between 1900 BCE to 650 CE Assyria has unique historical significance in the scheme of Mesopotamian mythology. Some of the most indicative archeological evidence of the beliefs of Mesopotamian mythology comes from the ancient Assyrian territories. From the tablets and other forms of writing and art found in this region, scholars have established that Assyrian beliefs were laced with tales about powerful gods, goddesses, demigods, heroes, and mythical beings whose actions helped explain events that contradicted mundane reasoning and ideas. Given that the origins of Assyrian mythology can be traced back to the Near East, it is not surprising that the beliefs of this civilization also influenced the ancient Egyptian, Abrahamic, and Greek mythologies and traditions. And while the religion was almost suppressed by 500 CE, devotees who became Assyrian Christians carried on some of their old habits. Because of this, the Assyrian beliefs can still influence the modern world, particularly some neo-pagan religions born in the early 20th century.

*Personal Religion in Ancient Mesopotamia as Shown in Akkadian Texts* Maurice N. L. Couve de Murville, 1975

**Ancient Mesopotamian Religion** Ivan Hruša, 2015

The aim of this publication is to provide an overview of the religious world and practice of the inhabitants of ancient Mesopotamia as it is transmitted to us by the archaeological and primarily written Mesopotamian sources. It is not in the first place a question of reconstructing the history of Mesopotamian religion nor an analysis of theoretical concepts. Rather, the book provides a practical description based on ancient sources and illustrated continuously with passages from Mesopotamian text.

**Mountains and Trees, Rivers and Springs** Anna Perdibon, 2019

The animated picture of myths and magic, prayers and offerings in ancient Mesopotamian Religion is a reflection of a world where gods and humans were part of a much more complex and multi-layered system where every single part was closely connected with each other in a dense network of symbolic and ritual meanings. Mountains, rivers, trees, and plants were regarded as cosmic entities deeply entangled with the sacred landscape as other than human persons and sometimes as deities who engaged in a multitude of ways with the life of ancient Mesopotamians and partook of their divine and relational cosmos.

Anna Perdibon explores the modalities of the human environmental relationships by studying how mountains, rivers, and trees were embedded within the ancient Mesopotamian religious framework. The analysis is based on reading the ancient myths, rituals, incantations, and other textual evidence dealing with religious life together with iconographical sources through the lens of the current debate about animism and anthropology of religions in order to investigate and further explain the connection between nature, the sacred, and the materiality of an ancient religion. The book suggests different understandings of divinity, personhood, and nature on the part

of ancient Mesopotamians and sheds new light onto their emic worldviews regarding nature the cosmos and the divine These notions are considered in order to draw a picture of the sacred landscape of the ancient Mesopotamians while highlighting the actual fluidity and sensuous reality of those ancient polytheisms
