Religions Values And Peak Experiences:

Religions, Values, and Peak-Experiences Abraham H. Maslow, 1994-04-01 Proposing religious experience as a legitimate subject for scientific investigation Maslow studies the human need for spiritual expression **Religions, Values, and Peak-experiences** Abraham Harold Maslow, 1976-01 **Religions, Values, and Peak-experiences** Abraham Harold Maslow, 1994 Written in the mid 1960s this is Maslow's classic treatise on transcendent states of being and their essential value in human life Proposing religious experience as a legitimate subject for scientific investigation Maslow studies the human need for spiritual expression *Religions, Values, and Peak-experiences* Abraham Harold Maslow, 1974

Religions Values and Peak-Experiences Abraham H. Maslow, 2021-11-09T16:42:00Z One of the foremost spokesmen for the Third Force movement in psychology Abraham H Maslow here articulates one of his prominent theses the religious experience is a rightful subject for scientific investigation and speculation and conversely the scientific community will see its work enhanced by acknowledging and studying the species wide need for spiritual expression which in so many forms is at the heart of peak experiences reached by healthy fully functioning people *Theories of Religion* Seth Daniel Kunin, Jonathan Miles-Watson, 2006 This book provides a comprehensive selection of readings that relate to and explore the definition of religion The texts come from a wide range of approaches unified both by the questions they are addressing and their broadly social scientific perspective The disciplines covered include anthropology phenomenology psychology and sociology The editors have also included some key texts relating to the feminist approach to and critique of religion The first section of the book includes some of the foundational texts such as materials by Marx Freud and Durkheim The remaining sections look at more recent discussions of the issues from the different disciplinary perspectives Each reading is introduced by a biographical sketch of the author The book also includes introductory discussions to each section that both raise the key issues developed in a particular discipline and address the disciplinary approaches from a more critical stance *Theories of Religion A Reader* is an invaluable critical resource accessible to a broad audience as well as students of theology and religious studies *Journeys of Faith* Mike Brock, 2023-06-20 *Journeys of Faith* examines the contributions of the leading figures of the humanistic psychology movement with particular attention to their spiritual journeys Rising to prominence in America during the post World War II years humanistic psychology is experiencing a resurgence in the present day in response to the need for a psychological approach that addresses meaning and purpose in life The key players Abraham Maslow Carl Rogers Erich Fromm and Rollo May all rejected the orthodoxy of their religious inheritance in favor of a more humanistic approach and in the process discovered a renewed spirituality that they hoped would address the concerns of a world yearning for something to believe in While the humanistic psychologists confronted the world's problems through the lens of psychology other thinkers such as the evolutionary biologist Julian Huxley approached them through different though equally humanistic perspectives Others still such as Paul Tillich Martin Buber and Pierre Teilhard de Chardin confronted the

times through a religious lens The influence of the centuries long Jewish tradition of scholarship and social justice and the frequent examples of friendship and professional cooperation between the secular and the religious worlds provide critical subthemes for the lasting appeal of humanistic psychology

Valuing Peak Experience in Everyday Lives Kay A M Weijers, Elaine R J Cox, 2025-03-04 Valuing Peak Experience in Everyday Lives takes Abraham Maslow's concept of peak experience and compares how people have encountered transcendent peak experiences and related phenomena such as flow and peak performance in their everyday lives By examining existing research and sharing people's actual encounters in different contexts such as music education sport creative arts and nature the importance and value of peak experiences and self transcendence in our lives can be better understood and fostered The book explores the challenges benefits and opportunities presented by understanding peak experience in contemporary contexts Drawing on research from positive and transpersonal psychology each of the 12 chapters reports on a work or leisure context where peak experiences have been generated and studied The chapters are introduced by drawing on relevant theory and research and then expanded via accounts vignettes and examples from people immersed in those activities or contexts to provide a blend of case stories and theoretical foundations The book is valuable reading for professional practitioners such as psychologists educators coaches psychotherapists and those interested in personal development Also it will be relevant for students of transpersonal and positive psychology as well as humanism and human development interested in understanding transcendent peak experiences and related concepts such as flow

Wandering, Not Lost Barry L. Casey, 2019-11-01 A spiritual journey may take many forms from Dante's descent to the pits of Hell and up the other side to the bliss of Paradise to Pilgrim's progress or even to Billy Pilgrim unstuck in time in Vonnegut's Slaughterhouse Five It could be Elijah running headlong into the desert or Jonah being flung ashore and shouting in Nineveh a petulant prophet to the end Faith can be carried like pennies in the pocket or worn like a coat of many colors Abraham and Moses Mary and Peter all of them carried their faith and all of them had their doubts Doubt is the companion of faith and the mystery that bonds them together comes out in stories These are stories of faith doubt and mystery Not all who wander are lost

Religion in Personality Theory Frederick Walborn, 2013-12-03 Religion in Personality Theory makes clear the link between theory and research and personality and religion Presently most personality texts have a limited discussion of religion and reference few theorists other than Freud and Maslow in relation to the subject This book reviews the theory and the empirical literature on the writings of 14 theorists Every chapter concludes with a summation of the current research on the theorist s proposals Reviews Frederick Walborn has written an excellent text that explores the degree to which classical personality theorists were personally influenced by and focused upon religion in developing their personality theories Each theorist is presented in sufficient detail so that their personal views of religion are seen to influence the theories they developed In addition the current status of the empirical evidence in the psychology of religion is explored in the context of the theorist and theory to which the data is most relevant Current and up to date this text is appropriate for either a course in Personality or as an introduction to the Psychology of Religion The author s own comprehensive theory of religion and spirituality creatively integrates the positive contributions of the classical personality theorist to the contemporary psychology of religion Ralph W Hood Jr Professor of Psychology University of Tennessee at Chattanooga In this interesting and accessible book Frederick Walborn thoughtfully probes the place of religion and spirituality in the writings of a broad range of classical psychological thinkers and offers an insightful critique of current empirical research on the complex relation of religion and spirituality to individual well being Michele Dillon Ph D Professor and Chair Department of Sociology University of New Hampshire Durham New Hampshire Identifies what major personality theorists say about religion Investigates whether evidence supports or refutes predictions made by different theories Concludes with a comprehensive integrative theory on religion and spirituality

Acute Religious Experiences Richard Saville-Smith, 2023-02-09 This book engages the problem of how in the 21st century we are to speak about experiences of the extraordinary anomalous extreme which occur on a transhistorical and transcultural basis Critical re readings of seminal texts show how 20th century theoreticians in the humanities sought to erase madness from their irrational subjects This propensity to sanitize madness in the study of religions was mirrored by the instinct of psychiatrists to degrade religious experiences by reducing mad consciousness to psychosis or dissociation Richard Saville Smith introduces explanatory pluralism as a way of recognizing these disciplinary biases and mad studies as a way of

negotiating this understanding The disproportionate significance of madness in shaping the fabric of the human story can then be recovered from both erasure and dismissal to be given the recognition previously denied as acute religious experiences Acute Religious Experiences divides into three sections beginning with re readings of William James s pathological programme Rudolf Otto s numinous T K Oesterreich s possession Mircea Eliade s shamanism Walter Stace s mysticism Walter Pahnke s psychedelic experience and Abraham Maslow s peak experiences These ideas are shown to constitute the beginnings of a fractured discourse on the irrational In part two contemporary psychiatry s Diagnostic and Statistical Manual DSM and Foucault s History of Madness are re read to reposition madness as not necessarily pathological This opens the way for the identification of acute religious experiences as a new holistic and post colonial approach through which religious data can be organized and addressed on a comparative basis In part three The Gospel of Mark is re read as a case study to demonstrate the novel insights which flow from the identification of acute religious experiences Richard Saville Smith draws on his own experiences of madness and his PhD from the School of Divinity at The University of Edinburgh to elucidate his research

Malthus, Medicine & Morality Brian Dolan, 2000 Thomas Robert Malthus s reputation has lately been rehabilitated in the fields of social biology demography environmentalism and economics In the midst of this current interest and with the chance to mark the occasion of the bicentenary of the first edition of the Essay on Population 1798 the contributors to this volume take this timely opportunity to examine the historical conditions in which Malthus constructed his theory and in which the concept of a Malthusian and Neo Malthusian philosophy first emerged The essays redress the balance between Malthus s original argument the immediate responses to Malthus by medics and theologians in Britain and on the Continent and some of the ways that his ideas were later attacked appropriated or misrepresented Included here are essays that not only re evaluate the development of Malthus s theory but also offer critical perspectives on the generation of the Malthusian league and debates about birth control in Britain and on the Continent and Malthus s influence on the emergence of social science and Darwinian evolutionary biology

Sacred Bliss Mark S. Ferrara, 2016-10-20 One of the most important relationships that human beings have with plants is changing our consciousness consider the plants that give us coffee tea chocolate and nicotine Sacred Bliss challenges traditional attitudes about cannabis by tracing its essential role in the spiritual and curative traditions in Asia the Middle East Africa Europe and the Americas from prehistory to the present day In highlighting the continued use of cannabis around the globe Sacred Bliss offers compelling evidence of cannabis as an entheogen used for thousands of years to evoke peak experiences or moments of expanded perception or spiritual awareness Today the growing utilization of medical cannabis to alleviate the pain and symptoms of physical illness raises the possibility of using cannabis to treat the mind along with the body By engaging sacred and secular texts from around the world Sacred Bliss demonstrates that throughout religious history cannabis has offered access to increased imagination and creativity heightened perspective

and insight and deeper levels of thought *Philosophical and Theological Papers, 1965-1980* Bernard Lonergan, 2004-06-02
A companion to Philosophical and Theological Papers 1958 1964 Volume 6 in the Collected Works of Bernard Lonergan series this anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965 1980 These papers document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980 when he was more engaged in his writings and seminars on macroeconomics Philosophical and Theological Papers 1965 1980 is divided into five sections forming units on the basis of dates The three central sections are each a set of lectures respectively given at the Massachusetts Institute of Technology Gonzaga University in Spokane and Trinity College University of Toronto Although there is some repetition amongst the lecture sets and in relation to other more familiar works this repetition displays occasional new turns of phrase that the careful reader will note In at least one instance familiar material suddenly opens out onto expressions not to be found anywhere else in Lonergan's work Other very interesting developments regard the movement from speaking of the immutability of dogmas to their permanence of meaning and the permutations among real self transcendence performative self transcendence and moral self transcendence

Philosophical and Theological Papers, 1965-1980 Bernard J. F. Lonergan, 2004-01-01 This anthology contains Lonergan's lectures on philosophy and theology given during the later period of his life 1965 1980 and document his development in the discipline during the years leading up to the publication of *Method in Theology* and beyond to 1980 Is the Quest for Meaning the Quest for God? W Stoker, 1996 Traditionally religion was the supplier of meaning It is often said that the quest for meaning is at bottom a quest for God a quest that can only find an adequate answer in religion But then what is the alternative for those who reject religion Emptiness and meaninglessness as Nietzsche succinctly formulated it We have killed God Are we not straying as through an infinite nothing In the meantime non believers have found a solution for the crisis in meaning People are not usually nihilists but live their lives and consider them to be meaningful without religion This study is concerned with determining once again the place of the ascription of meaning from the perspective of the Christian faith in its relation to the non religious ascription of meaning For this purpose an analysis is given of contemporary theological and philosophical views of the problem of meaning The crisis of meaning as it has arisen in Nietzsche and the theatre of the absurd is examined Stoker also discusses contemporary forms of the ascription of meaning without religion such as self actualization and functional rationality as sources of meaning Stoker rejects an apologetics of need He posits that the Christian faith does not have an exclusive right to the ascription of meaning but this obtains also for secular forms of the ascription of meaning such as humanism Is God then the ultimate concern of each person From the perspective of the Christian faith yes but this does not mean that the non religious ascription of meaning as such must be viewed negatively Stoker illustrates how the religious and the non religious ascriptions of meaning are similar and how they differ Both are intended to be the source of meaning for human questions of life and death With respect to their differences the author

demonstrates that the ascription of meaning from the perspective of the Christian faith does not entail a disqualification of a non religious worldview but is intended to make people more human
