Debates in Nineteenth-Century European Philosophy Kristin Gjesdal, 2015-11-10 Debates in Nineteenth Century European Philosophy offers an engaging and in depth introduction to the philosophical guestions raised by this rich and far reaching period in the history of philosophy Throughout thirty chapters organized around fifteen individual philosophers the volume surveys the intellectual contributions of European philosophy in the Nineteenth Century but it also engages the on going debates about how these contributions can and should be understood As such the volume provides both an overview of Nineteenth Century European philosophy and an introduction to contemporary scholarship in this field Schelling's Philosophy G. Anthony Bruno, 2020 This volume provides a wide ranging presentation of F W J Schelling s original contribution to and internal critique of the basic insights of German idealism and his and innovative responses to guestions of lasting metaphysical epistemological ethical aesthetic and theological importance The New Schelling Judith Norman, Alistair Welchman, 2004-04-22 Friedrich Wilhelm Joseph Von Schelling 1775 1854 was a colleague of Hegel Holderlin Fichte Goethe Schlegel and Schiller Always a champion of Romanticism Schelling advocated a philosophy which emphasized intuition over reason which maintained aesthetics and the creative imagination to be of the highest value At the same time Schelling's concerns for the self and the rational make him a major precursor to existentialism and phenomenology The New Schelling brings together a wide ranging set of essays which elaborate the connections between Schelling and other thinkers such as Marx Nietzsche Freud Sartre Deleuze and Lacan and argue for the unexpected modernity of Schelling s work Contributors Manfred Frank I rgen Habermas Iain Hamilton Grant Joseph Lawrence Odo Marquand Judith Norman Alberto Toscano Michael Vater Alistair Welchman Slavoj Zi zek **Prismatic Ecology** Jeffrey

Rundell, 2004-01-01 The essays in this book engage with the broad range of J rgen Habermas work including politics and the public sphere nature aesthetics the linguistic turn and the paradigm of intersubjectivity Each essay responds to particular difficulties with Habermas approach to these topics Each contributor also draws on different theoretical and philosophical traditions in order to explore recent developments in critical theory Slavoj Žižek and Christianity Sotiris Mitralexis, Dionysios Skliris, 2018-07-18 Slavoj i ek s critical engagement with Christian theology goes much further than his seminal The Fragile Absolute 2000 or his The Puppet and the Dwarf 2003 or even his discussion with noted theologian John Milbank in The Monstrosity of Christ 2009 His reading of Christianity utilising his signature elements of Lacanian psychoanalysis and Hegelian philosophy with modern philosophical currents can be seen as a genuinely original contribution to the philosophy of religion This book focuses on these aspects of i ek s thought with either philosophy and cultural theory or Christian theology serving as starting points of enquiry Written by a panel of

international contributors each chapter teases out various strands of i ek s thought concerning Christianity and religion and brings them into a wider conversation about the nature of faith These essays show that far from being an outright rejection of Christian thought and intellectual heritage i ek s work could be seen as a perverse affirmation thereof Thus what he has to say should be of direct interest to Christian theology itself Touching on thinkers such as Badiou Lacan Chesterton and Schelling this collection is a dynamic reading and re reading of i ek s relationship to Christianity As such scholars of theology the philosophy of religion and i ek more generally will all find this book to be of great interest **Suffering Religion** Robert Gibbs, Elliot R. Wolfson, 2003-09-02 In a diverse and innovative selection of new essays by cutting edge theologians and philosophers Suffering Religion examines one of the most primitive but challenging questions to define human experience why do we suffer As a theme uniting very different religious and cultural traditions the problem of suffering addresses issues of passivity the vulnerability of embodiment the generosity of love and the complexity of gendered desire Interdisciplinary studies bring different kinds of interpretations to meet and enrich each other Can the notion of goodness retain meaning in the face of real affliction or is pain itself in conflict with meaning Themes covered include philosophy s own failure to treat suffering seriously with special reference to the Jewish tradition Martin Buber's celebrated interpretations of scriptural suffering suffering in Kristevan psychoanalysis focusing on the Christian theology of the cross the pain of childbirth in a home setting as a religiously significant choice Gods primal suffering in the kabbalistic tradition Incarnation as a gracious willingness to suffer **Problem of Nature in Hegel's Final System** Wes Furlotte, 2018-07-02 Wes Furlotte critically evaluates Hegel's philosophy of human freedom in terms of his often disregarded conception of nature In doing so he gives us a new portrait of Hegel's final system that is surprisingly relevant for our contemporary world connecting it with recent work in speculative realism and new materialism **Rethinking German Idealism** S.J. McGrath, Joseph Carew, 2016-06-27 The death of German Idealism has been decried innumerable times since its revolutionary inception whether it be by the 19th century critique of Western metaphysics phenomenology contemporary French philosophy or analytic philosophy Yet in the face of two hundred years of sustained extremely rigorous attempts to leave behind its legacy German Idealism has resisted its philosophical death sentence For this exact reason it is timely ask What remains of German Idealism In what ways does its fundamental concepts and texts still speak to us Drawing together new and established voices from scholars in Kant Fichte Hegel and Schelling this volume offers a fresh look on this time honoured tradition It uses myriad of recently developed conceptual tools to present new and challenging theories of its now canonical figures The Palgrave Handbook of German Idealism and Poststructuralism Tilottama Rajan, Daniel Whistler, 2023-06-01 The Palgrave Handbook of German Idealism and Poststructuralism offers a wide ranging dialogue between theory and German Idealism joining up the various lines of influence connecting German Idealist and Romantic philosophies in all their variety to post 68 European philosophies from Derrida and Deleuze to i ek and Malabou Key features Provides in depth reflections on the various conversations

between German Idealism and theory including an expanded canon of Idealist philosophers and a wide range of contemporary anti foundationalist thinkers Includes marginalized voices and concepts that reflect both contemporary concerns as well as the sheer abundance of readings of German Idealism undertaken by European theorists over the last fifty years Expands the existing scholarship by focusing on new future directions emerging out of the idealism theory relationship The Palgrave Handbook of German Idealism and Poststructuralism is essential reading for researchers and students of all levels from senior scholars to advanced undergraduates working on the legacy of German Idealist philosophers within philosophy departments as well as all those interested in theory from across the humanities Proust, the One, and the Many Erika Fulop, 2017-12-02 One of the many aspects that make Marcel Prousts A la recherche du temps perdu such a complex and subtle work is its engagement with metaphysical questions. The disparate nature of the narrators experiences hypotheses and statements has generated a number of conflicting interpretations based on parallels with the thought of one or another philosopher from Plato to Leibniz Spinoza Schopenhauer Nietzsche Bergson or Deleuze Through the analysis of the narrators two seemingly incompatible perceptions of the world which reveal reality to be either one or infinitely multiple Erika Fuelop proposes a reading of the novel that reconciles the opposites Rather than being undecided or self contradictory the narrative thematizes the insufficiency of the dualist perspective and invites the reader to take a step beyond it Erika Fuelop is an independent researcher whose doctoral thesis completed at the University of Aberdeen is at the basis of this monograph Politics, Religion, and Art Douglas Moggach, 2011-04-14 The period from 1780 to 1850 witnessed an unprecedented explosion of philosophical creativity in the German territories In the thinking of Kant Schiller Fichte Hegel and the Hegelian school new theories of freedom and emancipation new conceptions of culture society and politics arose in rapid succession The members of the Hegelian school forming around Hegel in Berlin and most active in the 1830 s and 1840 s are often depicted as mere epigones whose writings are at best of historical interest In Politics Religion and Art Hegelian Debates Douglas Moggach moves the discussion past the Cold War era dogmas that viewed the Hegelians as proto Marxists and establishes their importance as innovators in the fields of theology aesthetics and ethics and as creative contributors to foundational debates about modernity state and society Noir Materialism Michael Uhall, 2024-04-24 In Noir Materialism Freedom and Obligation in Political Ecology Michael Uhall reengineers the conceptual relationship between nature and politics by crafting the terms of a new philosophy of nature and exploring its consequences for political theory These consequences include major theoretical reformulations of indispensable political ideas including freedom obligation and the subject These ideas need to be retooled because the ecological crisis devastating our planet is at root a political crisis deeply inflected by the concepts used to help navigate decisional and material environments Noir Materialism stages pivotal encounters with Hannah Arendt Roberto Esposito and F W J Schelling as well as engaging critically with biopolitics environmental political thought new materialism the ontological turn in anthropology and surprisingly film noir Ultimately

Noir Materialism argues that only a return to the nightside of nature can address the conceptual gridlock impeding attempts to register and respond to the ecological crisis

The German Aesthetic Tradition Kai Hammermeister, 2002-10-17 Publisher Description

'Being Towards Death' Sylvie Avakian,2021-04-19 This book draws the philosophical contribution of Martin Heidegger together with theological spiritual insights from the East especially that of Nikolai Berdyaev Thus it brings into dialogue the West with the East and philosophy with theology By doing so it offers Christian theology an existential spiritual language that is relevant and meaningful for the contemporary reader In particular the work explores Heidegger's being towards death Sein zum Tode as the basis for theological philosophical thinking Only the one who embraces being towards death has the courage to think and poetize This thinking in turn makes being towards death possible and in this circular movement of thinking and being the mystery of being reveals itself and yet remains hidden Since the work aims at demonstrating being towards death through language it transitions away from the common formulations and traditionally accepted ways of writing dogmatic theology towards an original philosophical reflection on faith and spirituality At different points however the work also retrieves the profound thoughts and theologies of the past the insightful creativity of which cannot be denied
