Kerry, Matthew S. Holland, 2012-12-27 This volume attempts to throw fresh light on two areas of Benjamin Franklin's intellectual world namely his self-fashioning and his political thought It is an odd thing that for all of Franklin's voluminous writings a fantastically well documented correspondence over many years scientific treatises that made his name amongst the brightest minds of Europe newspaper articles satires and of course his signature on the Declaration of Independence and the U S Constitution and yet scholars debate how to get at his political thought indeed if he had any political philosophy at all It could be argued that he is perhaps the American Founder most closely associated with the Enlightenment Similarly for a man who left so much evidence about his life as a printer bookseller postmaster inventor diplomat politician scientist among other professions one who wrote an autobiography that has become a piece of American national literature and indeed a contribution to world culture the question of who Ben Franklin continues to engage scholars and those who read about his life His identity seems

so stable that we associate it with certain virtues that apply to the way we live our lives time management for example The image of the stable figure of Franklin is applied to create a sense of trust in everything from financial institutions to plumbers His constant drive to improve and fashion himself reveal however a man whose identity was not static and fixed but was focused on growth on bettering his understanding of himself and the world he lived in and attempted to influence and improve

A Curious Man Neal Thompson, 2014-06-03 A Curious Man is the marvelously compelling biography of Robert Believe It or Not Ripley the enigmatic cartoonist turned globetrotting millionaire who won

international fame by celebrating the world's strangest oddities and whose outrageous showmanship taught us to believe in the unbelievable. As portrayed by acclaimed biographer Neal Thompson, Ripley's life is the stuff of a classic American fairy tale. Buck-toothed and cursed by shyness, Ripley turned his sense of being an outsider into an appreciation for the strangeness of the world. After selling his first cartoon to Time magazine at age eighteen, more cartooning triumphs followed, but it was his *Believe It or Not* conceit and the wildly popular radio shows it birthed that would make him one of the most successful entertainment figures of his time and spur him to search the globe's farthest corners for bizarre facts, exotic human curiosities, and shocking phenomena. Ripley delighted in making outrageous declarations that somehow always turned out to be true, such as that Charles Lindbergh was only the sixty-seventh man to fly across the Atlantic or that *The Star Spangled Banner* was not the national anthem. Assisted by an exotic harem of female admirers and by ex-banker Norbert Pearlroth, a devoted researcher who spoke eleven languages, Ripley simultaneously embodied the spirit of Peter Pan, the fearlessness of Marco Polo, and the marketing savvy of P.T. Barnum. In a very real sense, Ripley sought to remake the world's aesthetic. He demanded respect for those who were labeled eccentrics or freaks, whether it be E.L. Blystone, who wrote 1,615 alphabet letters on a grain of rice, or the man who could swallow his own nose. By the 1930s, Ripley possessed a vast fortune, a private yacht, and a twenty-eight room mansion stocked with such oddities as shrunken heads and medieval torture devices, and his pioneering firsts in print, radio, and television were tapping into something deep in the American consciousness: a taste for the titillating and exotic, and a fascination with the fastest, biggest, dumbest, and most weird. Today, that legacy continues and can be seen in reality TV, YouTube, America's Funniest Home Videos, Jackass, MythBusters, and a host of other pop culture phenomena. In the end, Robert L. Ripley changed everything. The supreme irony of his life, which was dedicated to exalting the strange and unusual, is that he may have been the most amazing oddity of all.
