Walker-Meikle, 2012 Animals in the middle ages have often been discussed but usually only as a source of food as beasts of burden or as aids for hunters This book takes a completely different angle showing that they were also beloved domestic companions to their human owners It offers a full survey of pets and pet keeping how they were acquired kept fed exercised and displayed it looks at the problems pets could cause and finally how they were mourned It also examines the representation of pets and their owners in art and literature the many charming illustrations offer further evidence for the bonds between humans and their pets then as now Dr Kathleen Walker Meikle is a Wellcome Trust Fellow at the University of York working on animals and medieval medicine Bestiarius Mariaelisa Dimino, Alessia Polatti, Roberta

Zanoni, 2018-10-25T00:00:00+02:00 The human animal relationship has always been characterized by a wide net of interactions and exchanges By providing an overview of the concept of animality and of the several meanings attached to it this book aims at rethinking the real nature of this notion towards a new definition of both the human and the animal The authors highlight the need to overcome the traditional tendency to read the animal merely as a symbol a metaphor or an allegory whose only purpose is that of representing and negotiating human power relations of race class and gender Within this context the edited collection Bestiarius intends to contribute to the present debate on Animal Studies by focusing on literary texts and discursive practices which reveal the epistemological and cultural dynamics that structure the very representation of the animal Criminals as Animals from Shakespeare to Lombroso Greta Olson, 2013-12-12 Criminals as Animals from Shakespeare to Lombroso demonstrates how animal metaphors have been used to denigrate persons identified as criminal in literature law and science Its three part history traces the popularization of the criminal beast metaphor in late sixteenth century England the troubling of the trope during the long eighteenth century and the late nineteenth century discovery of criminal atavism With chapters on rogue pamphlets Shakespeare Webster Jonson Defoe and Swift Godwin Dickens and Lombroso the book illustrates how ideologically inscribed metaphors foster transfers between law penal practices and literature Criminals as Animals concludes that criminal animal metaphors continue to negatively influence the treatment of prisoners suspected terrorists and the poor even today **Reading Humility in Early Modern England**

Jennifer Clement, 2016-03-03 While humility is not especially valued in modern Western culture Jennifer Clement argues here it is central to sixteenth and seventeenth century understandings of Christian faith and behavior and is vital to early modern concepts of the self As this study shows early modern literary engagements with humility link it to self knowledge through the practice of right reading and make humility foundational to any proper understanding of human agency Yet humility has received little critical interest and has often been misunderstood as a false virtue that engenders only self abjection This study offers an overview of various ways in which humility is discussed deployed or resisted in early modern texts ranging

from the explicitly religious and autobiographical prose of Katherine Parr and John Donne to the more politically motivated prose of Queen Elizabeth I and the seventeenth century reformer and radical Thomas Tryon As part of the wider turn to religion in early modern studies this study seeks to complicate our understanding of a mainstream early modern virtue and to problematize a mode of critical analysis that assumes agency is always defined by resistance
