Marianne Thornton:

Marianne Thornton Edward Morgan Forster,2000 The Abinger Edition of Marianne Thornton based upon E M Forster s own annotated copy presents the text of one of his two full length biographies This truly was a domestic biography documenting the life of Forster s great aunt Marianne died in 1887 when Forster was aged eight but his decision to focus upon her rather than one of his more publicly famous ancestors enabled him to emphasise the private implications of public life and give pride of place to the inner life He was intrigued by the personality that emerged from the wealth of family archives he plundered during his research and Marianne s longevity enabled him to draw a rounded portrait of public and private life from the Georgian England of unreformed parliaments to the year of Queen Victoria s Golden Jubilee

Marianne Thornton Edward Morgan Forster,1902 Marianne Thornton Edward Morgan Forster, 1973 Marianne Thornton, 1737-1887 Edward Morgan Forster, Marianne Thornton, 1956 Wilberforce Anne Stott,2012-03-15 At the age of thirty seven after a very short courtship William Wilberforce married Barbara Spooner the daughter of a Midlands industrialist and their first child was born in the following year His family life brought him both happiness and anxiety Convinced that he had been too long a Bachelor he lacked confidence in his ability to be a good husband and father A great deal has been written about Wilberforce's role in the abolition of the slave trade but far less about his private life Yet this is the man who exchanged his prestigious Yorkshire constituency for an undemanding pocket borough in order to devote himself to his family In her innovative study Anne Stott casts fresh light on the abolitionist and his friends the group of Evangelical philanthropists retrospectively named the Clapham sect While the men occupied important public roles they were also deeply committed to the ideal of domesticity. The ideology of the period depicted the middle class home as a place of tranquil retreat from the cares and temptations of public life though the family crises depicted in this study show that the reality was always more complex With varying degrees of success the Clapham men and women brought their Evangelical piety to their patterns of courtship and marriage their philosophy of child rearing and their strategies in coping with death and bereavement For the first time much of this story is told from the perspective of the wives and it is primarily through their voices that the book s themes of the family women and gender childhood and education sexuality and intimacy are explored <u>Domestic Biography</u> Christopher Tolley, 1997 Christopher Tolley has written a fascinating account of the influence of evangelicalism upon eminent Victorians from the members of the Clapham sect down to the more secular Bloomsbury group Recording family life and deaths was an important ritual in Victorian households and out of this habit grew a new literary genre the domestic biography celebrating individual achievement family piety and domestic virtue Using a wide range of hitherto unpublished material from family archives Dr Tolley analyses the biographical traditions exemplified by the public and private utterances of different generations of four leading Victorian families Macaulay Stephen Wilberforce and Thornton This book is a perceptive commentary on the role of the domestic biography as a testament to the cultural

legacy of the Victorian intelligentsia and the creation of family values Rethinking the Financial Crisis Alan S. Blinder, Andrew W. Loh, Robert M. Solow, 2013-01-03 Some economic events are so major and unsettling that they change everything Such is the case with the financial crisis that started in the summer of 2007 and is still a drag on the world economy Yet enough time has now elapsed for economists to consider questions that run deeper than the usual focus on the immediate causes and consequences of the crisis How have these stunning events changed our thinking about the role of the financial system in the economy about the costs and benefits of financial innovation about the efficiency of financial markets and about the role the government should play in regulating finance In Rethinking the Financial Crisis some of the nation s most renowned economists share their assessments of particular aspects of the crisis and reconsider the way we think about the financial system and its role in the economy In its wide ranging inquiry into the financial crash Rethinking the Financial Crisis marshals an impressive collection of rigorous and yet empirically relevant research that in some respects upsets the conventional wisdom about the crisis and also opens up new areas for exploration Two separate chapters by Burton G Malkiel and by Hersh Shefrin and Meir Statman debate whether the facts of the financial crisis upend the efficient market hypothesis and require a more behavioral account of financial market performance To build a better bridge between the study of finance and the real economy of production and employment Simon Gilchrist and Egan Zakrasjek take an innovative measure of financial stress and embed it in a model of the U S economy to assess how disruptions in financial markets affect economic activity and how the Federal Reserve might do monetary policy better The volume also examines the crucial role of financial innovation in the evolution of the pre crash financial system Thomas Philippon documents the huge increase in the size of the financial services industry relative to real GDP and also the increasing cost per financial transaction He suggests that the finance industry of 1900 was just as able to produce loans bonds and stocks as its modern counterpart and it did so more cheaply Robert Jarrow looks in detail at some of the major types of exotic securities developed by financial engineers such as collateralized debt obligations and credit default swaps reaching judgments on which make the real economy more efficient and which do not The volume s final section turns explicitly to regulatory matters Robert Litan discusses the political economy of financial regulation before and after the crisis He reviews the provisions of the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 which he considers an imperfect but useful response to a major breakdown in market and regulatory discipline At a time when the financial sector continues to be a source of considerable controversy Rethinking the Financial Crisis addresses important questions about the complex workings of American finance and shows how the study of economics needs to change to deepen our understanding of the indispensable but risky role that the financial system plays in modern economies Julia Wedgwood, The Unexpected Victorian Sue Brown, 2022-03-08 Though Julia Wedgwood is still remembered as a commentator on the work of her uncle Charles Darwin and for her brief but intense friendship with Browning her contemporary standing as a writer the thoughtful woman par excellence has been obscured as has her role in

the pioneering days of women s higher education and the first campaigns for female suffrage Based on her extensive correspondence and unusually wide ranging work this biography unites the private person and the public writer It also looks at her many relationships with leading Victorian cultural figures including not only Darwin and Browning but George Eliot Mrs Gaskell Harriet Martineau Frances Power Cobbe F D Maurice Richard Hutton Arthur Munby and the young E M Forster It considers the challenges facing a single deaf Victorian woman in establishing her own independent but unconventional life
