Leading with Feeling Cary Cherniss,Cornelia Roche,2020-05-01 For many decades the conventional wisdom was that emotion has no place in the work world and the ideal leader is one who approaches problems rationally and unemotionally However the reality is that emotion is inevitable when a group of people come together for an extended period of time to work on challenging tasks and if used effectively a leader s moods and emotions can be a plus rather than a minus This book describes how 25 outstanding leaders used emotional intelligence to deal with critical challenges and opportunities Featuring commentary from the leaders themselves describing how they handled each situation it helps managers better understand not just what emotional intelligence is or how to measure it or how it is linked to bottom line results it also shows how real leaders used their emotional intelligence to deal with real situations The book distills the leaders experiences into nine strategies that can help any leader or potential leader to be more effective Each chapter concludes with activities that help readers to apply immediately each of those strategies
