The first volume introduces zPDT and provides reference material for zPDT commands and device managers. The second volume describes the installation of zPDT including the underlying Linux and a particular z/OS distribution and basic usage patterns. The third volume discusses more advanced topics that may not interest all zPDT users. The IBM order numbers for the three volumes are SG24 7721, SG24 7722 and SG24 7723. The systems discussed in these volumes are complex with elements of Linux for the underlying PC machine z/Architecture for the core zPDT elements, System z I/O functions for emulated I/O devices and z/OS providing the System z application interface and possibly with other System z operating systems. We assume the reader is familiar with the general concepts and terminology of System z hardware and software elements and with basic PC Linux characteristics.
