The Gendering of Men, 1600-1750 Thomas Alan King, 2004 Taking on nothing less than the formation of modern sexual and gender identities King examines the way masculinity in the 17th and 18th centuries was reconfigured and how heterosexuality in turn became naturalized This is a crucial work by one of the field's leading scholars The Gendering of Men 1600 1750 traces the transition from a society based on alliance which had subordinated all men women and boys to higher ranked males to one founded in sexuality through which men have embodied their claims to personal and political privacy King proposes that the male body is a performative production marking men's resistance to their subjection within patriarchy and sovereignty Emphasizing that categories of gender must come under historical analysis The Gendering of Men explores men's participation in an ongoing struggle for access to a universal manliness transcending other biological and social differentials

Roll Over, Tchaikovsky! Stephen Amico, 2014-06-15 Centered on the musical experiences of homosexual men in St Petersburg and Moscow this ground breaking study examines how post Soviet popular music both informs and plays off of a corporeal understanding of Russian male homosexuality Drawing upon ethnography musical analysis and phenomenological theory Stephen Amico offers an expert technical analysis of Russian rock pop and estrada music dovetailing into an illuminating discussion of homosexual men's physical and bodily perceptions of music He also outlines how popular music performers use song lyrics drag physical movements images of women sexualized male bodies and other tools and tropes to implicitly or explicitly express sexual orientation through performance Finally Amico uncovers how such performances help homosexual Russian men to create their own social spaces and selves in meaningful relation to others with whom they share a nontraditional orientation

Gender, Sexuality and National Identity in the Lives of British Lifestyle Migrants in Spain Laura Dixon, 2021-03-28 This book takes an intimate look at the lives of British migrants in Sitges an affluent coastal tourist town in Northern Spain and investigates ideas of gender sexuality and national identity as they are brought to life through the voices of British lifestyle migrants Situating Sitges as a specifically affluent and middle class location representing a particular form of lifestyle migration this rich and detailed study explores how the experiences of British migrants re inscribe culturally specific understandings of the relationship between space place culture and identity What ultimately emerges is an account of the complex structural constraints of identity as British migrants find themselves stuck within the stereotype of badly behaved Brits Abroad and entangled in highly conservative conceptualisations of gender and sexuality that leave them unable to live the kind of cosmopolitan lifestyles that they so purposefully sought This is a fascinating study suitable for researchers in gender and sexuality studies tourism sociology and anthropology *Representations* ,2001 Bookforum ,2001
