Ecumenism, Christian Origins and the Practice of Communion Nicholas Sagovsky, 2000-05-04 The theology of communion or Koinonia has been at the centre of the ecumenical movement for more than thirty years It is central to the self understanding of the Anglican Roman Catholic and Orthodox Churches and has been prominent in the work of the World Council of Churches This book based on the 1996 Hulsean Lectures examines the significance of Koinonia

for contemporary ecumenical theology tracing the development of contemporary understanding in critical engagement with the thoughts of Plato Aristotle the Hebrew Scriptures the New Testament the Cappadocian Fathers and Augustine In each case reflection on community life is related to actual communities in which texts were produced The importance of conflict and the place of politics for the Koinonia that constitutes the Christian churches is a major theme throughout Communion is seen as a gift to be received and a discipline to be cultivated in the continuing practice of ecumenism

Laity and Participation Thomas Hoebel, 2006 Right across denominational boundaries lay theology is dominated by negatives the laity simply defined as the non ordained the alleged exclusion of the laity from full participation the sole focus on what they cannot or should not do and above all the total absence of an ecumenical lay theology In a unique approach this volume sets out to find ways of overcoming these negatives so predominant in current lay theology The author explores positions and perspectives put forward in Roman Catholic theology from Vatican II up to the present These are compared and contrasted with concepts and suggestions of present day Anglican Theology as well as with those of liberative theologies in Latin America and Asia Rethinking the content language and metaphors of lay theology in the final part of this volume the author proposes a new image for discussing the Church a model focusing on the interdependence and collaboration of all the people in the Church This is then used to sketch out the framework for a new type of lay theology Imbedded in ecclesiology in the concept of all believers together being the Church the author endeavours to suggest a lay theology that is indeed positive ecumenical and universal

The Church as Paradise and the Way Therein: Early Christian Appropriation of Genesis 3:22-24 Christopher A. Graham, 2017-04-24 In *The Church as Paradise and the Way Therein* Early Christian Appropriation of Genesis 3 22 24 Christopher A Graham demonstrates that early Christian authors employed the words paradise and way as allusions to the expulsion narrative Genesis 3 22 24 to signify that the benefits available in protological Paradise were once again accessible in and through Jesus and the Church The centrality of the expulsion narrative in their literary milieu gave these authors confidence that readers would discern these allusions After considering the reception of the expulsion in texts circulating within the early Christian milieu Graham turns to the texts of Luke and Irenaeus of Lyons Both authors drew from an interpretive tradition in which a return to Paradise was desirable Both celebrated Jesus s reversal of Adam s expulsion and the constitution of Jesus s followers as the location and means by which humanity could continue to access divine truth and life For both authors the Church is Paradise and the way therein

The Afterlife in Early Christian Carthage Stephen E. Potthoff, 2016-12-01 The Afterlife in Early Christian Carthage explores how the visionary experiences of early Christian martyrs shaped and informed early Christian ancestor cult and the construction of the cemetery as paradise Taking the early Christian cemeteries in Carthage as a case study the volume broadens our understanding of the historical and cultural origins of the early Christian cult of the saints and highlights the often divergent views about the dead and post mortem realms expressed by the church fathers and in graveside ritual and the material culture of the cemetery This fascinating study is a key resource for students of late antique and early Christian culture
