Political Brokers Cloth:

The Politics of Privilege Gail Bossenga, 2002-05-09 This study analyzes the political and fiscal origins of the French Revolution by looking at the relationship between the royal government and privileged corporate bodies at local level Utilizing a neo Tocquevillian approach it argues that the monarchy undermined its own attempts at reform by extending central authority while at the same time it continued to rely upon corporate structures and monopolies to finance the state The unresolvable institutional conflicts had the effect of politicising members of the privileged elite and eventually led many of them to embrace a rhetoric of citizenship accountability and civic equality that had far reaching and unanticipated consequences When Lille s bourgeoisie consolidated a municipal revolution in 1789 they followed a programme that was politically liberal but economically conservative Arranged as a series of case studies the book illuminates the structure of political power in the Flemish provincial estates the growth of royal taxation the problem of municipal credit the role of venal officeholders and the relationship of the revolutionary bourgeoisie to monopolies of the guilds

Secrets of the Cloth

Carlton James, 2019-04-10 James Carlos George and Arthur met as fraternity brothers in college Back then they were hazy representations of the men they would one day become By some sort of miracle each of the four develops as a strong leader pulled to the power of the church In adulthood they reach the pinnacle of career success as influential mega church pastors However things are not what they seem These four friends hold more authority than any men rightly should The full package they have charisma good looks money and Ivy League resumes To the average layman these church overseers are the epitome of what a spiritual guru should be but to the keen observer they are more feared than loved To those enlightened by truth the reality of their identities is clear James Carlos George and Arthur are not men of the cloth but gangsters who run both their churches and the streets with dictatorial glee With rumors of ties to the Illuminati circulating these four prominent pastors are now catapulted from the crime riddled streets of Jacksonville Florida to the forefront of a secret national movement that threatens lives and even souls

Power-brokers and the Yorkist State, 1461-1485 Alexander R. Brondarbit,2020 Examination of the role played by key figures around the monarchy in the Wars of the Roses **Stages of Loss** George Oppitz-Trotman,2020-07-29 Stages of Loss supplies an original and deeply researched account of travel and festivity in early modern Europe complicating revising and sometimes entirely rewriting received accounts of the emergence and development of professional theatre It offers a history of English actors travelling and performing abroad in early modern Europe and Germany in particular during the sixteenth and seventeenth centuries These players known as English Comedians were among the first professional actors to perform in central and northern European courts and cities The vital contributions made by them to the development of a European theatre institution have long been neglected owing to the pre eminence of national theatre histories and the difficulty of researching an inherently evanescent phenomenon across large distances These contributions are here introduced in their proper contexts for the first time Stages of Loss explores connections real and perceived between diminishments of national value and the material wealth transported by itinerant players representations of loss waste and profligacy within the drama they performed and the extent to which theatrical practice and the process of canonization have led to archival and interpretive losses in theatre history Situating the English Comedians in a variety of economic social religious and political contexts it explores trends and continuities in the reception of their itinerant theatre showing how their incorporation into modern theatre history has been shaped by derogatory assessments of travelling theatre and itinerant people in the seventeenth and eighteenth centuries Stages of Loss reveals that the Western theatre institution took shape partly as a means of accommodating controlling evaluating and concealing the work of migrant strangers **The Publishers' Trade List Annual** ,1982 **Chinese Daigou: An Ethnography of Brokerage Practices and Mobility Politics in Globalized China** Zhuoxiao Xie,2024-12-02 This book is an ethnography of Chinese daigou cross border shopping on the behalf of

mainland Chinese customers and their mobilities practices Daigou practitioners predominantly women engage in selling purchasing and delivering goods between mainland China and overseas regions With the rise of the platform economy and mobile technologies daigou has evolved into a niche market contributing to the her economy and consumerism in China This ethnography provides a comprehensive exploration of the gendered technological practices of mobile communication and mobility politics between mainland China and Hong Kong depicting micro entrepreneurship place making and border crossing activities in three intersecting scenes Theoretically this book synthesizes the literature on mobilities science and technological studies service labor and mobile communication It offers a fresh perspective by focusing on the mobile communication that both produces and is produced by mobilities of people data objects and technologies The study expands theories of mobility politics by developing a heuristic model of brokerage theorizing the communication processes through which daigou as brokers influence manage or facilitate multiple forms and meanings of mobilities in globalized China From a feminist science and technology perspective the book examines how daigou scenarios embed gender specific concepts into technological practices reinforcing entrenched unequal gender relations in service labor and family contexts It interrogates the mechanisms of unequal mobilities associated with the logic of brokerage which strengthens the differentiation of gender technology and labor among different parties These brokerage processes multiply the discrepancies in mobilities exacerbating gaps in structural relationships and becoming significant mechanisms of inequality

Brokering Empire E. Natalie Rothman, 2012-03-27 Explores how diplomatic interpreters converts and commercial brokers mediated and helped define political linguistic and religious boundaries between the Venetian and Ottoman empires in the sixteenth and seventeenth centuries Author's Web site

Dealing with Government in South Sudan Cherry Leonardi, 2013 Explores various aspects of chiefly authority in South Sudan from its historical origins and evolution under colonial postcolonial and military rule to its current roles and value in the newly independent country South Sudan became Africa's newest nation in 2011 following decades of armed conflict Chiefs or traditional authorities became a particular focus of attention during the international relief effort and post war reconstruction and state building But traditional authority in South Sudan has been much misunderstood Institutions of chiefship were created during the colonial period but originated out of a much longer process of dealing with predatory external forces This book addresses a significant paradox in African studies more widely if chiefs were the product of colonial states why have they survived or revived in recent decades By examining the long term history of chiefship in the vicinity of three towns the book also argues for a new approach to the history of towns in South Sudan Towns have previously been analysed as the loci of alien state power yet the book demonstrates that these government centres formed an expanding urban frontier on which people actively sought knowledge and resources of the state Chiefs mediated relations on and across this frontier and in the process chiefship became central to constituting both the state and local communities Cherry Leonardi is Senior Lecturer in African History at Durham University a former course director of the

Rift Valley Institute's Sudan course and a member of the council of the British Institute in Eastern Africa Published in association with the British Institute in Eastern Africa

Renaissance Clothing and the Materials of Memory Ann Rosalind Jones, Peter Stallybrass, 2000 During the late sixteenth century fashion first took on the sense of restless change in contrast to the older sense of fashioning or making As fashionings clothes were perceived as material forms of personal and social identity which made the man or woman In Renaissance Clothing and the Materials of Memory Jones and Stallybrass argue that the making and transmission of fabrics and clothing were central to the making of Renaissance culture Their examination explores the role of clothes as forms of memory transmitted from master to servant from friend to friend from lover to lover This 2001 book offers a close reading of literary texts paintings textiles theatrical documents and ephemera to reveal how clothing and textiles were crucial to the making and unmaking of concepts of status gender sexuality and religion in the Renaissance The book is illustrated with a wide range of images from portraits to embroidery

The Saturday Review of Politics, Literature, Science, Art, and Finance, 1864 **The Saturday Review of Politics, Literature, Science and Art**, 1856 Business, Race, and Politics in British India, c.1850-1960 Maria Misra, 1999-04-29 This is a study of the political and economic activities of an important group of British businessmen in India between 1850 and 1960 Though denounced by Indian nationalists as the economic arm of the British Raj the firms of these Managing Agents seemed unassailable before the First World War However during the inter war period they rapidly lost their commanding position to both Indian and other foreign competitors Dr Misra argues that the failure of these firms was in part the consequence of their particular and ultimately self defeating attitudes towards business politics and race She casts new light on British colonial society in India and makes an important contribution to current debates on the nature of the British Empire and the causes of Britain's relative economic decline
