Memory and Social Movements in Modern and Contemporary History Stefan Berger, Christian Koller, 2024-04-29 Reflecting the growing interest of historians in memory studies this edited collection examines the relationship between memory and global social movements from 1848 to the present For a long time there has been little attempt by historians to consider memory and social activism in an integrated systematic and comparative way However in recent years scholars have demonstrated that social movements rely on collective memories to assert claims mobilize supporters and legitimize their political visions while also helping to further shape collective memories This book delves into the synergies between memory studies and social movements exploring how social movements have been constructing and creating memories of their own activity how specific landscapes of memory have influenced social movements and how activists have used memory as a cultural resource to further their own goals and ambitions The case studies presented cover a range of different types of political activism including the fights for workers gay feminist and pacifist rights as well as ecological urban and far right movements across the globe portraying the diverse interrelations that exist between social movements and collective memory

Engineer of Revolutionary Russia Anthony Heywood, 2016-05-13 This book is the first substantial study in any language of one of revolutionary Russia s most distinguished and controversial engineers Iurii Vladimirovich Lomonosov 1876 1952 Not only does it provide an outline of his remarkable life and career it also explores the relationship between science technology and transport that developed in late tsarist and early Soviet Russia Lomonosov s importance extends well beyond his scientific and engineering achievements thanks to the rich variety and public prominence of his professional and political activities His generation Lenin s generation was inevitably at the forefront of Russian life from the 1910s to the 1930s and Lomonosov took his place there as one of the country s best known and ultimately notorious engineers As well as an innovative engineer who campaigned to enhance the role of science he played a major role in shaping and administering the Russian railways and undertook several diplomatic and scientific missions to the West during the early years of the Revolution Falling from political favour during an assignment in Germany 1923 1927 he achieved notoriety in Russia as a non returner by apparently declining to return home Thereby escaping probable arrest and execution he began a new life abroad 1927 1952 which included a research post at the California Institute of Technology in 1929 1930 collaborative projects with the famous physicist P L Kapitsa in Cambridge a long time association with the Institution of Mechanical Engineers in London and work for the British War Office during the Second World War From Marxist revolutionary to American academic this study reveals Lomonosov s extraordinary life Drawing on a wide variety of official Russian sources as well as Lomonosov s own diaries and memoirs a vivid portrait of his life is presented offering a better understanding of how science technology

Thatcher, 2006-08-04 This is a stimulating and highly original collection of essays from a team of internationally renowned experts The contributors reinterpret key issues and debates including political social cultural and international aspects of the Russian revolution stretching from the late imperial period into the early Soviet state **The Foundations of Modern Terrorism** Martin A. Miller, 2013 A groundbreaking history of the roots of modern terrorism ranging from early modern Europe to the contemporary Middle East Muslim Europe Gavin Murray-Miller, 2024-12-15 Europe and the Islamic world have shared a long and conflicted history From the Middle Ages to the global War on Terror the image of two civilizations perpetually at war has endured However a closer look at the past suggests this was not always the case Muslim Europe follows the lives of imperialists journalists and Muslim activists who attempted to challenge the idea of two opposing civilizations locked in eternal conflict Rich in detail it tells the stories of English officials who once declared Britain the greatest Muslim power on the face of the earth and recounts the extraordinary political campaign that saw a French Muslim elected to the National Assembly against all odds The age of empire brought Islam into European public life like never before inspiring Muslims on the continent to take to the press and mount political movements guided by desires for greater social recognition In chronicling the forgotten history of Europe's early Muslim communities across empires Muslim Europe proposes a new history for Europe highlighting the contributions made by Muslim subjects and citizens in search of a more just and tolerant society Knowledge and the Ends of Empire Ian W. Campbell, 2017-03-07 In Knowledge and the Ends of Empire Ian W. Campbell investigates the connections between knowledge production and policy formation on the Kazak steppes of the Russian Empire Hoping to better govern the region tsarist officials were desperate to obtain reliable information about an unfamiliar environment and population This thirst for knowledge created opportunities for Kazak intermediaries to represent themselves and their landscape to the tsarist state Because tsarist officials were uncertain of what the steppe was and disagreed on what could be made of it Kazaks were able to be part of these debates at times influencing the policies that were pursued Drawing on archival materials from Russia and Kazakhstan and a wide range of nineteenth century periodicals in Russian and Kazak Campbell tells a story that highlights the contingencies of and opportunities for cooperation with imperial rule Kazak intermediaries were at first able to put forward their own idiosyncratic views on whether the steppe was to be Muslim or secular whether it should be a center of stock raising or of agriculture and the extent to which local institutions needed to give way to imperial institutions It was when the tsarist state was most confident in its knowledge of the steppe that it committed its gravest errors by alienating Kazak intermediaries and placing unbearable stresses on pastoral nomads From the 1890s on when the dominant visions in St Petersburg were of large scale peasant colonization of the steppe and its transformation into a hearth of sedentary agriculture the same local knowledge that Kazaks had used to negotiate tsarist rule was transformed into a language of resistance *The Kremlin's Geordie Spy* Vin Arthey, 2010-08-02

Discover an extraordinary true life adventure that could have appeared straight from the pages of a John le Carr Cold War novel In February 1962 Gary Powers the American pilot whose U 2 spy plane was shot down over Soviet Union airspace was released by his Russian captors in exchange for one of their own Soviet KGB Colonel Vilyam Fisher Colonel Fisher was remarkable not least because he was born plain Willie Fisher at number 142 Clara Street Benwell in Newcastle upon Tyne Willie s revolutionary parents fled Russia in 1901 settling in the north east where Willie was brought up to share the family ideology Leaving England for the newly formed Soviet Union in 1921 Willie began a career as a spy Narrowly escaping Stalin s purges Willie was sent to spy in New York where he ran the network that included notorious atom spies Julius Rosenberg and Ted Hall In 1957 he was arrested and sentenced to 30 years in prison Six years later the USSR s regard for Willie s talents was proven when they insisted on swapping him for the stricken Powers Tracing Willie s story from the most unlikely of beginnings in Newcastle to Moscow New York and back again The Kremlin s Geordie Spy is a singular and absorbing true story of Cold War espionage to rival anything in fiction **Abel** Vin Arthey,2015-10-08 The true story behind the events depicted in Steven Spielberg s blockbuster Bridge of Spies On 10 February 1962 Gary Powers the American pilot whose U2 spy plane was shot down in Soviet airspace was released by his captors in exchange for one Colonel Rudolf Abel aka Vilyam Fisher one of the most extraordinary characters in the history of the Cold War Born plain William Fisher at 140 Clara Street Newcastle upon Tyne this bona fide British grammar schoolboy was the child of revolutionary parents who had fled tsarist oppression in Russia Retracing their steps their son returned to his spiritual homeland the newly formed Soviet Union aged just eighteen Willie became Vilyam and narrowly escaping Stalin s purges embarked on a mission to New York where he ran the network that stole America s atomic secrets In 1957 Willie s luck ran out and he was arrested and sentenced to thirty years in prison Five years later the USSR s regard for his talents was proven when they insisted on swapping him for the stricken Powers Tracing Willie s tale from the most unlikely of beginnings in Newcastle to Moscow the streets of New York and back again Abelis a singular and absorbing true story of Cold War espionage to rival anything in fiction Threads of Empire Charles Steinwedel,2016-05-09 A history and analysis of Bashkiria and its transformation into a Russian imperial region of the course of three and a half centuries Threads of Empire examines how Russia s imperial officials and intellectual elites made and maintained their authority among the changing intellectual and political currents in Eurasia from the mid sixteenth century to the revolution of 1917 The book focuses on a region 750 miles east of Moscow known as Bashkiria The region was split nearly evenly between Russian and Turkic language speakers both nomads and farmers Ufa province at Bashkiria s core had the largest Muslim population of any province in the empire The empire s leading Muslim official the mufti was based there but the region also hosted a Russian Orthodox bishop Bashkirs and peasants had different legal status and powerful Russian Orthodox and Muslim nobles dominated the peasant estate By the twentieth century industrial mining and rail commerce gave rise to a class structure of workers and managers Bashkiria thus presents a fascinating case study of

empire in all its complexities and of how the tsarist empire's ideology and categories of rule changed over time. An original and well researched study of the incorporation of the Bashkir lands and their transformation into a Russian imperial region over the course of three and a half centuries. Steinwedel argues that the history of Bashkiria exposes a number of the empire's achievements as a multiethnic society. He draws out both important shifts and abiding continuities in the history of the region and by employing a multi dimensional approach covering a range of intersecting topics provides a fuller appreciation for the region. He also does a nice job pointing out the useful commonalities and differences between the Bashkir lands and other parts of the empire making a compelling case for Bashkiria's importance for understanding larger processes. Willard Sunderland, author of *Taming the Wild Field: Colonization and Empire on the Russian Steppe*. With its solid grounding in Russian archival and printed sources and its sophisticated comparative approach, Steinwedel's work will serve as a point of departure for historians of the Russian Empire and will become a book of reference for any future study of empires in global history. *American Historical Review*. Steinwedel's book is both a skilful exercise in local and regional history and an important contribution to the history of Imperial Russia as a whole. *Slavonic and East European Review*. ***A History of Western Public Law***. Bruno Aguilera-Barchet, 2014-12-31. The book outlines the historical development of Public Law and the state from ancient times to the modern day offering an account of relevant events in parallel with a general historical background establishing and explaining the relationships between political, religious and economic events. ***Tales of Imperial Russia***. Francis W. Wcislo, 2011-03-17. History and biography meet in *Tales of Imperial Russia*, a study of the late Romanov Russian Empire told through the figure of Sergei Witte. Like Bismarck or Gorbachev, Witte was a European statesman serving an empire. He was the most important statesman of pre-revolutionary Russia. In the Georgia, Odessa, Kyiv and St Petersburg of the nineteenth century, he inhabited the worlds of the Victorian Age as young boy, student, railway executive, lover of divorcees and Jews, monarchist and technocrat. His political career saw him construct the Trans-Siberian Railway, propel Russia towards Far Eastern war with Japan, visit America in 1905 to negotiate the Treaty of Portsmouth, concluding that war and return home to confront revolutionary disorder with the State Duma, the first Russian parliament. The book is based on two memoir manuscripts that Witte wrote between 1906 and 1912 and includes his account of Nicholas II, the Empress Alexandra and the machinations of a Russian imperial court that he believed were leading the country to revolution. Telling the story both of a life and of the last days of the Tsarist empire, *Tales of Imperial Russia* will delight and inform all those interested in biography, literature and history as well as readers interested in the history of modern Russia. ***Preserving Islamic Tradition***. Nathan Spannaus, 2019-07-09. The end of the eighteenth century was a transformational period for the Muslim communities of the Russian Empire and their relationship with the tsarist state. Though they had been under Russian rule since the sixteenth century, it was at this time that they were incorporated into the imperial bureaucracy, most significantly through the founding of an official hierarchy for the Islamic religious scholars in 1788. The introduction of a state-backed structure for

Muslim religious institutions altered Islamic religious authority and in turn religious discourse One of the major figures to emerge from this new context was Abu Nasr Qursawi 1776 1812 A controversial figure who was condemned for heresy in Bukhara in 1808 Qursawi put forward a sweeping reform of the Islamic scholarly tradition Focusing on taqlid the principle of conformity to established doctrine Qursawi argued that its overuse had weakened scholarship in the areas of Islamic law fiqh and theology kalam and undermined scholars ability to serve as religious guides In Preserving Islamic Tradition Nathan Spannaus presents the first detailed analysis of Qursawi s reformist project both in its contours and broad historical setting Spannaus shows how state control of Muslim institutions impacted religious discourse but also how it altered the entire religious environment into the twentieth century Addressing issues of modernity secularity tradition and intellectual history Preserving Islamic Tradition demonstrates how the interaction with a European imperial state transformed the Islamic tradition both directly and indirectly and elicited new forms of religious thought and discourse

Raza Schools Jesús Jesse Esparza, 2023-09-19 In 1929 a Latino community in the borderlands city of Del Rio Texas established the first and perhaps only autonomous Mexican American school district in Texas history How it did so against a background of institutional racism poverty and segregation is the story Jes s Jesse Esparza tells in Raza Schools a

history of the rise and fall of the San Felipe Independent School District from the end of World War I through the post civil rights era The residents of San Felipe whose roots Esparza traces back to the nineteenth century faced a Jim Crow society in which deep seated discrimination extended to education making biased curriculum inferior facilities and prejudiced teachers the norm Raza Schools highlights how the people of San Felipe harnessed the mechanisms and structures of this discriminatory system to create their own educational institutions using the courts whenever necessary to protect their autonomy For forty two years the Latino community funded maintained and managed its own school system until 1971 when in an attempt to address school segregation the federal government forced the San Felipe Independent School District to consolidate with a larger neighboring mostly white school district Esparza describes the ensuing clashes over curriculum school governance teachers positions and funding that challenged Latino autonomy While focusing on the relationships between Latinos and whites who shared a segregated city his work also explores the experience of African Americans who lived in Del Rio and attended schools in both districts as a segregated population Telling the complex story of how territorial pride race and racism politics economic pressures local control and the federal government collided in Del Rio Raza Schools recovers a lost chapter in the history of educational civil rights and in doing so offers a more nuanced understanding of race relations educational politics and school activism in the US Mexico borderlands
