The Social Construction of Corruption in Europe Dirk Tänzler, Konstadinos Maras, 2016-02-24 The volume demonstrates the

suitability of the theory of social constructivism in portraying and analyzing the diversity of the phenomenon of corruption. The approach of social constructivism taken in this volume is able to reconstruct the construction of corruption both from a societal perspective by assessing it as generally accepted or tolerated behaviour in more or less standardized rule governed social situations and from the perspective of actors who perceive corrupt behaviour as problem solving in everyday life. The volume proves the usefulness of a social construction perspective for empirical research. It contains case studies of social definitions of corruption in eleven European countries that contribute in different ways to establishing a grounded theory of the phenomenon of corruption. *Culture and Liberty in the Age of the American Revolution* Michal Jan Rozbicki, 2011-02-01

In his new book Michal Jan Rozbicki undertakes to bridge the gap between the political and the cultural histories of the American Revolution. Through a careful examination of liberty as both the ideological axis and the central metaphor of the age, he is able to offer a fresh model for interpreting the Revolution. By establishing systemic linkages between the histories of the free and the unfree and between the factual and the symbolic, this framework points to a fundamental reassessment of the ways we think about the American Founding. Rozbicki moves beyond the two dominant interpretations of Revolutionary liberty: one assuming the Founders invested it with a modern meaning that has in essence continued to the present day, the other highlighting its apparent betrayal by their commitment to inequality. Through a consistent focus on the interplay between culture and power, Rozbicki demonstrates that liberty existed as an intricate fusion of political practices and symbolic forms. His deeply historicized reconstruction of its contemporary meanings makes it clear that liberty was still understood as a set of privileges distributed according to social rank rather than a universal right. In fact, it was because the Founders considered this assumption self-evident that they felt confident in publicizing a highly liberal symbolic narrative of equal liberty to represent the Revolutionary endeavor. The uncontrollable success of this narrative went far beyond the circumstances that gave birth to it because it put new cultural capital, a conceptual arsenal of rights and freedoms at the disposal of ordinary people as well as political factions competing for their support, providing priceless legitimacy to all those who would insist that its nominal inclusiveness include them. In fact, *Medieval Frontiers: Concepts and Practices* David Abulafia, Nora Berend, 2017-03-02. In recent years, the medieval frontier has been the subject of extensive research. But the term has been understood in many different ways: political boundaries, fuzzy lines across which trade, religions, and ideas cross; attitudes to other peoples and their customs. This book draws attention to the differences between the medieval and modern understanding of frontiers, questioning the traditional use of the concepts of frontier and frontier society. It contributes to the understanding of physical boundaries as well as metaphorical and ideological frontiers, thus providing a background to present-day issues of political and cultural delimitation. In a major introduction, David Abulafia analyses these various ambiguous meanings of the term frontier in political, cultural, and religious settings. The articles that follow span Europe from the Baltic to Iberia, from the Canary Islands to central Europe, Byzantium, and the Crusader states. The authors

ask what was perceived as a frontier during the Middle Ages What was not seen as a frontier despite the usage in modern scholarship The articles focus on a number of themes to elucidate these two main questions One is medieval ideology This includes the analysis of medieval formulations of what frontiers should be and how rulers had a duty to defend and or extend the frontiers how frontiers were defined often in a different way in rhetorical ideological formulations than in practice and how in certain areas frontier ideologies were created The other main topic is the emergence of frontiers how medieval people created frontiers to delimit areas how they understood and described frontiers The third theme is that of encounters and a questioning of medieval attitudes to such encounters To what extent did medieval observers see a frontier between themselves and other groups and how does real interaction compare with ideological or narrative formulations of such interaction

New Studies in Medieval and Renaissance Gdańsk, Poland and Prussia Beata Możejko, 2017-03-31 New Studies in Medieval and Renaissance Poland and Prussia The Impact of Gdańsk draws together the latest research conducted by local historians and archaeologists on the city of Gdańsk and its impact on the surrounding region of Pomerania and Poland as a whole Beginning with Gdańsk's early political history and extending from the 10th to the 16th century its twelve chapters explore a range of political social and socio cultural historical questions and explain such phenomena as the establishment and development of the Gdańsk port and city A prominent theme is a consideration of the interactions between Gdańsk and Poland and Prussia including a look into the city's links with the State of the Teutonic Order in Prussia and the Kingdom of Poland under the rule of the Piast and Jagiellonian dynasties The chapters are placed in the historical context of medieval Poland as well as the broader themes of religion the matrimonial policy of noble families or their contacts with the papacy This book is an exciting new study of medieval Poland and unparalleled in the English speaking world making it an ideal text for those wanting to deepen their knowledge in this subject area

The Politics of Memory in Poland and Ukraine Tomasz Stryjek, Joanna Konieczna-Sałamatin, 2021-09-30 Bringing together the work of sociologists historians and political scientists this book explores the increasing importance of the politics of memory in central and eastern European states since the end of communism with a particular focus on relations between Ukraine and Poland Through studies of the representation of the past and the creation of memory in education mass media and on a local level it examines the responses of Polish and Ukrainian authorities and public institutions to questions surrounding historical issues between the two nations At a time of growing renationalization in domestic politics in the region brought about by challenges connected with migration and fear of Russian military activity this volume asks whether international cooperation and the stability of democracy are under threat An exploration of the changes in national historical culture The Politics of Memory in Poland and Ukraine will appeal to scholars with interests in memory studies national identity and the implications of memory making for contemporary relations between states

Monarchy, the Court, and the Provincial Elite in Early Modern Europe Peter Edwards, 2024-02-26 A team of experts view the relationship between rulers and their leading subjects across Europe and

further afield If God derived authority legitimized a monarch's rule it did not necessarily prevent opposition to perceived arbitrary government as subjects put forward the counter concept of consensual rule The provincial elite might serve the ruler as advisors and officers at court but they also possessed an independent source of power based on their extensive estates While monarchs wanted to perpetuate a system in which they could watch over members of the regional elite at court and keep them busy they sought to make use of them as local and provincial administrators that is as long as they remained loyal a fraught balancing act Contributors include Hlder Carvalhal Peter Edwards Jemma Field Cailean Gallagher Pedro Jos Herades Ruiz Graeme S Millen Vita Mala inskien Tibor Monostori Steve Murdoch David Potter Peter R Roberts Irene Maria Vicente Martin and Matthias Wong Capitalism as Hassliebe: Werner Sombart (1863-1941) Henryk Szlajfer, 2025-07-24 Werner Sombart seen both as a path breaking innovative economic historian who invented the concept of the Sp tkapitalismus Late Capitalism and the follower for some time of Hitler's National Socialism is still a forgotten major figure in German social science As the author of a widely known exposition on socialism and social movements trade unions the monumental *Der moderne Kapitalismus* and a controversial monograph on the role of the Jews in the birth of capitalism he is shown in this book in the broader context of the disputes in the first decades of the 20th century involving Marxists German Jews and his friend Max Weber *Elective Monarchy in Transylvania and Poland-Lithuania, 1569-1587* Felicia Roşu, 2017 This book examines the transformation of the elective principle in Transylvania and the newly created Polish Lithuanian Commonwealth in the early 1570s These countries insisted on their right to free elections despite the threat to public stability and this served to transform their institutions and constitutions
