Risking Faith:

Risking Faith John Guest, 1993 **Risking Intimacy** Nancy Groom, 2000-05-01 The longing for relational intimacy is met by yielding first to the Lord who provides the grace from which genuine oneness with others can flow **Risking Truth** Scott A. Ellington, 2008-09-01 Ours is a world characterized by change Often the most fundamental changes in our lives result from experiences of profound suffering and loss as we are wrenched from our familiar world and driven into one that is alien In the midst of such loss we are compelled to choose between trying to cling to the remnants of a reality that is passing away and trying to make a home in a strange new world Biblical prayers of lament wait for us at this crossroad of loss and newness Prayers of lament are marked both by loss and by the inexplicable silence of God Everything we believe about God's justice and goodness is placed in doubt by his hiddenness The cry of lament is an act of tremendous risk To lament is to abandon the sinking ship of religious certainty and strike out in a small dingy amidst stormy seas in search of a hidden God Faced with God's silence the biblical writers are willing to place at risk their most fundamental beliefs and to lament The Psalm writers risk the loss of the Exodus story by crying out to a God who has failed to save demanding that he once more part the chaotic waters and make a way in the desert Job risks the loss of a moral God by confronting God with his injustice Jeremiah risks the loss of the covenant by calling out for God to return yet again to a faithless partner and a failed marriage Matthew and John the Revelator recognize that the coming of Messiah is impelled by the cries of innocent sufferers Throughout the Bible lament risks the possible loss of relationship with God and presses for a new though uncertain experience of God's presence Risking the Church Richard Lennan, 2004-10-14 As a consequence of numerous social and theological movements over the last few decades the Roman Catholic Church finds itself in a situation that some have described as a state of peril This book traces the emergence of that peril develops a systematic ecclesiology that identifies both the mission and resources of the Church in the present day and explores possible responses to some of the specific challenges facing the contemporary Church The book develops an understanding of the Catholic tradition in order to highlight its potential for development **Faith: Security and Risk** Richard W. Kropf, 2003-06-20 Is faith a search for security Is faith the reason for taking risks The answer to these questions will ultimately determine the quality of our faith whether it will be a faith that flourishes and grows or a faith that is stunted and limited Author Richard Kropf analyzes these faith choices with a unique approach He combines the psycho dynamics of Viktor Frankl the faith analysis of Avery Dulles and the faith stages researched by James Fowler to provide a provocative foundation for understanding our spiritual life Kropf then takes us through each faith level and highlights the challenges and pitfalls along the way He covers the broad range of topics from compulsive religious behavior fundamentalism and various enthusiasms to adolescent and mid life crises of faith and the risks of trying to achieve sainthood Faith Security and Risk is ideal for pastors spiritual directors and professional counselors and is particularly designed to complement spiritual workshops and retreats Each chapter ends with

a series of questions that provide excellent stimulus for small group discussion as well as personal reflection This book has also proved most helpful for college professors as an excellent text for their students seeking to understand their own faith struggles

"Risking Proclamation, Respecting Difference" Chris Boesel,2010-04-29 This important book poses the question of whether Christian proclamation can be made ethically safe for the Jewish neighbour Boesel assesses two major approaches to a Christian theology of Judaism those exemplified by Rosemary Radford Ruether and Karl Barth This book makes a significant contribution to our understanding of systematic ethics and homiletics at the intersection of Jewish Christian relations

Why I Believe Alydia Smith,2017-11-01 In this devotional a variety of members and friends of the church told us about their personal faith journeys We are excited to share their candid thoughtful reflections What does it mean to follow Jesus remain faithful and choose hope especially during times of uncertainty and doubt Daily devotions for the season of Lent include a scripture passage personal reflection song suggestions reflection question and prayer Study guide included

Believing by Faith John Bishop,2007-04-12 Does our available evidence show that some particular religion is correct It seems unlikely given the great diversity of religious and non religious views of the world But if no religious beliefs can be shown true on the evidence can it be right to make a religious commitment Should people make leaps of faith Or would we all be better off avoiding commitments that outrun our evidence And if leaps of faith can be acceptable how do we tell the difference between good and bad ones between sound religion and dogmatic ideology or fundamentalist fanaticism Believing by Faith offers answers to these questions inspired by a famous attempt to justify faith made by William James in 1896 In doing so it engages critically with much recent discussion in the philosophy of religion and especially the epistemology of religious belief

Coming Back to Faith J. LeBron McBride PhD,2021-03-29 Have you been bruised or wounded by your faith or belief system This book is not about arguing theology but about providing practical insights and meditations to enhance the Christian journey Your faith may be going through a transition It is the hope of the author of this work that Coming Back to Faith will be a sensitive and caring beacon of hope along the way

Religion and the Political Imagination Ira Katznelson,Gareth Stedman Jones,2010-10-07 The theory of secularisation became a virtually unchallenged truth of twentieth century social science First sketched out by Enlightenment philosophers then transformed into an irreversible global process by nineteenth century thinkers the theory was given substance by the precipitate drop in religious practice across Western Europe in the 1960s However the re emergence of acute conflicts at the interface between religion and politics has confounded such assumptions It is clear that these ideas must be rethought Yet as this distinguished international team of scholars reveal not everything contained in the idea of secularisation was false Analyses of developments since 1500 reveal a wide spectrum of historical processes partial secularisation in some spheres has been accompanied by sacralisation in others Utilising new approaches derived from history philosophy politics and anthropology the essays collected in Religion and the Political Imagination offer new ways of thinking about the urgency of religious issues

Kvanvig,2018 This book is devoted to articulating the connections between the nature and value of faith and humility The goal is to understand faith and humility in a way that does not discriminate between religious and mundane contexts between sacred and secular It arises from a conviction that these two character traits are important to a flourishing life and intimately related to each other in such a way that the presence of one demands

the presence of the other In particular the book defends the claim that each of these virtues provides a necessary compensating balance to the potential downside of the other virtue The result of such an inquiry if that inquiry is successful will require a re orienting of discussions surrounding faith including debates about the relationship between faith and reason
