Rising to the Challenge in Asia: Sound practices Asian Development Bank,1999 *Financial Crises and the Politics of Macroeconomic Adjustments* Stefanie Walter,2013-10-31 When are policy makers willing to make costly adjustments to their macroeconomic policies to mitigate balance of payments problems Which types of adjustment strategies do they choose Under what circumstances do they delay reform and when are such delays likely to result in financial crises To answer these questions this book examines how macroeconomic policy adjustments affect individual voters in financially open economies and argues that the anticipation of these distributional effects influences policy makers decisions about the timing and the type of reform Empirically the book combines analyses of cross national survey data of voters and firms policy evaluations with comparative case studies of national policy responses to the Asian financial crisis of 1997 8 and the recent global financial crisis in Eastern Europe The book shows that variation in policy makers willingness to implement reform can be traced back to differences in the vulnerability profiles of their countries electorates **The Routledge Handbook of Responsible Investment** Tessa Hebb,James P. Hawley,Andreas G.F. Hoepner,Agnes L. Neher,David Wood,2015-08-11 The UN supported Principles for Responsible Investment initiative has led to around a third of the world s financial assets being managed with a commitment to invest in a way that considers environmental social or governance ESG criteria The responsible investment trend has increased dramatically since the global financial crisis yet understanding of this field remains at an early stage This handbook provides an atlas of current practice in the field of responsible investment With a large global team of expert contributors the book explores the impact of responsible investment on key financial actors ranging from mainstream asset managers to religious organizations Offering students and researchers a comprehensive introduction to current scholarship and international structures in the expanding discipline of responsible investment this handbook is vital reading across the fields of finance economics and accounting Practices of Poverty Measurement and Poverty Profile of Nepal Devendra Chhetry,2009-03 Reviews the poverty measuring practices available measures of poverty and economic growth figures of Nepal The poverty rates for FY 1976 77 1984 85 and 1995 96 are found to be not comparable due to change in methodology over time The three poverty rates average 40% Nepal has experienced high economic growth during the 7th 1985 86 to 1989 90 and 8th 1992 93 to 1996 97 Plan periods with no strong evidences of poverty reduction This incompatible result is partially explained by comparing growth of the agricultural sector with the role of the sector in providing employment and income generation at the household level and by comparing social indicators particularly literacy rate with the growth of the nonagricultural sector Tables Developing Asian Bondmarkets Takatoshi Ito,Yung Chul Park,2014-01-10 The absence of vibrant bondmarkets in East Asia was a significant contributor to the 1997 98 financial crisis Ever since the development of local bondmarkets has been a major objective of financial reforms in many East Asian economies This effort has been frustrated by the inability to reach a consensus on whether Asian bondmarkets are truly

needed in East Asia whether they can be made viable in the competitive environment of the global economy how they should be created and what role intergovernmental cooperation should play in their definition and creation

Developing Asian Bondmarkets helps build this consensus proposing how to develop robust and efficient bondmarkets in East Asia This book the first of its kind comes from the Finance Forum of the Pacific Economic Cooperation Council *Rising to the Challenge in Asia: Special issues* Asian Development Bank,1999

Labor Market Distortions, Rural-Urban Inequality, and the Opening of the People's Republic of China Economy Thomas Hertel,2008-05 Evaluates the impact of some key factor market reforms on rural urban inequality income distribution using a household disaggregated recursive dynamic computable general equilibrium model of the People's Republic of China It also explores how these factor market reforms interact with product market reforms currently under way as part of the country's World Trade Org WTO accession process The simulation results show that reforms in the rural land rental market hukou system as well as increasing off farm labor mobility would reduce the urban rural income ratio dramatically Furthermore the combination of WTO accession factor market reforms improves both efficiency equality significantly Charts tables graphs *Rising to the Challenge in Asia: Indonesia* Asian Development Bank,1999
