## **Sbs Culture And Identity:**

**Australian Television Culture** Tom O'Regan, 2020-07-24 Australian television has been transformed over the past decade. Cross media ownership and audience reach regulations redrew the map and business culture of television leading business entrepreneurs to acquire television stations and then sell them in the bust of the late 1980s and new television services were developed for non English speaking and Aboriginal viewers. Australian Television Culture is the first book to offer a comprehensive analysis of the fundamental changes of this period. It is also the first to offer a substantial treatment of the significance of multiculturalism and Aboriginal initiatives in television. Tracing the links between local, regional, national and international television services, Tom O'Regan builds a picture of Australian television. He argues that we are not just an outpost of the US networks and that we have a distinct television culture of our own, a truly innovative book. The author ambitiously strives for a large scale synthesis of policy, program analysis, history, politics, international influences and the Australian television system's place in the world. Associate Professor Stuart Cunningham, Queensland University of Technology. Reconciling Cultural and Political Identities in a Globalized World Michális Michael, 2016-04-29 Though geographically far apart, Turkey and Australia are much closer than many would think. This collection provides a relevant comparative and comprehensive study of two countries seeking to reconcile their history with their geography. *'For those who've come across the seas...'* Andrew Jakubowicz, Christina Ho, 2014-02-15 **Global Perspectives on the Politics of Multiculturalism in the 21st Century** Fethi Mansouri, Boulou Ebanda de B'éri, 2014-06-05 Multiculturalism is now seen by many of its critics as the source of intercultural and social tensions fostering communal segregation and social conflicts. While the cultural diversity of contemporary societies has to be acknowledged as an empirical and demographic fact, whether multiculturalism as a policy offers an optimal conduit for intercultural understanding and social harmony has become increasingly a matter of polarised public debate. This book examines the contested philosophical foundations of multiculturalism and its often controversial applications in the context of migrant societies. It also explores the current theoretical debates about the extent to which multiculturalism and related conceptual constructs can account for the various ethical challenges and policy dilemmas surrounding the management of cultural diversity in our contemporary societies. The authors consider common conceptual and empirical features from a transnational perspective through analysis of the case studies of Australia, Canada, Columbia, Germany, New Zealand, the United Kingdom and Uruguay. This book will be of interest to students and scholars of political science, comparative politics, international studies, multiculturalism, migration and political sociology. **Mobilising the Audience** Tom O'Regan, Mark Balnaves, Jason Sternberg, 2002 The first comprehensive integration of industry and academic audience research in Australia, this book introduces new directions in method and analysis. It is a contemporary probe into audience making and illustrates the ways marketers, producers and governments mobilise an audience. Case studies of Gen X computer gaming, child audiences. Language policies in Southeast Asia have been shaped by the process of nation building on the one hand and by political and economic considerations on the other The early years of nation building in Southeast Asia generated intensive language conflicts precisely because state policies privileged the idea of a monolingual nation and thus endeavoured to co opt or even do away with troublesome ethnic identities In recent years language policies are increasingly influenced by pragmatic considerations especially globalization and the awareness of a linkage between language and economic development such that Southeast Asian states in varying degrees have become less insistent on promoting monolingual nationalism This book evaluates the successes and drawbacks of language policies in Indonesia Malaysia Singapore the Philippines Thailand Vietnam and Myanmar especially the ways in which these policies have often been resisted or contested It is an invaluable primer on this linguistically complex region and a resource for scholars policy makers civil society activists and NGOs in various parts of the world facing equally challenging ethnic language issues      **Eurovision and Australia** Chris Hay,Jessica Carniel,2019-07-25

In short, Islam generally and the Muslim family in particular have become highly politicized sites of contestation and the book considers how and why and with what implications for British multiculturalism past, present and future. *Women, Law and Culture* Jocelynne A. Scutt, 2017-02-17 This book explores cultural constructs, societal demands and political and philosophical underpinnings that position women in the world. It illustrates the way culture controls women's place in the world and how cultural constraints are not limited to any one culture, country, ethnicity, race, class or status. Written by scholars from a wide range of specialists in law, sociology, anthropology, popular and cultural studies, history, communications, film and sex and gender, this study provides an authoritative take on different cultures, cultural demands and constraints, contradictions and requirements for conformity, generating conflict. *Women, Law and Culture* is distinctive because it recognises that no particular culture singles out women for special treatment, rules and requirements; rather, all do. Highlighting the way law and culture are intimately intertwined, impacting on women whatever their country and social and economic status, this book will be of great interest to scholars of law, women's and gender studies and media studies.
