Reminiscing Autobiographical Notes:

Reminiscing Paul Arthur Schilpp, Madelon Golden Schilpp, 1996 This autobiographical reminiscing started more than ten years ago wrote German American philosopher Paul Arthur Schilpp at the age of ninety five After my retirement in 1981 he continued I began dictating fragmentary memoirs off and on Belatedly I was realizing how useful it might have been to have kept personal journals over the long span of my lifetime But in years of wonderful vitality which miraculously had continued into my eighties Schilpp explains I was caught up with living life from moment to breathless moment Rush there and lecture someplace Rush home and write or edit against the next impending deadline The professional merry go round was ever enchanting The days whirled by And now in the quieter years between eighty four and ninety five I have recalled what seems most important from the recesses of my mind And the record is indeed important Schilpp knew the greatest minds of this century Widely recognized as a scholar and teacher he created the Library of Living Philosophers called the greatest work in philosophy during this century and served as editor for forty two years Schilpp also served as president of the American Philosophical Association and was consultant in philosophy to the Encyclop dia Britannica for over thirty years He enjoyed a long and distinguished career as both teacher and scholar primarily at the University of the Pacific Northwestern University and Southern Illinois University at Carbondale *The Art and Science of Reminiscing* Jeffrey D. Haight, 2013-02-01 Although recognition of reminiscing as a potentially adaptive process can be traced back over 30 years to the seminal work of Robert Butler as discussed in the Foreword there has been little effort to consolidate the work and paint a complete picture of reminiscing as an entity Here reminiscing is presented as a multi disciplinary topic examining the theory of and research on reminiscing The book also discusses the different ways of conducting life review interviews and explores therapeutic applications Contributors to this book many of whom are pioneers and leading figures in the field discuss and elaborate their latest thinking and research findings from multiple perspectives The volume s strength derives from its multi disciplinary nursing psychiatry psychology gerontology community advocacy and multinational Australia Canada England Sweden and the United States treatment James Birren Irene Burnside and Phillipe Cappeliez are a few of the eminent scholars authoring this volume **The Philosopher's Autobiography** Shlomit C. Memory in Science for Society Robert Logie,Nelson Cowan,Susan Gathercole,Randall Engle,Zhisheng Wen,2023-03-12 Memory is essential for every day life The understanding and study of memory has continued to grow over the years thanks to well controlled laboratory studies and theory development However major challenges arise when attempting to apply theories of memory function to practical problems in society A theory might be robust in explaining experimental data but fail to capture all that is important when taken out of the lab The good news is that the application of memory in science to challenges in society is rapidly expanding and Memory in Science for Society bridges that gap Inspired by the synergy between theory and application in memory research leading international researchers share their passion for combining memory in science with applications of that science to a wide range of challenges in society Chapters demonstrate how that scientific passion has addressed challenges in education life attainment second language learning remembering life events and faces of strangers

future planning and decision making lifespan cognitive development and age related cognitive decline following instructions and assessment and rehabilitation of cognitive impairment following brain damage Written and edited by the leading researchers in the field the book will be an important and influential addition to the memory literature providing a new and comprehensive focus on the connection between theory and practice in memory and society **Albert Einstein: The Son-in-law of the Serbs (the Yugoslavs)** V.
