justify their own reform agenda and therefore produced invariably partisan chronicles The work's method is widely applicable and contributes to further reassessment of institutional narratives as sources for the analysis of religious and intellectual transformations

The 'Book' of Travels: Genre, Ethnology, and Pilgrimage, 1250-1700 Palmira Brummett, 2009-04-24 The early modern era is often envisioned as one in which European genres both narrative and visual diverged indelibly from those of medieval times This collection examines a disparate set of travel texts dating from the thirteenth to the seventeenth centuries to question that divergence and to assess the modes themes and ethnologies of travel writing It demonstrates the enduring nature of the itinerary the variant forms of witnessing including imaginary maps the crafting of sacred space as a cautionary tale and the use of the travel narrative to represent the transformation of the

authorial self Focusing on European travelers to the expansive East from the soft architecture of Timur's tent palaces in Samarqand to the ambiguities of sexual identity at the Mughul court these essays reveal the possibilities for cultural translation as travelers of varying experience and attitude confront remote and foreign or not so foreign space The Crown and the Cosmos Darin Hayton, 2015-11-11 Despite its popular association today with magic astrology was once a complex and sophisticated practice grounded in technical training provided by a university education The Crown and the Cosmos examines the complex ways that political practice and astrological discourse interacted at the Habsburg court a key center of political and cultural power in early modern Europe Like other monarchs Maximilian I used astrology to help guide political actions turning to astrologers and their predictions to find the most propitious times to sign treaties or arrange marriage contracts Perhaps more significantly the emperor employed astrology as a political tool to gain support for his reforms and to reinforce his own legitimacy as well as that of the Habsburg dynasty Darin Hayton analyzes the various rhetorical tools astrologers used to argue for the nobility antiquity and utility of their discipline and how they strove to justify their science on the grounds that through its rigorous interpretation of the natural world astrology could offer more reliable predictions This book draws on extensive printed and manuscript sources from archives across northern and central Europe including Poland Germany France and England **Preachers by Night: The Waldensian Barbes (15th-16th Centuries)** Gabriel Audisio, 2007 This work traces the history of the barbes the Waldensian preachers whose itinerant mission maintained the fervent but clandestine faith of a dissent which from Lyons extended across much of Europe enduring despite the Inquisition from the 12th 16th century **The Primacy of the Postils** John M. Frymire, 2009-12-23 Scholarship on the German Reformation has long equated preaching with Protestantism just as many scholars have employed sermons but usually in supplemental and unsystematic ways Based on an analysis of over 400 standard sermon collections postils produced by Catholics Lutherans and Calvinists 1520 1620 this study offers the first comprehensive systematic presentation of these works from a cross confessional perspective It lays to rest the notion that preaching was somehow distinctively Protestant while tracing the creation production use and censorship of postils These sermon collections were nothing less than the applied distillation of Christianity delivered on a regular basis by the clergy to the laity and as such the most important vehicle for the dissemination of ideas in early modern Germany **Public Opinion and Changing Identities in the Early Modern Netherlands**, 2006-11-01 Was there such a thing as public opinion before the age of newspapers and party politics The essays in this collection show that in the Low Countries at least there certainly was In this highly urbanised society with high literacy rates and good connections news and public debate could spread fast in the sixteenth and seventeenth centuries enabling the growth of powerful opposition movements against the Crown the creation of the Dutch Republic and of the distinctive Netherlandish culture of the Golden Age Contributors include Hugh Dunthorne Raingard Esser Jonathan Israel Gustaaf Janssens Henk van Nierop Guido Marnef M E H Nicolette Mout Andrew Pettegree Judith
