Religion And Society Emerging Questions Onclin Chair

Detlef Pollack, Gergely Rosta

Religion And Society Emerging Questions Onclin Chair:

Religion and Society ,2005 **State and Church in the European Union** Gerhard Robbers,2019-09-24 Im Prozess der europäischen Einigung kommt den Kirchen als wesentlicher Bestandteil der europäischen Kultur eine besondere Bedeutung zu. Ein Europa, das den gemeinsamen Verfassungsüberlieferungen, den Traditionen und Kulturen der Mitgliedstaaten ihrer nationalen Identität und dem Grundsatz der Subsidiarität verpflichtet ist, wird das gewachsene Staatskirchenrecht seiner Mitgliedstaaten zu respektieren haben. Die 2. Auflage bietet einen umfassenden Vergleich der unterschiedlichen staatskirchenrechtlichen Systeme in den Mitgliedstaaten der Europäischen Union. Der Sammelband berücksichtigt auch die neuen Mitgliedsländer und beschreibt europaweite Entwicklungen. Er macht deutlich, wie sich die europäische Integration auf die Stellung der Kirchen auswirkt. Das Werk ist für jeden, der im Staatskirchenrecht arbeitet, aber auch für staatliche und kirchliche Institutionen von Interesse. Das Buch ist in Zusammenarbeit mit dem Europäischen Konsortium für Staat-Kirche-Forschung entstanden. Die Autoren führende Staatskirchenrechtler aus den verschiedenen Mitgliedstaaten der EU erläutern die religionsverfassungsrechtlichen Systeme ihrer Heimatländer. Der Herausgeber ist Professor für Öffentliches Recht an der Universität Trier und Leiter der Forschungsstelle für Europäisches Verfassungsrecht. James Madison David

Mattern,2004-08-15 This is a biography of the fourth president of the United States who helped ensure ratification of the Constitution and the Bill of Rights. **The Tablet** ,1971 **Reconsidering Religion, Law, and Democracy** Anna-Sara Lind, Mia Lövheim, Ulf Zackariasson,2016-03-01 How are Western, mostly secular societies handling religion in its increasingly pluralistic and complex forms? In *Reconsidering Religion, Law, and Democracy* the authors study the interaction and negotiations between religious organizations and religious citizens on the one hand, and the state, the judicial system, the media, and secular citizens on the other. Religion has become increasingly visible in contemporary society and is more often than before recognized as a public matter and not merely a private issue. As such, it presents new challenges or opportunities to scholarly research and to society at large. The contributors to this volume shed light on what follows when expressions of religion meet different spheres of society. The authors explicitly point to the need to develop a more comprehensive understanding of the roles played by religion in society today. By presenting case studies, fresh perspectives, and new questions, they suggest that deeper knowledge is best achieved by further, increasingly nuanced interdisciplinary research.

Is God Back? Titus Hjelm,2015-07-02 *Is God Back?* *Reconsidering the New Visibility of Religion* examines the shifting boundary between religion and the public sphere in Europe and the Middle East. Asking what the new visibility of religion means and challenging simplistic notions of living in a post-secular age, the chapters explore how religion is contested and renegotiated in the public sphere or rather in different publics and the effects of these struggles on society, state, and religion itself. Whereas religion arguably never went away in the USA, the re-emergence of public religion is a European phenomenon. *Is God Back?* provides timely case studies from Europe as well as extending to the Middle East, where fledgling democracies

are struggling to create models of governance that stem from the European secular model but which need to be able to accommodate a much more public form of religiosity Discussions include the new visibility of neo Pagan and Native Faith groups in Europe Evangelical Christians and Church teaching on sexuality in the UK and Islamic social Movements in the Arab world Drawing from empirical and theoretical research on religion and national identity religion and media church state relationships and religion and welfare Is God Back is a rich source for students and scholars interested in the changing face of public religion in the modern world including those studying the sociology of religion social policy and theology

Handbook of Religion and Society David Yamane, 2016-07-15 The Handbook of Religion and Society is the most comprehensive and up to date treatment of a vital force in the world today It is an indispensable resource for scholars students policy makers and other professionals seeking to understand the role of religion in society This includes both the social forces that shape religion and the social consequences of religion This handbook captures the breadth and depth of contemporary work in the field and shows readers important future directions for scholarship Among the emerging topics covered in the handbook are biological functioning organizational innovation digital religion spirituality atheism and transnationalism The relationship of religion to other significant social institutions like work and entrepreneurship science and sport is also analyzed Specific attention is paid where appropriate to international issues as well as to race class sexuality and gender differences This handbook includes 27 chapters by a distinguished diverse and international collection of experts organized into 6 major sections religion and social institutions religious organization family life course and individual change difference and inequality political and legal processes and globalization and transnationalism

Modernities, Memory and Mutations Abby Day, Mia Lövheim, 2016-03-03 Grace Davie one of the world's most influential scholars in contemporary sociology of religion has furthered a tradition developed by David Martin and others in comparative sociology of religion and modernity in European and international perspective Davie's writings on belief and belonging particularly in a context outside active Church participation have contributed important understandings of the cultural role of religion as memory and practice in contemporary European societies Through her most recent work on new roles of religion in relation to the political legal and welfare sectors of society she has addressed debates on the resurgence of religion and the post secular condition Modernities Memory and Mutations presents an overview and critical engagement with contemporary themes in the sociology of religion which will inform current and forthcoming generations of scholars Reflecting on how Grace Davie's contributions have influenced their own work and wider debates in the field leading international scholars engage with themes Davie has critically explored across religious studies and mainstream sociology evolving a new research agenda for sociology of religion

Religion Matters Paul Babie, Rick Sarre, 2020-03-02 This book draws together leaders in science the health sciences the humanities and the social sciences to investigate the role of religion its meaning and relevance for their area of specialization It provides a much needed fresh perspective on the way in

which religion operates within the modern neo liberal world The book approaches the topic by way of a critical engagement between religion broadly defined and the individual disciplines in which each of the contributors is expert Rather than simply taking the dogmatic position that religion offers something to every possible discipline each of the chapters in this collection addresses the question is there something that religion can offer to the discipline in question That is the value of the book it takes a truly critical stance on the place of religion in contemporary society

Researching New Religious Movements Elisabeth Arweck, 2004-08-02 New religious movements such as the Moonies Jehovah's Witnesses and Hare Krishnas are now well established in mainstream cultural consciousness But responses to these cult groups still tend to be overwhelmingly negative characterized by the furious reactions that they evoke from majority interests Modern societies need to learn how best to respond to such movements and how to interpret their benefits and dangers *Researching New Religious Movements* provides a cutting edge analysis of the controversy around new religions in America and Europe today Drawing on original fieldwork it explores the battles between the recruiting factions of groups like the Moonies and the anti cult movements and Church societies that have mobilized to oppose these It considers academic and media interventions on both sides placing special emphasis on the problems of objectivity inherent in the language of sects abduction and brainwashing Ideal for students researchers and professionals this provocative and much needed book takes the debate over new religious movements to a newly sophisticated level

Religion and Modernity Detlef Pollack, Gergely Rosta, 2017-11-28 This is not a book that provides a new integrated theory of religious change in modern societies but rather one that develops theoretical elements that contribute to the understanding of some contemporary religious developments Most of the approaches in sociology of religion are prone to emphasise either processes of religious decline or of religious upswing For example secularization theory usually includes a couple of relevant factors such as functional differentiation economic affluence or social equality in order to account for religious change However the result of such a theory's empirical analyses seems to be certain in advance namely that the social relevance of religion is decreasing In contrast the religious market model devised by sociologists of religion in the US is inclined to detect everywhere processes of religious upsurge *Religion and Modernity* An International Comparison avoids a purely theoretically based perspective on religious changes For this reason Detlef Pollack and Gergely Rosta do not begin with theoretical propositions but with questions The authors raise the question of how the social significance of religion in its various facets has changed in modern societies and explain what factors and conditions have contributed to these changes

Religion and Society Gerrie ter Haar, Yoshio Tsuruoka, 2007-10-30 Religion is set to be a major force in the twenty first century Here is a book that tells us what the world's leading scholars have to say about this Issues of conflict and peace ethical questions concerning the use of advanced technology explanations of the global religious revival and the role of women in religious leadership as well as questions about how to study religion are all discussed It is a volume that ranges exceptionally widely in terms of the themes discussed the variety of disciplines and the

participation of international scholars debating with each other One section of the book is devoted to Japanese scholarship concerning the world's major religions Contributors include Talal Asad Chin Hong Chung Armin Geertz Gerrie ter Haar Rosalind Hackett Eiko Hanaoka Sh t Hase Mark Juergensmeyer Noriko Kawahashi Kiyotaka Kimura Ursula King Pratap Kumar William Lafleur Sylvia Marcos Tomoko Masuzawa Ebrahim Moosa K jir Nakamura Vasudha Narayanan Haruko Okano Suwanna Satha Anand Susumu Shimazono Noriyoshi Tamaru Masakazu Tanaka Hiroshi Tsuchiya Yoshio Tsuruoka Manabu Watanabe and Pablo Wright

The Centrality of Religion in Social Life Eileen Barker, 2010 A collection of the themes that are important for today's sociology of religion this volume is essential for anyone interested in religion's place in contemporary society it answers many questions and raises many new ones The breadth of topics examined in this collection is evidence of James Beckford's many contributions to the sociology of religion and more importantly to advancing the argument that we cannot understand society even presumably today's secular society without some appreciation for the role of religion A much deserved recognition A fitting tribute to a distinguished career this book is a celebration of James Beckford's lifelong endeavor to make religion central to social theory An excellent collection of thoughtful and often innovative essays from some of the best sociologists of religion developing many of the important themes so masterfully treated in Jim Beckford's work Chock full of helpful new insights everyone in the sociology of religion will find something of interest and significance in this book Befitting the career of James Beckford this book contributes to a genuinely comparative sociology of religion

Religion in Times of Crisis Gladys Ganiel, Heidemarie Winkel, Christophe Monnot, 2014 Religion is alive and well all over the world especially in times of personal political and social crisis Even in Europe long regarded the most secular continent religion has taken centre stage in how people respond to the crises associated with modernity or how they interact with the nation state In this book scholars working in and on Europe offer fresh perspectives on how religion provides answers to existential crisis how crisis increases the salience of religious identities and cultural polarization and how religion is contributing to changes in the modern world in Europe and beyond Cases from Poland to Pakistan and from Ireland to Zimbabwe among others demonstrate the complexity and ambivalence of religion's role in the contemporary world
