Religious Toleration And Persecution In Ancient Rome

S.P. Foster

Religious Toleration And Persecution In Ancient Rome:

Religious Toleration and Persecution in Ancient Rome Simeon Leonard Guterman, 1951 *Religious Toleration and Persecution in Ancient Rome* Simeon L. Guterman, 1971 **Marginalized Religion and the Law in the Roman Empire** K. P. S. Janssen, 2024-11-14 The Roman Empire's approach to religion has traditionally been described in paradoxical terms. On the one hand, Rome has often been regarded as almost proverbially tolerant as well as highly flexible in its dealings with the diverse range of religious cults and practices within its territories. On the other hand, the Roman religious landscape was not without its limits, and there were certain groups who found themselves for one reason or another on the outside. The legal interactions between these groups and the Roman authorities have largely been studied in isolation. In *Marginalized Religion and the Law in the Roman Empire*, K. P. S. Janssen instead takes a comparative approach and investigates how members of various marginalized religious groups were embedded in and interacted with the wider Roman legal system. The legal positions of private diviners, Jewish communities, and early Christians are compared and contrasted to provide a broader perspective on the legal treatment of marginalized religion in the Roman world. Janssen argues that the known interactions between these respective groups and the Roman authorities are best understood within the wider context of Roman law and administration, and that they furthermore shared a number of important characteristics. While the treatment these groups received was certainly not in all respects identical, the procedural socio-political and ideological mechanisms that underpinned the relevant legal measures were nonetheless conspicuously similar.

Pagan Rome and the Early Christians Stephen Benko, 1986-07-22 In the early Roman empire, Christians were seen by pagans as overthrowers of ancient gods and destroyers of the prevailing social order. Allegations that Christians recognized each other by secret marks, met at night, and made love to one another indiscriminately, worshipped the head of an ass, and the genitals of their high priests, and ate children, were widely believed. In examining these charges and the Christian response to them, Benko has provided a persuasively argued and refreshing if controversial perspective on the confrontation of the pagan and early Christian worlds.  *Martyrdom and Persecution in the Early Church* W. H. C. Frend, 2014-04-15 Although the story of the triumphant rise of Christianity has often been told as a triumph achieved through blood and tribulation, the literal meaning of the term martyr meant witness, but among early Christians it quickly acquired a harsher meaning: one who died for the faith, and that witness through death was responsible for many conversions, including those of Justin Martyr, who himself offered just such witness, and perhaps even Tertullian. Persecution was seen by early Christians as, by later historians, one of the crucial influences on the development of the early church and Christian belief. Why did the Roman Empire persecute Christians? Why did thousands of Christians not merely accept but welcome martyrdom? In his classic work *Martyrdom and Persecution in the Early Church*, the late W. H. C. Frend explores the mindset of Christians who suffered persecution as well as the motivations of those who persecuted them. He shows the critical importance of Jewish ideas to

early Christians heavily influenced as they were by the story of Daniel and the revolt of the Maccabean. He argues that the Christian concept of martyrdom held in such high regard among early Christians can only be understood as springing from Jewish roots. Frend explores a number of major persecutions to show both common themes and variations and examines also the relationship between the heavenly kingdom of Christ and the rule of the earthly emperor. In doing so he shows how persecution formed an essential part in a providential philosophy of history that has profoundly influenced European political thought.

Politics and Religion in Ancient and Medieval Europe and China Frederick Hok-ming Cheung, Ming-chiu Lai, 2021-11-01. Now distributed by Brill for The Chinese University Press. Seven diverse papers written by ancient and medieval historians are collected in this volume. These papers were presented at the academic conference Politics and Religion in Ancient and Medieval Europe and Asia organized by the Department of History and New Asia College of The Chinese University of Hong Kong in March 1996. Although the papers vary widely in the region and time span of coverage from ancient Egypt the early Roman Empire Norman England to medieval China they have in common their concern about the relationship between politics and different religions Christianity Buddhism Taoism and others in ancient and medieval Europe and Asia and the respective intellectual and cultural interactions. Professor Mu chou Poo in his paper explores the ancient Egyptian attitudes toward foreigners and foreign culture as an effort to understand Egyptian culture from a new perspective and as a preliminary attempt to probe into the issues concerning the nature of ancient ethnicity and cultural consciousness. Professor Yen zen Tsai's paper looks into the way the early Roman Empire treated mystery cults under its rule. Professor Ming chiu Lai discusses the impact of a Buddhist ritual on Chinese religious culture between the second and sixth centuries. Professor Chi tim Lai in his paper argues that some Taoist teachings advocated a new world order but they were not the real force that provoked the rebellions during the Eastern Jin Dynasty. Professor Puay peng Ho exhibits the political meanings of the imperial buildings in the Tang period and sheds light on the research about legitimacy in medieval China. Professor Warren Hollister's paper which is also the keynote speech points out that the high culture of twelfth century western Europe was largely the product of monastery. Finally Professor Frederick Hok ming Cheung examines the role of the Church in Anglo Norman politics. The book will furnish a basis for further investigation on politics and religion in the ancient and medieval world and inspire scholarly inquiries into the comparative dimensions of these important historical phenomena.

This volume is distributed by Brill for The Chinese University Press. Roots of Pagan Anti-Semitism in the Ancient World Sevenster, 2014-04-09. Discusses social economic and political aspects of antisemitism in the ancient Greco Roman world based extensively on the writings of Josephus Flavius and Philo. *Rome and her Empire* David Shotter, 2014-10-13. The name of Rome excites a picture of power and organisation as do the widely spread ruins that Roman civilization left behind. Yet Rome grew out of a collection of small villages and major developments such as the growth of Empire were unplanned and completely unprepared for. Influenced by a small number of self interested aristocrats who lacked a broader vision Rome

was often threatened by their intrigues Brought to the ground on a number of occasions its leaders were able to snatch victory from the jaws of defeat How did Rome survive for nearly 1000 years ruling over millions of people with few instances of internal rebellion David Shotter argues that the key was the way Rome managed to adapt to new circumstances without at the same time discarding too many of its cherished traditions **The Religions of the Roman Empire** John

Ferguson,1970 **Ancient Rome** Matthew Dillon, Lynda Garland, 2013-10-28 A companion volume to the highly successful and widely used *Ancient Greece* this Sourcebook is a valuable resource for students at all levels studying ancient Rome Lynda Garland and Matthew Dillon present an extensive range of material from the early Republic to the assassination of Julius Caesar Providing a comprehensive coverage of all important documents pertaining to the Roman Republic *Ancient Rome* includes source material on political developments in the Roman Republic 509 44 BC detailed chapters on social phenomena such as Roman religion slavery and freedmen women and the family and the public face of Rome clear precise translations of documents taken not only from historical sources but also from inscriptions laws and decrees epitaphs graffiti public speeches poetry private letters and drama concise up to date bibliographies and commentaries for each document and chapter a definitive collection of source material on the Roman Republic All students of ancient Rome and classical studies will find this textbook invaluable at all levels of study **Judeans in the Greek Cities of the Roman Empire** Bradley

Ritter, 2015-04-21 In the first century CE Philo of Alexandria and Josephus offer vivid descriptions of conflicts between Judeans and Greeks in Greek cities of the Roman Empire over various issues including the Judeans civic identity the extent of their obligations to local cities and cults and the potential security threat they posed to those cities This study analyzes the narratives of these conflicts investigating what citizenship status Judeans enjoyed their political influence and whether they enjoyed the right to establish institutions for observing their ancestral worship For these narratives to be understood properly it should be assumed that many Judeans were already citizens of their cities and that this status played a central role in those conflicts Ancient Rome Thomas R. Martin, 2012-01-01 With commanding skill Thomas R Martin tells the

remarkable and dramatic story of how a tiny poor and threatened settlement grew to become during its height the dominant power in the Mediterranean world for five hundred years Encompassing the period from Rome's founding in the eighth century B C through Justinian's rule in the sixth century A D he offers a distinctive perspective on the Romans and their civilization by employing fundamental Roman values as a lens through which to view both their rise and spectacular fall Interweaving social political religious and cultural history Martin interprets the successes and failures of the Romans in war political organization quest for personal status and in the integration of religious beliefs and practices with government He focuses on the central role of social and moral values in determining individual conduct as well as decisions of state from monarchy to republic to empire Striving to reconstruct ancient history from the ground up he includes frequent references to ancient texts and authors encouraging readers to return to the primary sources Comprehensive concise and accessible this

masterful account provides a unique window into Rome and its changing fortune

Jews in a Graeco-Roman

Environment Margaret Williams, 2013 A collection of articles published previously

Jews in a Graeco-Roman World

Martin Goodman, 1998-12-18 This book contains studies of the social cultural and religious history of the Jews in the Graeco Roman world Some of the sixteen contributors are specialists in Jewish history others in classics They tackle from different angles the extent to which Jews in this period differed from other peoples in the Mediterranean region and how much Jewish evidence can be used for the history of the wider classical world The authors make extensive use not only of types of evidence familiar to classicists such as inscriptions and the writing of Josephus but also Jewish religious literature including rabbinic texts The various studies demonstrate that although Jews lived to some extent apart from others and with distinctive customs in many ways this showed the cultural presuppositions and preoccupations of their gentile contemporaries The book aims to encourage wider use of the Jewish evidence by classicists and will be important for all students of the classical world

Melancholy Duty S.P. Foster, 2013-03-09 This book studies the complementary features of the thought of David Hume and Edward Gibbon in the complete range of its confrontation with eighteenth century Christianity The ten chapters explore the iconoclasm of these two philosophical historians Hume as the premier philosopher Gibbon as the consummate historian as they labored to naturalize the study of Christianity particularly with attention to its social and political dimensions No other work deals as comprehensively or thoroughly with the attempt of philosophical history's challenge to Christianity Belief in miracles and the afterlife the dimensions of fanaticism and superstition and the nature of religious persecution were the themes that occupied Hume and Gibbon in the making of their critique of Christianity This book makes a valuable contribution to scholarship in a number of fields including the history of ideas religious studies and philosophy It will be of interest to philosophers of religion historians of ideas eighteenth century intellectual historians scholars of the Scottish Enlightenment and Hume and Gibbon scholars *Encyclopedia of Christian Theology* Jean-Yves Lacoste, 2005-07-27 The

Encyclopedia of Christian Theology translated from the French *Dictionnaire Critique de Théologie* 2nd Edition features over 530 entries contributed by 250 scholars from fifteen different countries Alphabetically arranged entries provide the reader a critical overview of the main theological questions and related topics including concepts events councils theologians philosophers movements and more Hailed as a masterpiece of scholarship this reference work will be of great interest and use for scholars students of religion and theology as well as general readers [Anti-Judaism in Early Christianity: Paul and the Gospels](#)

Peter Richardson, David Granskou, Stephen G. Wilson, Canadian Corporation for Studies in Religion, 1986-04-30

The period since the close of World War II has been agonizingly introspective not least because of the pain of reassessing Christianity's attitude to Judaism The early Christian materials have often been examined to assess their role in the long standing negative attitude of Christians to Jews The motivation for the early church's sometimes harsh attitude was partly theological it needed to define itself over against its parent and partly sociological it needed to make clear the line that

divided the fledgling group of Christian believers from the group with which it was most likely to be confused. This collection of studies emphasizes the context and history of early Christianity in reconsidering many of the classic passages that have contributed to the development of anti Judaism in Christianity. The volume opens with an essay that clearly delineates the state of the question of anti Judaism in early Christianity. Then follow discussions of specific passages in the writings of Paul as well as the Gospels.

The Oxford Handbook of New Religious Movements James R. Lewis, Inga B. Tollefsen, 2016-04-12. The study of New Religious Movements (NRMs) is one of the fastest growing areas of religious studies and since the release of the first edition of *The Oxford Handbook of New Religious Movements* in 2003 the field has continued to expand and break new ground. In this all new volume James R. Lewis and Inga B. Tollefsen bring together established and rising scholars to address an expanded range of topics covering traditional religious studies topics such as scripture, charisma and ritual while also applying new theoretical approaches to NRM topics. Other chapters cover understudied topics in the field such as the developmental patterns of NRMs and subcultural considerations in the study of NRMs. The first part of this book examines NRMs from a social scientific perspective particularly that of sociology. In the second section the primary factors that have put the study of NRMs on the map, controversy and conflict are considered. The third section investigates common themes within the field of NRMs while the fourth examines the approaches that religious studies researchers have taken to NRMs. As NRM Studies has grown, subfields such as Esotericism, New Age Studies and neo Pagan Studies have grown as distinct and individual areas of study and the final section of the book investigates these emergent fields.

Social Distinctives of the Christians in the First Century Edwin A. Judge, 2007-10-01. This is a collection of pivotal essays by E. A. Judge who initiated many important discussions in the establishment of social scientific criticism of the Bible. What is it that made the work of Judge in 1960 and in subsequent years so important? Judge was the first in scholarship after the mid twentieth century to clarify early Christian ideals about society by defining what the social institutions of the broader cultural context were and how they influenced the social institutions of the early Christian communities. Judge points out that earlier scholars had entered into this field of inquiry but that in general they failed due to the lack of careful definitions of the Greco Roman social institutions at the time based on a thorough use of the primary sources. Thus Judge was the new founder, a turning point in scholarship of what came to be called social scientific criticism of the New Testament. Social scientific criticism is the term in scholarship that refers to the use of social realities e.g. institutions, class factors of community organization in the critical study of literary sources available. This is an advance over merely literary and traditional historical questions.

A Question of Balance Brenda J. Norton, 2016-01-21. Western liberal democracy has a dual foundation of limited government implementing the will of the majority and protecting individual autonomy within a sphere of fundamental rights. Under the rubric of universal human rights, Western societies take for granted that they tolerate all religions and treat all persons equally. However, through globalization and immigration, Western societies are increasingly

finding non Christian people in their midst This pluralism is causing polities to rethink fundamental notions of the boundaries of religious freedom equality and state neutrality Three countries whose systems are based on the Western liberal democratic philosophy and which are religiously pluralist the United States France and the Netherlands are reacting in different ways The politics of the hijab and burqa lie at the intersection of the political and legal spheres Consequently the political and legal spheres have each attempted to enforce differing versions of the concepts of equality and neutrality A cross cultural and cross national survey of judicial decisions and legislative action in these countries demonstrates how each is balancing individual rights and communal bonds and adhering to or retreating from previously accepted human rights norms for women and religious practices

Religious Toleration And Persecution In Ancient Rome Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever.
