Sociology of Education James Ainsworth, 2013-04-11 The sociology of education is a rich interdisciplinary field that studies schools as their own social world as well as their place within the larger society The field draws contributions from education sociology human development family studies economics politics and public policy Sociology of Education An A to Z Guide introduces students to the social constructions of our educational systems and their many players including students and their peers teachers parents the broader community politicians and policy makers The roles of schools the social processes governing schooling and impacts on society are all critically explored Despite an abundance of textbooks and specialized monographs there are few up to date reference works in this area Features Benefits 335 signed entries fill 2 volumes in print and electronic formats providing the most comprehensive reference resource available on this topic Cross References and Suggestions for Further Reading guide readers to additional resources A thematic Reader's Guide groups related articles by broad topic areas as one handy search feature on the e Reference platform which also includes a

comprehensive index of search terms facilitating ease of use by both on campus students and distance learners A Chronology provides students with historical perspective on the sociology of education *Library Media Connection* ,2001 *World Christian Encyclopedia* David B. Barrett,2001 Critical Perspectives on Afro-Latin American Literature Antonio D. Tillis,2012-04-23 After generations of being rendered virtually invisible by the US academy in critical anthologies and literary histories writing by Latin Americans of African ancestry has become represented by a booming corpus of intellectual and critical investigation This volume aims to provide an introduction to the literary worlds and perceptions of national culture and identity of authors from Spanish America Brazil and uniquely Equatorial Guinea thus contextually connecting Africa to the history of Spanish colonization The importance of Latin America literature to the discipline of African Diaspora studies is immeasurable and this edited collection provides a ripe cultural context for critical comparative analysis among the vast geographies that encompass African and African Diaspora studies Scholars in the area of African Diaspora Studies Black Studies Latin American Studies and American literature will be able to utilize the eleven essays in this edition to enhance classroom instruction and further academic research *The to Z of New Religious Movements* George D. Chryssides,2006-04-17 Alongside the older and more established religions there are hundreds indeed thousands more which have recently emerged These new religious movements or NRMs for lack of a better name are not only numerous they are also extremely varied and stem from a wide array of sources They run the gamut from small to large and all possess a tendency to constantly expand And while their potential for good is considerable more often than not it is their abuses that are noticed Still writing them off as sects is too easy especially when they are as poorly understood as they often are The A to Z of New Religious Movements is a major contribution to understanding these new and formative religions While leaving any evaluation to the reader it offers brief descriptions of well over a hundred NRMs in the dictionary section along with information on the founders and leaders and also their roots in Christianity Buddhism Hinduism Islam and other more traditional religions The impact of modern philosophy and science are also weighed Since their roots often lay further back the chronology starts in the 18th century and continues to the present and the introduction attempts the arduous task of defining and categorizing the NRMs The extensive bibliography provides further reading **Reference Books Bulletin** ,1997 **Books and Bookmen** ,1974 **Walford's Guide to Reference Material** Albert John Walford,Marilyn Mullan,Priscilla Schlicke,1994 Volume 2 of this guide contains descriptions of 8300 plus critically evaluated recommended reference resources available in all formats Organized by Universal Dewey Classification the topics covered are those usually found in the 100s Philosophy Psychology 200s Religion 300s Social Sciences the 900s Geography Biography History This volume particularly reflects the proliferation of travel tourist guides reference works on Eastern Europe Central Asia following the collapse of communism Over the last few years an enormous expansion has also been noted of reference works in both religion philosophy Volume 1 covers Science Technology Volume 3 covers Generalia Languages Literature the Arts
