Scandal and Silence Robert M. Entman, 2012-05-14 The author argues that media neglect most corruption providing too little not too much scandal coverage scandals arise from rational controlled processes not emotional frenzies and when scandals happen it s not the media but government and political parties that drive the process and any excesses that might occur significant scandals are difficult for news organizations to initiate and harder for them to maintain and bring to appropriate closure for these reasons cover ups and lying often work and truth remains essentially unrecorded unremembered P 4 of cover

under and uninsured **Media, Profit, and Politics** Joe Harper, Thom Yantek, 2003 A compilation of essays and commentary delivered at the second annual Kent State University Symposium on Democracy this work recognizes and considers the differences that arise when the competitive forces of commerce clash with the demand for the open availability of information in a democratic society The conflicting roles of advocate initiator and objective reporter for journalists who cover community politics the role of the news media in forming public attitudes toward things political and their role in affecting voter nonparticipation the role of financial considerations in the news media's attempt to provide citizens with needed news and perspective on political affairs and particularly the role of the conglomeration of ownership of news media organizations are a few of the topics discussed in this volume *From Pigeons to News Portals* David D. Perlmutter, John Maxwell Hamilton, 2007-11 Ever since the invention of the telegraph journalists have sought to remove the barriers of time and space Today we readily accept that reporters can jet quickly to a distant location and broadcast instantly from a satellite connected video enabled cell phone hanging from their belts But now that live news coverage is possible from virtually anywhere is foreign correspondence better And what are the implications of recent changes in journalistic technology for policy makers and their constituents In *From Pigeons to News Portals* edited by David D Perlmutter and John Maxwell Hamilton scholars and journalists survey probe and demystify the new foreign correspondence that has emerged from rapidly changing media technology These distinguished authors challenge long held beliefs about foreign news coverage not the least of which is whether in our interconnected world such a thing as foreign news even exists anymore Essays explore the ways people have used new media technology from satellites and cell phones to the Internet to affect content delivery modes and amount and style of coverage They examine the ways in which speedy reporting conflicts with in depth reporting the pros and cons of parachute journalism the declining dominance of mainstream media as a source of foreign news and the implications of this new foreign correspondence for foreign policy Entertainment media such as film television and video gaming form worldwide opinions about America often in negative ways Meanwhile live reporting abroad is both a blessing and curse for foreign policy makers Because foreign news is so vital to effective policy making and citizenship we imperil our future by failing to understand the changes technology brings and how we can wrest the best practice out of those changes This provocative volume offers valuable insights and analyses to help us better understand the evolving state of foreign news
