Mark Of Circumcision A History Of The Worlds Most Controversial Surgery:

Circumcision: A History Of The World's Most Controversial Surgery David Gollaher, 2000-03-20 The strange history of surgery's oldest enigma and most persistent ritual The Covenant of Circumcision Elizabeth Wyner Mark, 2003 Scholars and rabbis examine the complicated history and contemporary challenges of the Jewish rite of circumcision **Judaism** ,

Understanding Circumcision George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos, 2013-06-29 Every year in the United States and the third world combined 13.3 million boys and 2 million girls are circumcised Whether because of perceived medical cultural or religious necessity most of these parents feel they have no alternative but to allow their children to undergo this surgery Sparking intense debate the circumcision of children is a highly controversial and complex phenomenon that touches a variety of sociological areas such as religious beliefs identity issues medical conceptualizations fear and superstition The contributors to this volume comprise an international panel of experts in the fields of medicine psychology law ethics sociology anthropology history theology and politics In 18 chapters they discuss the history of circumcision document the physical and psychological consequences of circumcision present the latest anatomical discoveries about the male prepuce analyze the role of circumcision in various traditions reveal the medical industry's investment in the practice describe current legislative efforts to protect children from circumcision and outline effective culturally sensitive methods that are being implemented today to safeguard the human rights of at risk children For its insights into this troubling aspect of culture Understanding Circumcision A Multi Disciplinary Approach to a Multi Dimensional Problem is a critically important contribution to the growing body of literature on this subject Theology and Practice in Early Christianity Troy W. Martin, 2020-08-12 Early Christianity did not originate in a vacuum but in a world of linguistic social religious and cultural richness and diversity The twenty two seminal essays in this volume some previously published some newly written represent almost three decades of research by Troy W Martin to understand how early Christianity developed in the ancient world The broad ranging investigations in these essays give attention not only to the linguistic and rhetorical features of early Christian texts but also to the social philosophical physiological and medical contexts in which these texts were written The essays provide new understandings of early Christian conceptions of salvation and of the virtues of faith hope and love that characterized early Christian communities They include new medical and physiological explanations of early Christian sacraments pneumatology and eschatology and furthermore investigate early Christian communal life and practice including the veiling of women male female relationships and time keeping The essays include reception histories that describe their influence on subsequent research and place them within the context of contemporary research and scholarship Those familiar with the well trodden ground of New Testament studies will find in these essays new insights and previously unexplored comparative material for understanding early Christianity and the world in which it originated **Clinical Ethics in Pediatrics** Douglas S. Diekema, Mark R. Mercurio, Mary B. Adam, 2011-09-08

This volume provides a practical overview of the ethical issues arising in pediatric practice. The case based approach grounds the bioethical concepts in real life situations covering a broad range of important and controversial topics including informed consent, confidentiality, truthfulness and fidelity, ethical issues relating to perinatology and neonatology, end of life issues, new technologies and problems of justice and public health in pediatrics. A dedicated section also addresses the topics of professionalism including boundary issues, conflicts of interests and relationships with industry, ethical issues arising during training and dealing with the impaired or unethical colleague. Each chapter contains a summary of the key issues covered and recommendations for approaching similar situations in other contexts. **Clinical Ethics in Pediatrics: A Case Based Textbook** is an essential resource for all physicians who care for children as well as medical educators, residents and scholars in clinical bioethics.

Morality, Violence, and Ritual Circumcision Na'ama Carlin, 2022-11-30. This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence. Intervening in contemporary debates on the Jewish ritual of circumcision, it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent. An examination of the intersection of violence and morality, this book rejects the binary logic on which popular debates on circumcision hinge, arguing that in some instances violence can be a productive experience and can thus be considered beyond good and bad. Engaging with the works of Jacques Derrida, the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence, the violence of being which resists definition through binary oppositions. In so doing, the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies. As such, this volume offers a compelling framework that investigates the relationship between bodies, identities, ethics and violence and will therefore appeal to scholars of sociology, social theory and religion with interests in the sociology of the body, ritual and cultural studies.

Illness and Image Sander L. Gilman, 2018-01-16. The humanities in higher education are too often labeled as impractical and are not usually valued in today's marketplace. Yet in professional fields such as the health sciences, interest in what the humanities can offer has increased. Advocates claim the humanities offer health care professionals greater insight into how to work with those who need their help. **Illness and Image** introduces undergraduates and professionals to the medical humanities using a series of case studies beginning with debates about male circumcision from the ancient world to the present to the meanings of authenticity in the face transplantation arena. The case studies address the interpretation of mental illness as a disability and the new category of mental illness, self-harm. Sander L. Gilman shows how medicine projects such categories into the historical past to show that they are not bound in time and space and therefore are real. **Illness and Image** provides students and researchers with models and possible questions regarding categories often assumed to be either trans-historical or objective, making it useful as a textbook.

Religion and American Cultures Gary

Laderman, Luis León, 2014-12-17 This four volume work provides a detailed multicultural survey of established as well as new American religions and investigates the fascinating interactions between religion and ethnicity gender politics regionalism ethics and popular culture This revised and expanded edition of Religion and American Cultures Tradition Diversity and Popular Expression presents more than 140 essays that address contemporary spiritual practice and culture with a historical perspective The entries cover virtually every religion in modern day America as well as the role of religion in various aspects of U S culture Readers will discover that Americans aren't largely Protestant Catholic or Jewish anymore and that the number of popular religious identities is far greater than many would imagine And although most Americans believe in a higher power the fastest growing identity in the United States is the nones those Americans who elect none when asked about their religious identity thereby demonstrating how many individuals see their spirituality as something not easily defined or categorized The first volume explores America's multicultural communities and their religious practices covering the range of different religions among Anglo Americans and Euro Americans as well as spirituality among Latino African American Native American and Asian American communities The second volume focuses on cultural aspects of religions addressing topics such as film Generation X public sacred spaces sexuality and new religious expressions The new third volume expands the range of topics covered with in depth essays on additional topics such as interfaith families religion in prisons belief in the paranormal and religion after September 11 2001 The fourth volume is devoted to complementary primary source documents

The Book of Immediate Magic - Part 2 Jacobus G. Swart, 2018-08 The Shadow Tree Series comprises a unique collection of Western Esoteric studies and practices which Jacobus G Swart spiritual successor to William G Gray and co founder of the Sangreal Sodality has actuated and taught over a period of forty years In The Book of Immediate Magic Part 1 Jacobus G Swart perpetuates the fundamental tenets of Self Creation in which it is maintained that the Centre establishes the Circumference and that personal reality is emanated in harmony with personal Will Hence this tome comprises an enhancement and expansion of the magical doctrines and techniques of Practical Kabbalah addressed in The Book of Self Creation The Book of Sacred Names and The Book of Seals Amulets Jacobus Swart claims that working Immediate Magic is neither impossible nor difficult when we fully understand that consciousness is just one vast ocean and that thoughts are the waves we make in it It is all a matter of coordinating consciousness

The Dirt on Clean Katherine Ashenburg, 2010-05-21 For the first century Roman being clean meant a public two hour soak in baths of various temperatures a scraping of the body with a miniature rake and a final application of oil For the seventeenth century aristocratic Frenchman it meant changing his shirt once a day using perfume to obliterate both his own aroma and everyone else's but never immersing himself in horrors water By the early 1900s an extraordinary idea took hold in North America that frequent bathing perhaps even a daily bath was advisable Not since the Roman Empire had people been so clean and standards became even more extreme as the millennium approached Now we live in a deodorized world where germophobes

shake hands with their elbows and where sales of hand sanitizers wipes and sprays are skyrocketing The apparently routine task of taking up soap and water or not is Katherine Ashenburg s starting point for a unique exploration of Western culture which yields surprising insights into our notions of privacy health individuality religion and sexuality Ashenburg searches for clean and dirty in plague ridden streets medieval steam baths castles and tenements and in bathrooms of every description She reveals the bizarre rescriptions of history s doctors as well as the hygienic peccadilloes of kings mistresses monks and ordinary citizens and guides us through the twists and turns to our own understanding of clean which is no more rational than the rest Filled with amusing anecdotes and quotations from the great bathers of history *The Dirt on Clean* takes us on a journey that is by turns intriguing humorous startling and not always for the squeamish Ashenburg s tour of history s baths and bathrooms reveals much about our changing and most intimate selves what we desire what we ignore what we fear and a significant part of who we are

Circumcision as a Malleable Symbol Nina E. Livesey, 2010 Revised thesis Ph D Southern Methodist University 2007

Paul in the Greco-Roman World: A Handbook J. Paul Sampley, 2016-10-06 This landmark handbook written by distinguished Pauline scholars and first published in 2003 remains the first and only work to offer lucid and insightful examinations of Paul and his world in such depth Together the two volumes that constitute the handbook in its much revised form provide a comprehensive reference resource for new testament scholars looking to understand the classical world in which Paul lived and work Each chapter provides an overview of a particular social convention literary or rhetorical topos social practice or cultural mores of the world in which Paul and his audiences were at home In addition the sections use carefully chosen examples to demonstrate how particular features of Greco Roman culture shed light on Paul s letters and on his readers possible perception of them For the new edition all the contributions have been fully revised to take into account the last ten years of methodological change and the helpful chapter bibliographies fully updated Wholly new chapters cover such issues as Paul and Memory Paul s Economics honor and shame in Paul s writings and the Greek novel

Whatever Happened to Tradition? Tim Stanley, 2021-10-14 The West feels lost Brexit Trump the coronavirus we hurtle from one crisis to another lacking definition terrified that our best days are behind us The central argument of this book is that we can only face the future with hope if we have a proper sense of tradition political social and religious We ignore our past at our peril The problem argues Tim Stanley is that the Western tradition is anti tradition that we have a habit of discarding old ways and old knowledge leaving us uncertain how to act or even of who we really are In this wide ranging book we see how tradition can be both beautiful and useful from the deserts of Australia to the court of nineteenth century Japan Some of the concepts defended here are highly controversial in the modern West authority nostalgia rejection of self and the hunt for spiritual transcendence We ll even meet a tribe who dress up their dead relatives and invite them to tea Stanley illustrates how apparently eccentric yet universal principles can nurture the individual from birth to death plugging them into the wider community and creating a bond between generations He also demonstrates that

tradition far from being pretentious or rigid survives through clever adaptation that it can be surprisingly egalitarian The good news he argues is that it can also be rebuilt It s been done before The process is fraught with danger but the ultimate prize of rediscovering tradition is self knowledge and freedom *The New Encyclopedia of Unbelief* Tom Flynn,2007-04-30

Successor to the highly acclaimed Encyclopedia of Unbelief 1985 edited by the late Gordon Stein the New Encyclopedia of Unbelief is a comprehensive reference work on the history beliefs and thinking of America s fastest growing minority those who live without religion All new articles by the field s foremost scholars describe and explain every aspect of atheism agnosticism secular humanism secularism and religious skepticism Topics include morality without religion unbelief in the historicity of Jesus critiques of intelligent design theory unbelief and sexual values and summaries of the state of unbelief around the world In addition to covering developments since the publication of the original edition the New Encyclopedia of Unbelief includes a larger number of biographical entries and much expanded coverage of the linkages between unbelief and social reform movements of the 19th and 20th centuries including the labor movement woman suffrage anarchism sex radicalism and second wave feminism More than 130 respected scholars and activists worldwide served on the editorial board and over 100 authoritative contributors have written in excess of 500 entries The distinguished advisors and contributors philosophers scientists scholars and Nobel Prize laureates include Joe Barnhart David Berman Sir Hermann Bondi Vern L Bullough Daniel Dennett Taner Edis the late Paul Edwards Antony Flew Annie Laurie Gaylor Peter Hare Van Harvey R Joseph Hoffmann Susan Jacoby Paul Kurtz Gerd L demann Michael Martin Kai Nielsen Robert M Price Peter Singer Victor Stenger Ibn Warraq George A Wells David Tribe Sherwin Wine and many others With a foreword by evolutionary biologist and best selling author Richard Dawkins this unparalleled reference work provides comprehensive knowledge about unbelief in its many varieties and manifestations *Religiosity in East and West* Sarah Demmrich,Ulrich Riegel,2020-11-06

The book discusses the theoretical and methodological challenges of an interculturally valid sociology of religion and provides insights into the autochthonous socio religious research in Muslim societies and Asian countries In this way it links discourses that have so far taken place primarily independently of one another The book goes back to a conference in M nster that questioned the Western foundation of empirical religiosity research which reaches its limits in the non American and non European context but also with regard to orthodox forms of faith in the Western context *The Oxford Encyclopedia of the Modern World* Peter N. Stearns,2008 The Encyclopedia of the Modern World delves into the period from 1750 to the present providing special attention to social economic cultural and political topics applicable to the time The breadth of knowledge offered within this multivolume set is astounding with features spanning articles on countries regions and ethnic groups themes involving social history demography family life politics economics religion thought education science and technology and culture events such as major wars and extensive coverage of the United States Detailed articles cover not only the major facts but the interpretations as well and are written for readers who are not specialists in the

particular area Enriched with over 800 halftones and 50 maps this reference work is essential for any scholar general reader collector or curator interested in this rich and varied time in history Through its fluent global coverage The Encyclopedia of Modern World provides information about and interpretation of major developments across particular regions both salient events and regional perspectives on common themes such as politics demography social class and gender Readers can explore topics that have global implications such as migration childhood and foods topics that can be viewed through a combination of global patterns and key comparisons Entries also shed light on standard geographic and ethnic units such as Scandinavia Korea or the Gypsies in the modern period The Encyclopedia presents unprecedented coverage of global processes and institutions themselves including the International Red Cross and the League of Nations Publisher **The New Modernist Studies** Douglas Mao, 2021-02-04 This is the first book specifically devoted to the new modernist studies Bringing together a range of perspectives on the past present and future of this vibrant complicated scholarly enterprise the collection reconsiders its achievements and challenges as both a mode of inquiry and an institutional formation In its first section the volume offers a fresh history of the new modernist studies origins amid the intellectual configurations of the end of the twentieth century and changing views of the value influence and scope of modernism In the second section a dozen leading scholars examine recent trends in modernist scholarship to suggest possible new paths of research showing how the field continues to engage with other areas of study and how it makes a case for the ongoing meaning of modernist literature and art in the contemporary world Israel and the Nations František Ábel, 2021-04-13 Israel and the Nations Paul's Gospel in the Context of Jewish Expectation provides various perspectives of leading contemporary scholars concerning Paul's message particularly his expressed expectation of the end time redemption of Israel and its relation to the Gentiles the non Jewish nations in the context of Jewish eschatological expectation The contributors engage the increasingly contentious enigmas relating to Paul's Jewishness had his perception of living in a new era in Christ and anticipating an imminent final consummation moved him beyond the bounds of what his contemporaries would have considered Judaism or did Paul continue to think and act within Judaism **The Oxford Encyclopedia of African Thought** Abiola Irele, 2010 From St Augustine and early Ethiopian philosophers to the anti colonialist movements of Pan Africanism and Negritude this encyclopedia offers a comprehensive view of African thought covering the intellectual tradition both on the continent in its entirety and throughout the African Diaspora in the Americas and in Europe The term African thought has been interpreted in the broadest sense to embrace all those forms of discourse philosophy political thought religion literature important social movements that contribute to the formulation of a distinctive vision of the world determined by or derived from the African experience The Encyclopedia is a large scale work of 350 entries covering major topics involved in the development of African Thought including historical figures and important social movements producing a collection that is an essential resource for teaching an invaluable companion to independent research and a solid guide for further study
