## **Marianne Thornton 1st Edition:**

*Marianne Thornton* Edward Morgan Forster, 1902      **Book Prices: Used and Rare, 1994** Edward N. Zempel, 1994  
Biographical Books, 1950-1980 R.R. Bowker Company. Department of Bibliography, 1980      **A Spiritual Bloomsbury**  
Antony R. H. Copley, 2006-01-01 A Spiritual Bloomsbury is an exploration of how three English writers Edward Carpenter E M Forster and Christopher Isherwood sought to come to terms with their homosexuality by engagement with Hinduism Copley reveals how these writers came to terms with their inner conflicts and were led in the direction of Hinduism by friendship or the influence of gurus Tackling the themes of the guru disciple relationship their quarrel with Christianity relationships with their mothers and the problematic feminine the tensions between sexuality and society and the attraction of Hindu mysticism this fascinating work seeks to reveal whether Hinduism offered the answers and fulfillment these writers ultimately sought Also included is a diary narrating Copley's quest to track down Carpenter's and Isherwood's Vedantism and Forster's Krishna cult on a journey to India      English Literature Harvard University. Library, 1971      **E. M. Forster** J H Stape, 1992-12-18 This volume of interviews and recollections offers a kaleidoscopic view of E M Forster's character as observed and remembered by college associates close friends chance acquaintances and fellow writers These forty six pieces some published here for the first time variously reveal facets of his private and public personalities Forster the subtle analyst of middle class England the spokesman for liberal causes and humane values the Cambridge insider and the committed friend      **Wilberforce** Anne Stott, 2012-03-15 At the age of thirty seven after a very short courtship William Wilberforce married Barbara Spooner the daughter of a Midlands industrialist and their first child was born in the following year His family life brought him both happiness and anxiety Convinced that he had been too long a Bachelor he lacked confidence in his ability to be a good husband and father A great deal has been written about Wilberforce's role in the abolition of the slave trade but far less about his private life Yet this is the man who exchanged his prestigious Yorkshire constituency for an undemanding pocket borough in order to devote himself to his family In her innovative study Anne Stott casts fresh light on the abolitionist and his friends the group of Evangelical philanthropists retrospectively named the Clapham sect While the men occupied important public roles they were also deeply committed to the ideal of domesticity The ideology of the period depicted the middle class home as a place of tranquil retreat from the cares and temptations of public life though the family crises depicted in this study show that the reality was always more complex With varying degrees of success the Clapham men and women brought their Evangelical piety to their patterns of courtship and marriage their philosophy of child rearing and their strategies in coping with death and bereavement For the first time much of this story is told from the perspective of the wives and it is primarily through their voices that the book's themes of the family women and gender childhood and education sexuality and intimacy are explored      **Victorian School Manager** Peter Gordon, 2019-01-15 First published in 1974 Routledge is an imprint of Taylor Francis an informa company Graham Balfour in a lecture delivered in February 1921

first drew attention to the growing importance of the elementary school manager in the system of educational administration during the period with which this study is concerned Local administrators of education other than trustees a hundred years ago there were none Indeed it is very curious how imperceptibly that important figure of the latter half of the nineteenth century the School Manager steals into existence *Eudora Welty--a bibliography of her work* Noel Polk,1993-01-01

*Sainik Samachar* ,1970 **Widener Library Shelflist: English literature** Harvard University. Library,1971 **The Reception of Darwinian Evolution in Britain, 1859-1909** Martin Hewitt,2024-10-20 The Reception of Darwinian Evolution in Britain 1859 1909 Darwinism s Generations uses the impact of Charles Darwin s On the Origin of Species 1859 in the 50 years after its publication to demonstrate the effectiveness of a generational framework for understanding the cultural and intellectual history of Britain in the nineteenth century It challenges conventional notions of the Darwinian Revolution by examining how people from across all sections of society actually responded to Darwin s writings Drawing on the opinions and interventions of over 2 000 Victorians drawn from an exceptionally wide range of archival and printed sources it argues that the spread of Darwinian belief was slower more complicated more stratified by age and ultimately shaped far more powerfully by divergent generational responses than has previously been recognised In doing so it makes a number of important contributions It offers by far the richest and most comprehensive account to date of how contemporaries came to terms with the intellectual and emotional shocks of evolutionary theory It makes a compelling case for taking proper account of age as a fundamental historical dynamic and for the powerful generational patternings of the effects that age produced It demonstrates the extent to which the most common sub periodisation of the Victorian period are best understood not merely as constituted by the exigencies of events but are also formed by the shifting balance generational influence Taken together these insights present a significant challenge to the ways historians currently approach the task of describing the nature and experience of historical change and have fundamental implications for our current conceptions of the shape and pace of historical time Rethinking the Financial Crisis Alan S. Blinder,Andrew W. Loh,Robert M. Solow,2013-01-03 Some economic events are so major and unsettling that they change everything Such is the case with the financial crisis that started in the summer of 2007 and is still a drag on the world economy Yet enough time has now elapsed for economists to consider questions that run deeper than the usual focus on the immediate causes and consequences of the crisis How have these stunning events changed our thinking about the role of the financial system in the economy about the costs and benefits of financial innovation about the efficiency of financial markets and about the role the government should play in regulating finance In Rethinking the Financial Crisis some of the nation s most renowned economists share their assessments of particular aspects of the crisis and reconsider the way we think about the financial system and its role in the economy In its wide ranging inquiry into the financial crash Rethinking the Financial Crisis marshals an impressive collection of rigorous and yet empirically relevant research that in some respects upsets the

conventional wisdom about the crisis and also opens up new areas for exploration Two separate chapters by Burton G Malkiel and by Hersh Shefrin and Meir Statman debate whether the facts of the financial crisis upend the efficient market hypothesis and require a more behavioral account of financial market performance To build a better bridge between the study of finance and the real economy of production and employment Simon Gilchrist and Egan Zakrasjek take an innovative measure of financial stress and embed it in a model of the U S economy to assess how disruptions in financial markets affect economic activity and how the Federal Reserve might do monetary policy better The volume also examines the crucial role of financial innovation in the evolution of the pre crash financial system Thomas Philippon documents the huge increase in the size of the financial services industry relative to real GDP and also the increasing cost per financial transaction He suggests that the finance industry of 1900 was just as able to produce loans bonds and stocks as its modern counterpart and it did so more cheaply Robert Jarrow looks in detail at some of the major types of exotic securities developed by financial engineers such as collateralized debt obligations and credit default swaps reaching judgments on which make the real economy more efficient and which do not The volume s final section turns explicitly to regulatory matters Robert Litan discusses the political economy of financial regulation before and after the crisis He reviews the provisions of the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 which he considers an imperfect but useful response to a major breakdown in market and regulatory discipline At a time when the financial sector continues to be a source of considerable controversy Rethinking the Financial Crisis addresses important questions about the complex workings of American finance and shows how the study of economics needs to change to deepen our understanding of the indispensable but risky role that the financial system plays in modern economies **The National Union Catalog** ,1961 **The Trend of Economic Thinking** F.A.

Hayek,2020-06-29 This volume presents much newly published work by Hayek on methodology of economics its development as a subject its key thinkers and its important debates It is published in corrected revised and annotated form with a long introduction **National Union Catalog** ,1973 Includes entries for maps and atlases **Darwin: A Companion - With**

**Iconographies By John Van Wyhe** Paul Van Helvert,John Van Wyhe,2021-01-12 This is a book that required a great many research hours the kind of volume you may be glad someone took the time to compile The Quarterly Review of Biology This is the ultimate guide to the life and work of Charles Darwin The result of decades of research through a vast and daunting literature which is hard for beginners and experts alike to navigate it brings together widely scattered facts including very many unknown to even the most ardent Darwin aficionados It includes hundreds of new discoveries and corrections to the existing literature It provides the most complete summaries of his publications manuscripts lifetime itinerary finances personal library friends and colleagues opponents visitors to his home anniversaries hundreds of flora fauna monuments and places named after him and a host of other topics Also included are the most complete lists iconographies ever created of illustrations of the Beagle over 1000 portraits of Darwin his wife and home as well as all known Darwin photographs stamps
