**Literature and Musical Adaptation**, 2016-08-09 It can safely be said that when literary texts are utilized or adapted by a musician to create a new work of art it is seldom that a diminished or lessened product results Rather such a merging usually enlarges and enhances both text and tune perhaps significantly changing the message of the original Discovering exactly what the new form has to offer and how it relates to the text or melody that preceded it is often a daunting task requiring a close examination of both the author's and the composer's intent The essays in this collection offer an analysis of several adaptations some successful some not so successful and attempt to assess just what the musicians or writers have modified or changed from to the original as they re-form it into an altogether different media Ranging from Pasternak's appropriation of Tchaikovsky to Britten's operatic versions of *Billy Budd* and *The Turn of the Screw* from Celan's use of fugal technique in his *Todesfuge* to the way that the musicianship of several women writers found voice in their writing a broad spectrum of collaborations is examined As readers examine an author's respect for a long dead musician Hopkins admiration of Purcell or as they discover how John Harbison worked to transform Fitzgerald's musicality in *The Great Gatsby* it will be evident that musical adaptations often provide a richness that the originals did not possess and that the potential for greatness is heightened when the arts intersect

Wallenstein, 2012-11-05 Every year hundreds of American film schools graduate thousands of aspiring filmmakers. Very few of them, however, leave school prepared for the challenges that await or are fortunate enough to secure the financial backing of a major studio. This practical guide provides all necessary information for newcomers to the profession to get a movie made. Information often left out of film school curricula. Topics include finding a project, breaking down a script, creating a production board, casting, budgeting, scouting locations, scheduling, dealing with actors, establishing set protocol, marketing, and many others. Throughout, real-life examples vividly illustrate the subject at hand. Bridging the gap between learning the craft of moviemaking and exercising that craft in the entertainment world, this manual is essential for all who seek a career in film.
