Zanne Etta Cone and Henri Matisse G. David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors' acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915 1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized **The 20th Century Go-N** Frank N.
