

of plants are dying. The salty water is encroaching on their habitat killing their roots. The landscape is also changing because as water level rises, the island off-shore is now easily hit by storm surges.

The changes in environment from which the people depend on are denying the optimum use in order to earn a living. The oil exploration drilling is causing harm to the environment the Bayou people depend on. The trappers enjoy the migration that they make, in November they live their inland homes and move to the marsh. Their movement is similar to the migratory birds. They eat muskrat and nutria. They value their culture of trapping so much that Blaine says that he says that he does not regret dropping out at 7th grade. He says, "I'd probably have a different job somewhere an' they wouldn't let me take the reaping' season off. I sure couldn't take that" (Hallowell10).

The means of survival has to change for the Bayou people. According to the book some seasons produce food, some desperation (Hallowell 99).The Bayou are beginning to make changes in their life. Plans are underway to build a road to the village. Electricity has been put. This means that the community will catch up with the dominant American culture.

Likes about the book

The author has a clear method of bringing out the fast changes in the environment of the people of Bayou.he describes the marshy land as, 'a lost piece of America about to sink into the Gulf' (Hallowell 12).The problems experienced by people of Bayou are similar to the other parts of America. For instance fighting over scarce a resource is similar to those earning a living from the mash. The Daisy and Stelly families are no longer united; the cohesion in their society is breaking down. This is also similar to the fast world. We are living in an age where people are preoccupied with making money. Americans are working two jobs to support their families and improve their standard of living hence there is not enough time spent with family. This may have a direct link with the rising number of divorce cases.

People Of The Bayou Cajun Life In Lost America:

People of the Bayou Christopher Hallowell, 1979 Cajun life in lost America People of the Bayou Hallowell, Christopher, 1979 **Cajun Literature and Cajun Collective Memory** Mathilde Köstler, 2022-12-19 How does Cajun literature emerging in the 1980s represent the dynamic processes of remembering in Cajun culture Known for its hybrid constitution and deeply ingrained oral traditions Cajun culture provides an ideal testing ground for investigating the collective memory of a group In particular francophone and anglophone Cajun texts by such writers as Jean Arceneaux Tim Gautreaux Jeanne Castille Zachary Richard Ron Thibodeaux Darrell Bourque and Kirby Jambon reveal not only a shift from an oral to a written tradition They also show hybrid perspectives on the Cajun collective memory Based on recurring references to place the texts also reflect on the Acadian past and reveal the innate ability of the Cajuns to adapt through repeated intertextual references The Cajun collective memory is thus defined by a transnational outlook a transversality cutting across various ethnic heritages to establish and legitimize a collective identity both amid the linguistic and cultural diversity in Louisiana and in the face of American mainstream culture Cajun Literature and Cajun Collective Memory represents the first analysis of the mnemonic strategies Cajun writers use to explore and sustain the Cajun identity and collective memory

award winning journalist issues a call to arms and confronts us with some unsettling facts Consider In the next seventy five years much of the Florida peninsula could lie under ocean water So could much of Lower Manhattan including all of the hallowed ground zero area Major hurricanes like Katrina scientists say are becoming much more frequent and more powerful Glacier National Park in Montana will have to change its name as it is rapidly losing all of its thirty five remaining glaciers The snows atop Mt Kilimanjaro in Africa so memorably evoked in the Hemingway story have already disappeared The fault Tidwell argues lies mostly with the U S government and the energy choices it has encouraged Americans to make over the decades Those policies are now actively bringing rising seas and gigantic hurricanes the lethal forces that killed the Big Easy crashing into every coastal city in the country and indeed the world The Bush administration s own reports and studies some of which it has tried to suppress explicitly predict more intense storms and up to three feet of sea level rise by 2100 due to planetary warming The danger is clear Whether the land sinks three feet per century as in New Orleans over the past 100 years or sea levels rise three feet per century as in the rest of the world over the next 100 years the resulting calamity is the same Although Mike Tidwell sounds the clarion in *The Ravaging Tide* this is ultimately an optimistic book one that offers a clear path to a healthier and safer world for us and our descendants He writes of trend setting U S states like New York and California that are actively cutting greenhouse gases And he heeds his own words In one delightful personal chapter he takes us on a tour of his suburban Washington D C home and demonstrates how he and many of his neighbors have weaned themselves from the fossil fuel lifestyle Even when the government is slow to change there are steps we as families can take to yes change the world
