Mediterranean: Portrait of a Sea Ernle Dusgate Selby Bradford,1971 Overview of the historical events that took place in the Mediterranean Sea Mediterranean Ernle Bradford,1989 Mediterranean Ernle Dusgate Selby Bradford,1971

Mediterranean Ernle Bradford,1971 *The Mediterranean* Ernle Dusgate Selby Bradford,1971 *The Sea and Medieval English Literature* Sebastian I. Sobecki,2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle hagiography to autobiography As the first cultural history of the sea in medieval English literature this book traces premodern myths of insularity from their Old English beginnings to Shakespeare's *Tempest* Beginning with a discussion of biblical classical and pre Conquest treatments of the sea it investigates how such works as the Anglo Norman Voyage of St Brendan the Tristan romances the chronicles of Matthew Paris King Horn *Patience* The Book of Margery Kempe and The Libelle of Englyshe Polycye shape insular ideologies of Englishness Whether it is Britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval English writers' myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define England geographically and culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings A Cultural History of the Sea in the Early Modern Age Steve Mentz,2023-02-09 For the first time during the Early Modern period ships regularly traveled between and among all of basins that comprise the World Ocean During this period European mariners ventured into new waters where they encountered new trading partners new environments and new opportunities In the Caribbean and Atlantic coast of the Americas European mariners sought everything from pearls to gold to codfish and in pursuing these resources they fractured Indigenous communities Entering into the ancient monsoon routes of the Indian Ocean brought European ships in touch with the powerful states and maritime cultures of East Africa and Asia Converging on the vast Pacific basin both from the Americas and from Asia brought these mariners into contact with ancient cultures dangerous passages and newly global trade routes During this period of globalization and cultural encounters the ocean provided a means of transportation a site of environmental hostility and a poetic metaphor for both connection and alienation In material and cultural ways the global sea routes traveled during this period laid down structures of global exchange and conflict that the world still follows today Empires of the Sea Roger Crowley,2009-05-12 In 1521 Suleiman the Magnificent Muslim ruler of the Ottoman Empire dispatched an invasion fleet to the Christian island of Rhodes This would prove to be the opening shot in an epic clash between rival empires and faiths for control of the Mediterranean and the center of the world In *Empires of the Sea* acclaimed historian Roger Crowley has written a thrilling account of this brutal decades long battle between Christendom and Islam for the soul of Europe a fast paced tale of spiraling intensity that ranges from Istanbul to the Gates of Gibraltar Crowley conjures up a wild cast of pirates

crusaders and religious warriors struggling for supremacy and survival in a tale of slavery and galley warfare desperate bravery and utter brutality Empires of the Sea is a story of extraordinary color and incident and provides a crucial context for our own clash of civilizations Islands and Military Orders, c.1291-c.1798 Emanuel Buttigieg, Simon Phillips, 2016-05-06 At the heart of this volume is a concern with exploring levels of interaction between two particular objects of study islands on the one hand and military orders on the other According to Fernand Braudel islands are often brutally caught between the two opposite poles of archaism and innovation What happened when these particular environments interacted with the Military Orders The various contributions in this volume address this question from a variety of angles 1291 was a significant year for the main military orders uprooted from their foundations in the Holy Land they took refuge on Cyprus and in the following years found themselves vulnerable to those who questioned the validity of their continued existence The Teutonic Order negated this by successfully transferring their headquarters to Prussia the Knights Templar however faced suppression Meanwhile the Knights Hospitaller conquest of Rhodes assured both their survival and independence Islands are often by definition seen to be embodiments of insularity of an effort to be separate distinct cut off Military Orders are conversely international in scope nature and personnel the first international orders of the Church as they have often been described Therein lies the crux of the matter how did insular outposts and international institutions come together to forge distinct and often successful experiments Hospitaller Rhodes and Malta still impress with their magnificent architectural heritage but their success went beyond stone and mortar and the story of islands and military orders as will be clearly shown in this volume also goes beyond these two small islands The interaction between the two levels insulation and internationalisation and the interstices therein created spaces conducive to both dynamism and stability as military orders and islands adapted to each other's demands limitations and opportunities A Companion to the Classical Greek World Konrad H. Kinzl, 2010-01-11 This Companion provides scholarly yet accessible new interpretations of Greek history of the Classical period from the aftermath of the Persian Wars in 478 B C to the death of Alexander the Great in 323 B C Topics covered range from the political and institutional structures of Greek society to literature art economics society warfare geography and the environment Discusses the problems of interpreting the various sources for the period Guides the reader towards a broadly based understanding of the history of the Classical Age The Blue Frontier Ronald C. Po, 2018-08-23 In this revisionist history of the eighteenth century Qing Empire from a maritime perspective Ronald C Po argues that it is reductive to view China over this period exclusively as a continental power with little interest in the sea With a coastline of almost 14 500 kilometers the Qing was not a landlocked state Although it came to be known as an inward looking empire Po suggests that the Qing was integrated into the maritime world through its naval development and customs institutionalization In contrast to our orthodox perception the Manchu court in fact deliberately engaged with the ocean politically militarily and even conceptually The Blue Frontier offers a much broader picture of the Qing as an Asian giant

responding flexibly to challenges and extensive interaction on all frontiers both land and sea in the long eighteenth century

Infidel Kings and Unholy Warriors Brian A. Catlos, 2024-07-02 This compelling account of the Crusades era debunks the clash of civilizations paradigm and depicts an era of interfaith cooperation The New Yorker In Infidel Kings and Unholy Warriors the award winning scholar Brian Catlos transports readers to the Mediterranean world of 1050 1200 the era when enlightened Islamic empires and primitive Christendom began to contest it Catlos meticulously reconstructs this world from siege tactics to poetry and theology In doing so he stunningly overturns a fundamental myth that it was an era defined by religious extremism Catlos brings to light many figures who were accepted as rulers by their ostensible foes Samuel B Naghrilla a self proclaimed Jewish messiah became the force behind Muslim Granada Bahram Pahlavuni an Armenian Christian wielded power in an Islamic caliphate And Philip of Mahdia a Muslim eunuch rose to admiral in the service of Roger II the Christian King of Africa What their lives reveal is that then as now politics were driven by a mix of self interest personality and ideology Catlos draws a similar lesson from his stirring chapters on the early Crusades arguing that the notions of crusade and jihad were not the causes of war but convenient justifications

driven medicine it is crucial to re establish and promote the neglected relationship between medicine and the arts This textbook contains contributions by scholars in various fields who offer their qualified insights in order to reflect on illness medicine and the role of physicians and nurses All chapters overcome a reductive conception of a medicine that is only able to biologically explain illness All three editors of this book are researchers in Padua a city that has been described as the cradle of modern medicine Galileo Galilei taught for eighteen years at the University of Padua and developed the scientific method there During the same period Padua was also the nursery of arts as Shakespeare wrote In fact Padua developed especially in the XIV XV and XVI centuries an impressive and unique artistic culture thanks to artists such as Giotto Donatello and Titian Finally the city of Saint Anthony is a place where a religious feeling strongly oriented towards charity is deeply rooted and strictly linking its history to that of its hospital This textbook is a unique resource for students of medicine nursing bioethics psychology theology and history of art
