From Greenwich Village to Taos Flannery Burke, 2016-01-22 They all came to Taos Georgia O Keefe D H Lawrence Carl Van Vechten and other expatriates of New York City Fleeing urban ugliness they moved west between 1917 and 1929 to join the community that art patron Mabel Dodge created in her Taos salon and to draw inspiration from New Mexico s mountain desert and primitive peoples As they settled their quest for the primitive forged a link between authentic places and those who called them home In this first book to consider Dodge and her visitors from a New Mexican perspective Flannery Burke shows how these cultural mavens drew on modernist concepts of primitivism to construct their personal visions and cultural agendas In each chapter she presents a place as it took shape for a different individual within Dodge s orbit From this kaleidoscope of places emerges a vision of what place meant to modernist artists as well as a narrative of what happened in the real place of New Mexico when visitors decided it was where they belonged Expanding the picture of early American modernism beyond New York s dominance she

shows that these newcomers believed Taos was the place they had set out to find and that when Taos failed to meet their expectations they changed Taos Throughout Burke examines the ways notions of primitivism unfolded as Dodge's salon attracted artists of varying ethnicities and the ways that patronage was perceived by African American writers seeking publication Anglos seeking authentic material Native American artists seeking patronage or Nuevomexicanos simply seeking respect She considers the notion of competitive primitivism especially regarding Carl Van Vechten and offers nuanced analyses of divisions within northern New Mexico's arts communities over land issues and of the ways in which Pueblo Indians spoke on their own behalf Burke's book offers a portrait of a place as it took shape both aesthetically in the imaginations of Dodge's visitors and materially in the lives of everyday New Mexicans It clearly shows that no people or places stand outside the modern world and that when we pretend otherwise those people and places inevitably suffer

Chimayo' Patricia Trujillo-Oviedo, 2012 The name Chimay is derived from the Tewa Indian term Tsi Mayoh and was given to a sacred place of the Pueblo Indians located in the foothills of the Sangre de Cristo Mountains between Santa Fe and Taos Many of the Spanish colonists who settled in Chimay after peaceful reentry to New Mexico in 1692 were descendants of those who left Castile and Extremadura Nurtured by their faith and strengthened by the traditions and skills they brought from Spain settlers converted a harsh environment into a fertile green valley that provided them a livelihood for several generations In 1810 Don Bernardo Abeyta a prominent citizen of Chimay discovered a crucifix buried near a sacred well of healing earth where he built a church This is the site of present day Santuario de Chimay also known as the Lourdes of America Over the centuries the descendants of Chimay colonists developed a unique weaving tradition that is also known throughout the world Present day Chimay offers a unique glimpse into a culture that has endured for centuries **From Settler to Citizen** Ross Frank, 2007-01-29 Ross Frank has written a model study of New Mexico's Vecinos a historical narrative as absorbing as it is illustrative of complex social processes Joyce Appleby author of *Inheriting the Revolution* The first Generation of Americans This is a richly dense and sophisticated history of eighteenth century New Mexico that focuses on the economic and cultural foundations of identity Deftly reading subtle changes in material culture and the organization of space Frank provides historians of the Americas with a fresh perspective on the impact of the Bourbon Reforms at the margins of empire Ramon Gutierrez author of *When Jesus Came the Corn Mothers Went Away* Marriage Sexuality and Power in New Mexico 1500-1846 *American Catholics in the Protestant Imagination* Michael P. Carroll, 2007-11-12 Michael P. Carroll argues that the academic study of religion in the United States continues to be shaped by a Protestant imagination that has warped our perception of the American religious experience and its written history and analysis In this provocative study Carroll explores a number of historiographical puzzles that emerge from the American Catholic story as it has been understood through the Protestant tradition Reexamining the experience of Catholicism among Irish immigrants Italian Americans Acadians and Cajuns and Hispanics Carroll debunks the myths that have informed much of this history Shedding

new light on lived religion in America Carroll moves an entire academic field in new exciting directions and challenges his fellow scholars to open their minds and eyes to develop fresh interpretations of American religious history **More Than a Scenic Mountain Landscape** Kurt Frederick Anschuetz, 2007 This study focuses on the cultural historical environment of the 88 900 acre 35 560 ha Valles Caldera National Preserve VCNP over the past four centuries of Spanish Mexican and U S governance It includes a review and synthesis of available published and unpublished historical ethnohistorical and ethnographic literature about the human occupation of the area now contained within the VCNP Documents include historical maps texts letters diaries business records photographs land and mineral patents and court testimony This study presents a cultural historical framework of VCNP land use that will be useful to land managers and researchers in assessing the historical ecology of the property It provides VCNP administrators and agents the cultural historical background needed to develop management plans that acknowledge traditional associations with the Preserve and offers managers additional background for structuring and acting on consultations with affiliated communities **The Nuclear Borderlands** Joseph Masco, 2020-03-24 An important investigation of the sociocultural fallout of America's work on the atomic bomb In *The Nuclear Borderlands* Joseph Masco offers an in depth look at the long term consequences of the Manhattan Project Masco examines how diverse groups in and around Los Alamos New Mexico understood and responded to the U S nuclear weapons project in the post Cold War period He shows that the American focus on potential nuclear apocalypse during the Cold War obscured the broader effects of the nuclear complex on society and that the atomic bomb produced a new cognitive orientation toward daily life reconfiguring concepts of time nature race and citizenship This updated edition includes a brand new preface by the author discussing current developments in nuclear politics and the scientific impact of the nuclear age on the present epoch of a human altered climate
