Grammont Volume 03 By Anthony Hamilton HIS ARRIVAL AT THE ENGLISH COURT THE VARIOUS PERSONAGES OF THIS COURT Curiosity to see a man equally famous for his crimes and his elevation had once before induced the Chevalier de Grammont to visit England Reasons of state assume great privileges Whatever appears advantageous is lawful and every thing that is necessary is honourable in politics While the King of England sought the protection of Spain in the Low Countries and that of the States General in Holland other powers sent splendid embassies to Cromwell This man whose ambition had opened him a way to sovereign power by the greatest crimes maintained himself in it by accomplishments which seemed to render him worthy of it by their lustre The nation of all Europe the least submissive patiently bore a yoke which did not even leave her the shadow of that liberty of which she is so jealous and Cromwell master of the Commonwealth under the title of Protector feared at home but yet more dreaded abroad was at his highest pitch of glory when he was seen by the Chevalier de Grammont but the Chevalier did not see any appearance of a court One part of the nobility proscribed the other removed from employments an affectation of purity of manners instead of the luxury which the pomp of courts displays all taken together presented nothing but sad and serious objects in the finest city in the world and therefore the Chevalier acquired nothing by this voyage but the idea of some merit in a profligate man and the admiration of some concealed beauties he had found means to discover Affairs wore quite a different appearance at his second voyage The joy for the restoration of the royal family still appeared in all parts The nation fond of change and novelty tasted the pleasure of a natural government and seemed to breathe again after a long oppression In short the same people who by a solemn abjuration had excluded even the posterity of their lawful sovereign exhausted themselves in festivals and rejoicings for his return The Chevalier de Grammont arrived about two years after the restoration The reception he met with in this court soon made him forget the other and the engagements he in the end contracted in England lessened the regret he had in leaving France This was a desirable retreat for an exile of his disposition Everything flattered his taste and if the adventures he had in this country were not the most considerable they were at least the most agreeable of his life But before we relate them it will not be improper to give some account of the English court as it was at that period We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience
