middle of the nineteenth century The defining characteristic of these movements is usually a prophecy of the end of this present world and the restoration of the primordial utopian world of creation This prophetic message delivered by powerful shamans has its roots in Baniwa myths of origin and creation In this ethnography of Baniwa religion Robin M Wright explores the myths of creation and how they have been embodied in religious movements and social action particularly in a widespread conversion to evangelical Christianity He opens with a discussion of cosmogony cosmology and shamanism and then goes on to explain how Baniwa origin myths have played an active role in shaping both personal and community identity and history He also explores the concepts of death and eschatology and shows how the mythology of destruction and renewal in Baniwa religion has made the Baniwa people receptive to both Catholic and Protestant missionaries *Arabian Nights, in 16 volumes* Romesh C.  Phylogenesis of beauty by Pietro Gaietto is a scientific treatise on the origins and general evolutionary outcome of beauty from the beginning of the world to the present Beauty has never before been the object of scientific study nor has its evolution Gaietto has integrated human products including art into the general evolution of beauty in nature noting that man

s object follow the same rules of evolutionary transformation found in organic and inorganic physical forms Gaietto s hypothesis on the transformation of beauty concerns all the kingdoms of nature as they have appeared in chronological order from the earliest geological ages and as discovered by geologists paleontologists and paleontologists The book s scientific analysis of beauty in human artifacts excludes questions of quality even if they exist as well as the idea of ugliness because man intentionally produces only beautiful things *The Publishers Weekly* ,1908
