Risk Management In Posttrust Society:

Risk and Uncertainty in a Post-Truth Society Sander van der Linden, Ragnar E. Löfstedt, 2019-06-10 This edited volume looks at whether it is possible to be more transparent about uncertainty in scientific evidence without undermining public understanding and trust With contributions from leading experts in the field this book explores the communication of risk and decision making in an increasingly post truth world Drawing on case studies from climate change to genetic testing the authors argue for better quality evidence synthesis to cut through the noise and highlight the need for more structured public dialogue For uncertainty in scientific evidence to be communicated effectively they conclude that trustworthiness is vital the data and methods underlying statistics must be transparent valid and sound and the numbers need to demonstrate practical utility and add social value to people s lives Presenting a conceptual framework to help navigate the reader through the key social and scientific challenges of a post truth era this book will be of great relevance to students scholars and policy makers with an interest in risk analysis and communication

Post-Truth Society Arpad Szakolczai, 2021-11-29 It is widely asserted that we are now living in a post truth society What that means this book argues is that the contemporary global world is thoroughly infested not only with trickster figures but an entire and operational trickster logic or that we now live in a Trickster Land an argument advanced by the claim that in modernity liminality has become permanent or that modern life is patently absurd The first part of the book presents a series of guides to this condition in the form of key thinkers and writers who can help us understand and navigate our Trickster Land Such guides include Hermann Broch Lewis Hyde Roberto Calasso Michel Serres S ndor M rai Colin Thubron and Albert Camus The second part goes on to discuss five main regions of Trickster Land art thought the economy politics and society This last central chapter of the book contrasts trickster logic with the basic foundational logic of social life presented as gift giving by Marcel Mauss and as sociability by Georg Simmel and which is expressed here combining Heraclitus and Plato with the Gospel of John by three basic terms of ancient Greek culture as *arkh charis logos* meaningful social life originally and in its essence is animated by the power of kind benevolence This volume will appeal to scholars of social theory anthropology and sociology with interests in political thought and contemporary culture

Wilderer,Ortwin Renn,Martin Grambow,Michael Molls,Klaus Mainzer,2017-12-21 Here expert authors delineate approaches that can support both decision makers as well as their concerned populations in overcoming unwarranted fears and in elaborating policies based on scientific evidence Four exemplary focus areas were chosen for in depth review namely The

scientific basis of risk management Risk management in the area of environmental and ecological policy Risk management in radiation medicine Risk management in context with digitalization and robotics General as well as specific recommendations are summarized in a memorandum Fundamental thoughts on the topic are presented in the introductory part of the book The idea for and contents of the book were developed at a workshop on Sustainable Risk Management How to manage risks in a sensible and responsible manner held in Feldafing at Lake Starnberg Germany on April 14 to 16 2016 The book offers important information and advice for scientists entrepreneurs administrators and politicians

A Player's Guide to the Post-Truth Condition Steve Fuller, 2020-11-20 A Player's Guide to the Post Truth Condition The Name of the Game presents sixteen short readable chapters designed to leverage our post truth condition's deep historical and philosophical roots into opportunities for unprecedented innovation and change Fuller offers a bracing proactive and hopeful vision against the tendency to demonize post truth as the realm of fake news and bullshit Where others see threats to the established order Fuller sees opportunities to overturn it This theme is pursued across many domains including politics religion the economy the law public relations journalism the performing arts and academia not least academic science The red thread running through Fuller's treatment is that these domains are games that cannot be easily won unless one can determine the terms of engagement which is to say the name of the game This involves the exercise of modal power which is the capacity to manipulate what people think is possible Once the necessarily true appears to be only contingently so then the future suddenly becomes a more open space for action This was what frightened Plato about the alternative realities persuasively portrayed by playwrights in ancient Athens Nevertheless Fuller believes that it should be embraced by denizens of today's post truth condition

The Art of Making Decisions Under Uncertainty Charles Yoe, 2025-09-04 Uncertainty is a part of every decision we make from the everyday to the high stakes from personal choices to professional strategy The Art of Making Decisions Under Uncertainty offers a clear practical approach to dealing with the unknown without getting stuck or overwhelmed Rather than treating uncertainty as a barrier this book invites readers to see it as a constant companion something to work with not work against Drawing on proven tools real world examples and a wealth of practical insight it shows how to make thoughtful informed decisions even when information is incomplete priorities are competing and the path forward feels anything but clear This is not a theory heavy treatise It's a textbook guide for real people facing real decisions Grounded in decision science but written for a broad audience it bridges the gap between technical complexity and everyday practicality Whether you're leading a team managing risk shaping policy or simply trying to make better personal choices this book meets you where you are with tools that work language that makes sense and encouragement to move forward with clarity and confidence Inside you'll find Straightforward frameworks to help you recognize and manage different types of uncertainty Practical tools and techniques you can use right away to make sound decisions in fast moving or high pressure situations Case studies and examples that bring the concepts to life and show how they apply in work leadership and daily

The Truth Society Noelle Molé Liston,2020-11-15 Noelle Mol Liston s The Truth Society seeks to understand how a period of Italian political spectacle which regularly blurred fact and fiction has shaped how people understand truth mass mediated information scientific knowledge and forms of governance Liston scrutinizes Italy s late twentieth century political culture particularly the impact of the former prime minister and media mogul Silvio Berlusconi By doing so she examines how this truth bending political era made science logic and rationality into ideas that needed saving With the prevalence of fake news and our seeming lack of shared reality in the post truth world many people struggle to figure out where this new normal came from Liston argues that seemingly disparate events and practices that have unfolded in Italy are historical reactions to mediatized political forms and particular cultivated ways of knowing Politics then is always sutured to how knowledge is structured circulated and processed The Truth Society offers Italy as a case study for understanding the remaking of politics in an era of disinformation
