Russian Avant Garde 1910 1934:

The Russian Avant-garde Book, 1910-1934 Margit Rowell, Deborah Wye, Jared Ash, Museum of Modern Art (New York, N.Y.), 2002 The focus of this study is the book format as produced by Russian avant garde artists and poets from 1910 to 1934 This period saw a remarkable proliferation of books in which artists were involved and such books played a fundamental role in the aesthetic thinking of the day Radical new forms appearing in both painting and poetry in the teens offered by a close knit community of artists and poets provided the impetus *The Russian Avant-garde Book, 1910-1934*, 2002 The Russian Avant-garde Book 1910-1934, 2002 *The Russian avant-garde book, 1910-1934*, 2002 **The Organic School of the Russian Avant-Garde** Professor Isabel Wünsche, 2015-10-28 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel W nsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde and the emergence of the concept of Organic Culture **The Organic School of the Russian Avant-Garde** Isabel W?nsche, 2017-07-05 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel W nsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists the majority of whom were based in St Petersburg Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde specifically Jan Ciaglinski Nikolai Kulbin and Elena Guro as well as the emergence of the concept of Organic Culture as developed by Mikhail Matiushin practiced at the State Institute of Artistic Culture and taught at the reformed Art Academy in the 1920s Discussions of faktura and creative intuition explore the biocentric approaches that dominated the work of Pavel Filonov Kazimir Malevich Voldemar Matvejs Olga Rozanova and Vladimir Tatlin The artistic approaches of the Organic School of the Russian avant garde were further promoted and developed by Vladimir Sterligov and his followers between 1960 and 1990 The study examines the cultural potential as well as the utopian dimension of the artists approaches to creativity and their ambitious visions for the role of art in promoting human psychophysiological development and shaping post revolutionary culture *Acrobatic Modernism from the Avant-Garde to Prehistory* Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement

Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

[The Institutions of Russian Modernism](#) Jonathan Stone, 2017-10-15 The Institutions of Russian Modernism illuminates the key role of Symbolism as the earliest form of modernism in Russia emerging seemingly ex nihilo at the end of the nineteenth century Combining book history periodical studies and reception theory Jonathan Stone examines the poetry and theory of Russian Symbolism within the framework of the institutions that organized published and disseminated the works to Russian readers Surveying a wealth of examples of books journals and almanacs Stone traces how publishers of Symbolist works marketed the movement and fashioned a Symbolist reader His persuasive argument that after its eclipse Symbolism's legacy remained embedded in the heart of Russian modernism will be of interest to scholars and general readers

2023 Günter Berghaus, Dalila Colucci, Tim Klähn, 2023-12-04 This thirteenth volume of the International Yearbook of Futurism Studies explores some of the many facets of Neo Futurism from the second half of the twentieth century to the present day It looks both at the revival and the continuation of Futurist aesthetics whether in explicit or palimpsest form in a variety of media literature visual art design music architecture theatre and photography The essays delve into the broad spectrum of artistic research and offer a good dozen case studies that document with a transnational and interdisciplinary orientation the manifold forms of Neo Futurism in various parts of the world They investigate how historical Futurism's intellectual and artistic perspective was appropriated and developed further in a more or less conscious faithful and original way all the while confronting its progenitor's cultural social and political misconceptions Interdisciplinary contributions to neo futurism as a global phenomenon

The Oxford Critical and Cultural History of Modernist Magazines Peter Brooker, Andrew Thacker, 2009 The first full study of the role of little magazines and their contribution to the making of artistic modernism and the avant garde across Europe this volume is a major scholarly achievement of immense value to those interested in material culture of the twentieth century
