Haimson, 2005 he eminent historian Leopold Haimson examines the nature of political power in Russia during the years leading to the Bolshevik revolution The book explores the issue of power as it was reflected in struggles of Russian workers to control their own lives and in the outlooks and strategies of leading political figures on the objectives of the revolution and the ways to achieve them

Russia, 1905-07: The Roots of Otherness Teodor Shanin, 1986-07-07 New Russia begins in 1905 07 A revolution which failed was also a moment of truth By proceeding in a way unexpected by supporters and adversaries alike it offered a dramatic corrective to their understanding of Russia In what followed Russian history was to be dominated by the transforming efforts of monarchists who learnt that only revolution from above could save their tsardom and by Marxists who under the impact of revolution which failed looked anew at Russia and their Marxism On the opposing sides of the political scale Stolypin and Lenin came to share a new image of Russia recognisable today as one of a developing society and to act upon that While Russia began a new century with a revolution it is equally true that a new century in world history began with the Russian revolution of 1905 07 Since then a new type of society and of revolution have been evident throughout the world Most of the theoretical tools to grasp those environments and changes were first set in Russia of the period described The book begins with the forces and elements which came together in the 1905 07 revolution It then presents and analyses the urban struggle the still little known peasant war and the relations between those two confrontations It proceeds to the conclusions drawn from the revolution by the different social classes parties and leaders and the way this has shaped Russia s future and consequently of the world today defining also economics and agrarian reforms developmentism and communism liberation struggles and anti insurgencies **Kritika** ,2004

Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state. *Lenin's Electoral Strategy from Marx and Engels through the Revolution of 1905* August H. Nimtz, 2016-04-30. This book explores the time in which Lenin initiated his use of the electorate, beginning with the Marxist roots of his politics from his leadership of the Russian Social Democratic Labor Party in the First and Second State Dumas to Russia's first experiment in representative democracy from 1906 to 1907.

A Companion to the Russian Revolution Daniel Orlovsky, 2020-08-21. A compendium of original essays and contemporary viewpoints on the 1917 Revolution. The Russian revolution of 1917 reverberated throughout an empire that covered one sixth of the world. It altered the geopolitical landscape of not only Eurasia but of the entire globe. The impact of this immense event is still felt in the present day. The historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity; the causes and meanings of revolution are many, as is reflected in contemporary scholarship on the subject. *A Companion to the Russian Revolution* offers more than thirty original essays written by a team of respected scholars and historians of 20th-century Russian history. Presenting a wide range of contemporary perspectives, the Companion discusses topics including the dynamics of violence in war and revolution, Russian political parties, the transformation of the Orthodox church, Bolshevism, Liberalism, and more. Although primarily focused on 1917 itself and the singular Revolutionary experience in that year, this book also explores time periods such as the First Russian Revolution, early Soviet government, the Civil War period, and even into the 1920s. Presents a wide range of original essays that discuss. Brings together in-depth coverage of political history, party history, cultural history, and new social approaches. Explores the long-range causes, influence on early Soviet culture, and global afterlife of the Russian Revolution. Offers broadly conceived contemporary views of the revolution, largely based on the author's original research. Links Russian revolutions to Russian Civil Wars as concepts. *A Companion to the Russian Revolution* is an important addition to modern scholarship on the subject and a valuable resource for those interested in Russian Late Imperial or Soviet history, as well as anyone interested in Revolution as a global phenomenon.

Social Structure and Forms of Consciousness, Volume 2 István Mészáros, 2011-03-01. In *The Dialectic of Structure and History, Volume Two of Social Structure and Forms of Consciousness*, István Mészáros brings the comprehension of our condition and the possibility of emancipatory social action beyond the highest point reached to date. Building on the indicatory flashes of conceptual lightning in the *Grundrisse* and other works of Karl Marx, Mészáros sets out the relations of structure and agency, individual and society, base and superstructure, nature and history in a dialectical totality open to the future. The project is brought to its conclusion by means of critique, an analysis that shows not only the inadequacies of the thought critiqued but, at the same time, their social-historical cause. The crucial

questions are addressed through critique of the highest point of honest and brilliant thought in capital's ascending phase that of Adam Smith Kant and Hegel as well as the irrationalities and dishonesty of the apologists of the capital system's descending phase such as Hayek and Popper The dead ends of both L vi Strauss's structuralism and post modernism arising from their denial of history are placed in their context as capital apologetics What M sz ros the leading Marxist philosopher of our times has achieved is of world historical importance He has cleared the philosophical ground to permit the illumination of a path to transcend the destructive death spiral of the capital system
