Margins for Survival Edward Wenk, 2016-01-22 *Margins for Survival Overcoming Political Limits in Steering Technology* examines the political limits as revealed by institutional behavior in the deliberate act of steering technology to produce socially satisfactory outcomes This book provides an awareness of the predicaments toward which technology intensive public policy must be generated and tuned Organized into 11 chapters this book begins with an overview of the common features of war poverty social injustice ecological instability and dehumanization This text then examines the peril of brutality through psychological emotional threats of deprivation of basic human rights dignity and freedom Other chapters consider the deprivation individual opportunity for equanimity and self expression and deprivation of equitable access to resources This book discusses as well the various step of progress toward risk reduction that involves techniques of social machinery The final chapter deals with the meaning of life with freedom dignity and self esteem This book is a valuable resource for political leaders

The Politics of the Solar Age Hazel Henderson, 1988 *Policy Studies Review*, 1986

Congress and National Energy Policy James Everett Katz, James Katz evaluates the implications to the American political system of Congress's struggle over the formulation of a national energy policy during the last decade He makes an original contribution by analyzing the policy in a wider theoretical and historical context This combination of history description analysis and theory building makes the book highly informative and useful Katz shows that although energy supply is one of the greatest problems facing our generation and a key factor in the competition among world powers Congress has often been unable to form effective energy policies By examining Congress's reaction to the energy policy initiatives of recent administrations the organizational and sociological limitations of the nation's ability to grapple with the development of a comprehensive energy policy and the attempts to build a governmental organization to administer it Katz provides new insight into Congress as an organization as well as into the proclivities and dynamics of the U S policy system He also applies his own theory of organization to Congress to help predict and explain Congressional behavior
