Wendt,2016-08-18 In his sixth satire Juvenal speculates about how Roman wives busy themselves while their husbands are away namely by entertaining a revolving door of exotic visitors who include a eunuch of the eastern goddess Bellona an impersonator of Egyptian Anubis a Judean priestess and Chaldean astrologers From these self proclaimed religious specialists women solicit services ranging from dream interpretation to the coercion of lovers Juvenal s catalogue suggests the popularity of such freelance experts at the turn of the second century and their familiarity to his audience whom he could expect to get the joke Heidi Wendt investigates the backdrop of this enthusiasm for the religion of freelance experts by examining their rise during the first two centuries of the Roman Empire Unlike civic priests and temple personnel freelance experts had to generate their own authority and legitimacy often through demonstrations of skill and learning in the streets in marketplaces and at the temple gates among other locations in the Roman world Wendt argues that these professionals participated in a highly competitive form of religious activity that intersected with multiple areas of specialty particularly philosophy and medicine Over the course of the imperial period freelance experts grew increasingly influential more diverse with respect to their skills and methods and more assorted in the ethnic coding of their practices Wendt argues that this context engendered many of the innovative forms of religion that flourished in the second and third centuries including phenomena linked with Persian Mithras the Egyptian gods and the Judean Christ The evidence for freelance experts in religion is abundant but scholars of ancient Mediterranean religion have only recently begun to appreciate their impact on the empire s changing religious landscape At the Temple Gates integrates studies of Judaism Christianity mystery cults astrology magic and philosophy to paint a colorful portrait of religious expertise in early Rome **The Religion of the**

The Individual in the Religions of the Ancient Mediterranean Jörg Rüpke, 2013-08-29 Ancient religions are usually treated as collective and political phenomena and apart from a few towering figures the individual religious agent has fallen out of view Addressing this gap the essays in this volume focus on the individual and individuality in ancient Mediterranean religion Even in antiquity individual religious action was not determined by traditional norms handed down through families and the larger social context but rather options were open and choices were made On the part of the individual this development is reflected in changes in individuation the parallel process of a gradual full integration into society and the development of self reflection and of a notion of individual identity These processes are analysed within the Hellenistic and Imperial periods down to Christian dominated late antiquity in both pagan polytheistic as well as Jewish monotheistic settings The volume focuses on individuation in everyday religious practices in Phoenicia various Greek cities and Rome and as identified in institutional developments and philosophical reflections on the self as exemplified by the Stoic Seneca
