Barton, 2002-11-01 The nation states and peoples of South and Central America Cuba Haiti and the Dominican Republic that together form the political geographical region of Latin America encompass a wide range of societies politics and economies This text exposes the differences between places regions and countries individuals and societies offering an invaluable insight into the themes of political and economic development and provides a guide to understanding power and space relations From the Antarctic to the tropical jungles the coastal communities to the highland villages the mega cities to isolated rural existence the political geographies of lives localities cities and rurality are too sophisticated to be subjected to generalizations Adopting a critical human geography perspective Jonathon Barton provides an understanding of similarities difference and sophisticated human geographies Latecomer State Formation Sebastián Mazzuca, 2021-05-11 A major contribution to the field of comparative state formation and the scholarship on long term political development of Latin America Ambitious and rich A sweeping and general theory of state formation and detailed historical reconstruction of essential events in Latin American political development It combines structural elements with a novel emphasis on the political incentives and bargaining that shaped the map we have today Hillel David Soifer Governance Latin American governments systematically fail to provide the key public goods for their societies to prosper Sebastián Mazzuca argues that the secret of Latin America's failure is that its states were born weak in contrast to states in western Europe North America and Japan State formation in post Independence Latin America occurred in a period when capitalism rather than war was the key driver forging countries In pursuing the short term benefits of international trade Latin American leaders created states with chronic weaknesses notably patrimonial administrations and dysfunctional regional combinations Mazzuca analyzes pathways leading to variations in country size and level of pacification port led state formation in Argentina and Brazil party led in Mexico Colombia and Uruguay and lord led in Central America Venezuela and Peru *Checkerboards and Shatterbelts* Philip Kelly, 2010-07-22 Geography has always played a major role in world politics In this study Philip Kelly maps the geopolitics of South America a continent where relative isolation from the power centers in North America and Eurasia and often forbidding internal terrain have given rise to a fascinating and unique geopolitical

structure Kelly uses the geographical concepts of checkerboards and shatterbelts to characterize much of South America's geopolitics and to explain why the continent has never been unified nor dominated by a single nation. This approach accounts for both historical relationships among South American countries and for such current situations as Brazil's inability to extend its authority across the continent from Atlantic to Pacific, its traditional competition with Argentina, its territorial expansion toward the continental heartlands, its encirclement by neighbors fearful of such expansion, and its recent rapprochement with Argentina. An important component of this book is the incorporation of the thinking and writing of South American geopolitical analysts, which leads to an interesting inventory of viewpoints on frontier conflicts, territorial expansion, industrial development, economic cooperation, and United States and European relations. Kelly's findings will be important reading for geographers, political scientists, and students and scholars of Latin American history.
