## **Market Control And Planning In Communist China:**

Market Control and Planning in Communist China Dwight Heald Perkins, 1966 Author is an alumnus of Evanston Township High School class of 1952      Market Control and Planning in Communist China Dwight H. Perkins, 1968

**Market Control And Planning in Communist China** Dwight H. Perkins, 1968      **The Market Mechanism and Economic Reforms in China** William Byrd, 2019-07-04 This theoretical and empirical study of market oriented reforms in Chinese industry since the late 1970s focuses on the expansion of the market mechanism in the allocation of industrial products and the concurrent decline of directive planning a strategy that is a crucial component of the ambitious overall reform package that Chinese reformers are trying to implement The expanding role of Chinese industrial goods has had major implications for the functioning and importance of planning which the author argues has become largely irrelevant in terms of direct control over short term allocation      **An Economic Profile of Mainland China** United States. Congress. Joint Economic Committee, 1967      **International Trade and Central Planning** Alan A. Brown, Egon Neuberger, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968      *Area Handbook for the People's Republic of China* Donald P. Whitaker, Rinn-Sup Shinn, In-söp Sin, American University (Washington, D.C.). Foreign Area Studies, 1972      **Historical Dictionary of the People's Republic of China** Lawrence R. Sullivan, 2007-05-23 When the Chinese Communist Party CCP seized power in October 1949 China was one of the poorest nations in the world In fact it was so weak it had been conquered by Japan a country one tenth its size a decade earlier Now more than fifty years later the People's Republic of China PRC is an emerging economic political and military superpower with the world's fastest growing economy and largest population 1.3 billion in 2005 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community The second edition of the Historical Dictionary of the People's Republic of China contains more than 400 cross referenced dictionary entries on individual topics spanning China's political economic and social system along with short biographies on important figures from politicians to writers and movie directors who have shaped Chinese history during the period of Communist rule from 1949 to 2006 Supplementing the entries are a chronology an introduction charts outlining the structure of the Chinese government and a bibliography of works in English making this a superb resource for college and high school students needing a quick reference on contemporary China      East Asia United States. Agency for International Development. Statistics and Reports Division, 1967      *In China's Image* R. Hodder, 2000-08-09 This book questions our perceptions of China It is argued that what is commonly understood to be China is in large part a collage of images These images created and manipulated by individuals and groups within the boundaries of

the Chinese state in order to pursue their own social economic and political ambitions have been accepted elaborated upon strengthened and made legitimate by European and American social scientists and by other professional commentators on China If shaped or strongly conditioned by these images policies towards China are likely to prove either inappropriate or dangerous

**Reival: China's Finance and Trade: A Policy Reader (1978)** Gordon A. Bennett, 2017-09-29 This title was first published in 1978 For students of politics the documents in this collection offer an opportunity to analyze a broad policy area finance and commerce in search of specific mechanisms by which dictatorship and popular will are both given expression in political life

**Chinese Business Under Socialism** Dorothy J. Solinger, 1987

**Economic Growth and Distribution in China** Nicholas R. Lardy, 1978-08-31 This study focuses on the China's leadership's attempt to improve economic efficiency by decentralizing economic management

**Agricultural Instability in China, 1931-1990** Y. Y. Kueh, 1995-05-18 China is particularly dependent upon her agricultural surplus for financing her ambitious industrialization programme but the performance of the agricultural sector of the economy has been extremely unstable throughout the twentieth century Professor Kueh provides a scholarly and authoritative account of this vital part of the Chinese economy during the period 1931-1990 based upon detailed statistical data and other sources of material Professor Kueh has achieved a unique analysis of the interrelationships between natural economic and institutional factors which lie at the heart of China's agricultural performance He describes policy changes technological advances and natural factors such as climactic conditions and distinguishes the effect of each factor in the varying level of agricultural production The strength of this book lies not only in its collection and analysis of data but in the innovative methodological process used including the construction of a weather index which will be invaluable not only for Chinese studies scholars but also for those wishing to undertake similar work for other countries

Under New Ownership Shahid Yusuf, Kaoru Nabeshima, Dwight Heald Perkins, 2006 Although China's centrally planned economy is a little more than a shadow of its former self the closely interlinked reforms of the enterprise and banking sectors are still incomplete The relative size of the state owned enterprise sector has been much reduced however the sector remains the dominant borrower from the banking system and is responsible for the majority of bank non performing assets Thus in the interests of financial stability it is crucial to implement the remaining reform agenda The accession to the WTO has also made it more urgent for China's most dynamic state owned

**China's Development Experience in Comparative Perspective** Joint Committee on Contemporary China. Subcommittee on Research on the Chinese Economy, 1980 Monographic collection of essays on comparison of economic development trends and economic policy in China and experiences in other developing countries covers economic growth employment public debt income distribution regional development choice of technology health services etc Diagrams map and references

**China's New Industrialization Strategy** Y. Y. Kueh, 2008-01-01 The book is a scholarly attempt to place the post Mao reforms in China in the context of developments in the Soviet Union and the Eastern European countries The

essays written in different periods have mostly been thoroughly rewritten extended updated and refocused in the light of recent developments and demonstrate conclusively that Dengist reforms were not a clean break from the past as many ideologically blinkered Western Sinologists readily assume the reforms succeeded mainly because the post Mao regime had inherited a solid economic and political edifice created during the Mao era Radha Sinha Glasgow University UK Professor Kueh is one of the most original and prolific scholars in the field of communist Chinese studies In this collection we can read fully updated versions of many of his most important contributions to our understanding of the Chinese economy in both its domestic and foreign dimensions Most of these articles are now hard to get hold of and this new volume is therefore a most welcome addition to the literature Christopher Howe University of Sheffield UK Y Y Kueh in this stimulating collection of essays written over a career studying China s economy spanning more than three decades argues the proposition that there were important elements of continuity in the transition of economic thinking from Mao Zedong to Deng Xiaoping The argument is controversial but scholars and students alike will gain insight into the economic development strategies of China from reading these carefully reasoned studies They will challenge many of the common assumptions about the nature of China s transition from central planning to the market Dwight H Perkins Harvard University US Deng Xiaoping s economic strategy is widely regarded as a complete anathema to Mao s but this study strongly argues that without the material foundations laid by Mao it would have been very difficult for Deng to launch his reform and open door policy Deng basically shared Mao s aspirations and approach in pursuit of China s industrialization and this had in fact helped to condition him to the successful gradualist methodology Deng lost patience at times and resorted to the big bang strategy only to fail miserably Taken together the book tells a new story about the economics of China s transition This is a highly thought provoking study blending institutional and convincing statistical analysis It will appeal to scholars and academics interested in the background and process of China emerging as an economic giant and especially to students of economics politics international business and globalization studies who aspire to an alternative non Left re interpretation of Mao s legacy

**The Entrepreneurial State in China** Jane Duckett,2006-10-19 Jane Duckett describes in detail new state business activities in China and explains why they have appeared Using research on the northern city of Tianjin during the 1990s she argues that individual departments within the Chinese state are involved in the market economy through the establishment of their own businesses The book demonstrates that many of these businesses are genuinely entrepreneurial in the sense of profit seeking risk taking and productive rather than rent seeking speculative or profiteering This entrepreneurialism is an important new dimension of state activity in China with implications for our understanding of the Chinese state This book develops an alternative to the local government state model and emphasises instead the State s dynamic entrepreneurial role in the process of economic reform

**China's Economic Development** Chu-yuan Cheng,2019-03-13 How has the government of the PRC transformed traditional economic institutions into a socialist central planning system What has been

the impact of this transformation on China's economic growth What is the essence of the Chinese development model and how successfully has it functioned during the past three decades What are the prospects for t **China, a Country Study**
