**Publications Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror** , Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia s Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied hostage takers themselves It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation Amid grief calls for retaliation and demands for reform one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism while 44% thought that no lessons for the future would be learned from the tragedy This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces SOF in the apt US military acronym A series of Russian SOF counterterrorism mishaps misjudgments and failures in the 1990s and continuing to the present have made the Kremlin s special operations establishment in 2005 appear much like Russia s old Mir space station wired together unpredictable and subject to sudden startling failures But Russia continued to maintain and expand a large variegated special operations establishment which had borne the brunt of combat actions in Afghanistan Chechnya and other trouble spots and was expected to serve as the nation s principal shield against terrorism in all its forms Known since Soviet days for tough personnel personal bravery demanding training and a certain rough or brutal competence that not infrequently violated international human rights norms it was supposed that Russian special operations forces steeped in their world of threats to the state and associated with once dreaded military and national intelligence services could make valuable contributions to countering terrorism The now widely perceived link between corrupt special forces on the one hand and counterterrorism failures on the other reflected the further erosion of Russia s national security infrastructure in the eyes of both Russian citizens and international observers There have been other more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects These constitute the continuing assertions from Russian media the judicial system and other Federal agencies and officials that past and current members of the SOF

establishment have organized to pursue interests other than those publicly declared by the state or allowed under law This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia The murky nature of these alleged activities has formed a backdrop to other problems in the special units **Russia Air Force Handbook** Ibp Usa, USA International Business Publications, 2007-02-07 **Russia Trends in Russia's Armed Forces** Keith Crane, Olga Oliker, Brian Nichiporuk, 2019-10-10 The authors assess how Russian military forces are postured and resourced and how they are likely to operate They also discuss the goals and effects of Russian military reform efforts including initiatives that span all of the Russian armed forces services and independent branches Touching on most of Russia's armed forces major capabilities the authors conclude with a look at how those capabilities are being integrated in practice Red Russia Revealed Samuel Spewack, 1923 **Disintegration** Andrei Martyanov, 2021-05-01 The United States is undergoing a profound and radical transformation all features of which point to the fact of its departure at an accelerated rate from its largely self proclaimed status as a global hegemon The United States has lost ground in every single category that defines the power and status of a nation in relation to its rivals This book delves into the reasons for a catastrophic decline of the American nation addressing a range of factors from the economic especially energy to cultural technological and military factors America's deindustrialized economy is now deeply affected by what can only be described as a massacre of her small and middle size businesses and the implosion of the US commercial aerospace industry America's only driver of real growth the shale oil industry is facing realities which may make the Great Depression pale in comparison Disintegration also seeks answers to the precipitous moral and professional decline of the always mediocre qualities of the American elites from the corridors of political power to those of the military and business now spiraling out of control More alarmingly the trend also points to the possibility of the actual physical disintegration of the United States as a unified entity whether the divisions are ethnic or ideological The most profound fault line is cultural between the Coastal self proclaimed elites backed by the secular liberal media and deep state who promote the most radical ideologies as it concerns gender and race and the working class majority whom the former polemicize as deplorables Christian fundamentalists white supremacists and climate and science denialists Investigating these factors sheds light on America's future which holds very little promise for the country which had once proclaimed itself to be a shining city on the hill The American collapse is not just coming we are presently experiencing it How can we deal with a catastrophe which is unfolding before our very eyes Disintegration lays out some possibilities
