene since the 1970s author Joel McIver delves deep into the modern thrash metal death metal black metal doom metal power metal and battle metal movements to unearth those players for whom no tremolo divebomb is too high and no tuning is too low This book is no mere list for geeks though McIver s objective in writing this book is to recognise the incredible skills that these players possess Moreover although they re all masters of sweep picking fretboard tapping and the other tricks of the modern shredder these players are far from simple speed freaks The 100 Greatest makes a point of featuring players whose feel and instinct for the values of metal outweigh mere technical mastery If you ve ever wielded a tennis racket in anger in front of a bedroom mirror or even if you re a metal musician yourself you need this book the world of the overdriven guitar will never look the same again [CMJ New Music Report](#) ,2004-09-20 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ s trade publication compiles playlists for college and non commercial stations often a prelude to larger success **CMJ New Music Report** ,2004-10-11 CMJ New Music Report is the primary source for exclusive charts of non commercial and college radio airplay and independent and trend forward retail sales CMJ s trade publication compiles playlists for college and non commercial stations often a prelude to larger success
