**Marine Structures, Their Deterioration and Preservation** National Research Council (U.S.). Division of Engineering and Industrial Research, William Greene Atwood, Arthur Albert Johnson, 1924 Includes analysis of the Charleston harbor

Marine Structures, Their Deterioration and Preservation; Report of the Committee on Marine Piling Investigations of the Division of Engineering and Industrial Research of the National Research Council National Research Council (U S ) DIV, William G B 1872 Atwood, Arthur Albert Johnson, 2023-07-18

This report from the Committee on Marine Piling Investigations provides a comprehensive study on the deterioration and preservation of marine structures. It covers various types of marine structures and their materials as well as the environmental factors that contribute to their decay. The report also offers recommendations for preservation techniques to extend the lifespan of these structures. This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America and possibly other nations. Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work. Scholars believe and we concur that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant.
