Renaissance Man Medieval Or Modern:

Renaissance Man, Medieval Or Modern? Brian Tierney, Donald Kagan, L. Pearce Williams, 1976-01-01 *Renaissance Man* Brian Tierney, 1967 **Origins of Modern Europe; Medieval National Consciousness** Abida Shakoore, 2004 This book covers various topics concerning modern European history in spite of the author's artistically simple writing style. The treatment given to various topics is in depth and scholarly besides the incidents and episodes addressing to important historical figures. Movements, struggles, dreams and aspirations of common man are also highlighted in this book. All the events dealt with are in fact forming a sequence targeting towards contemporary socio-political scenario. The present book would be of great use to research scholars, students and teachers interested in European history. It would definitely fill the gap in the literature concerning modern Europe. *Medieval and Modern History* Hutton Webster, 1919 The Medieval & Early Modern World Merry E. Wiesner, Merry E. Wiesner-Hanks, 2005-06-23 Cultural life flowered from the mid-fifteenth century in the Italian city states many of which profited from the new trading opportunities that growing world networks permitted. Contact among regions of the world expanded bringing new ideas and prompting an appreciation of arts and letters not only of the present but of the past. In Italy this cultural flowering was known at first as the renaissance of arts and letters soon shortened to just Renaissance to accommodate cultural ingredients that came from beyond Europe. Italian and northern European cultural expansion benefited from similar retrieval of ancient knowledge in the Islamic world and East Asia. Like the Italians the Chinese had grown even wealthier from the extensive links to global commerce provided by the Mongol Empire but once thrown off their cultural life flourished under the Ming. Cultural knowledge and the arts spread across Asia and into Europe. As part of state building the Ming nourished commerce but also rejected the cosmopolitan Buddhist legacy that arrived from central and south Asia. To strengthen dynastic Chinese rule the Ming challenged Buddhism with a revival of age-old concern for the Confucian values that had languished under the Mongols. Foremost among these new Confucians was Wu Yube so expert in his teachings that he attracted a wide coterie of disciples. In India Nanak an educated employee of an Afghan prince sparked the founding of Sikhism. A similar search for reviving fundamental religious values occurred in Europe where Martin Luther challenged the practices of the Catholic church ushering in Protestantism. Religious reform and resistance to it were closely connected to the state building efforts of enterprising monarchs such as Henry VIII of England. India likewise experienced a fervent movement to revive pure ancient religious practices. Fourteenth and fifteenth century global trade and long distance ventures such as those made by the Ming and then by the Portuguese further inspired and advanced these worldwide cultural and political developments. A brisk Indian Ocean trade flourished. Economic change ensued with the arrival of New World silver on the global market. The advance of printing not only furthered the cause of religious reform and state building globally it also helped globalize knowledge and intellectual experimentation. People of great power and those of more limited means came to live their lives

differently because of this expanding web of shared knowledge and trade Cities flourished the enslavement of native Americans came to replace their use as human sacrifices and diseases migrated at a more rapid pace and greater devastation than perhaps ever before

Rural Space in the Middle Ages and Early Modern Age Albrecht Classen,2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic

Shakespeare and the Middle Ages Curtis Perry,John Watkins,2009-05-07

Shakespeare and the Middle Ages brings together a distinguished multidisciplinary group of scholars to rethink the medieval origins of modernity Shakespeare provides them with the perfect focus since his works turn back to the Middle Ages as decisively as they anticipate the modern world almost all of the histories depict events during the Hundred Years War and King John glances even further back to the thirteenth century Angevins several of the comedies tragedies and romances rest on medieval sources and there are important medieval antecedents for some of the poetic modes in which he worked as well Several of the essays reread Shakespeare by recovering aspects of his works that are derived from medieval traditions and whose significance has been obscured by the desire to read Shakespeare as the origin of the modern These essays taken cumulatively challenge the idea of any decisive break between the medieval period and early modernity by demonstrating

continuities of form and imagination that clearly bridge the gap Other essays explore the ways in which Shakespeare and his contemporaries constructed or imagined relationships between past and present Attending to the way these writers thought about their relationship to the past makes it possible in turn to read against the grain of our own teleological investment in the idea of early modernity A third group of essays reads texts by Shakespeare and his contemporaries as documents participating in social cultural transformation from within This means attending to the way they themselves grapple with the problem of change attempting to respond to new conditions and pressures while holding onto customary habits of thought and imagination Taken together the essays in this volume revisit the very idea of transition in a refreshingly non teleological way

Christian Education: Its History and Philosophy Kenneth O. Gangel, Warren S. Benson, 2002-03-05 A history of Christian education must not be confused with a record of the achievements of the Sunday School The discipline has advanced well beyond that stage and today's sophisticated students fully understand that no proper concept of the history and philosophy of Christian education can be gained without seeing all the ramifications implications and influences that have affected it from pre Christian times to the present So Drs Gangel and Benson have written this book a historical flow of philosophical thought from a Christian point of view Its focus is cultural biographical discussing each philosophy in its particular socio historical setting and giving special attention to significant individuals The format is chronological beginning with education in biblical times working upward through history to arrive at the present and beyond raising questions and issues for the future

Bad Medievalism and the Modernity Problem Kathy Lavezzo, 2025-11-04 Challenges the assumptions made over the medieval modern divide by examining the medieval roots of modern racism Humanists have long insisted on a chasm separating modernity and the Middle Ages In *Bad Medievalism and the Modernity Problem* Kathy Lavezzo demonstrates how the temporal divide scholars typically accept is a fiction that has shaped racial discourse over a longue dure The hard line drawn between then and now is of a piece with the line separating whiteness from humans deemed irrevocably other Thus Lavezzo advocates a bad that is depressing and disturbing even nauseating historicism attuned to the interpenetration of race whiteness and periodicity in the west Teasing out the dialectical invocation of both periods by figures as diverse as W E B Du Bois Carolyn Bynum Stuart Hall Johan Huizinga Paule Marshall Karl Marx Gloria Naylor J R R Tolkien and Sylvia Wynter Lavezzo demonstrates how the tension between and across categories of the medieval and the modern has mobilized intense emotional and political responses Inspired by Lavezzo's discovery that Hall the beloved founder of cultural studies planned as a student at Oxford to become a medievalist but was dissuaded from that path by his teacher Tolkien *Bad Medievalism and the Modernity Problem* unpacks the implications of that charged encounter Central chapters contrast Tolkien's white heritage medievalism with a speculative inquiry into the *Piers Plowman* dissertation that Hall never wrote Other chapters assess the white feel of periodization by scholars including Jacob Burckhardt Huizinga Fredric Jameson and Bynum and draw on theorists including Du Bois and Wynter to chart the medieval

roots of a racialized discourse of progress and primitivism Bad Medievalism and the Modernity Problem culminates in new readings of Gloria Naylor's *Beloved* and Paule Marshall's *The Fisher King* demonstrating their importance as productively pessimistic engagements with the racial legacies of both the medieval and the modern

Though portraits of old women mediate cultural preoccupations just as effectively as those of younger women the scant published research on images of older women belies their significance within early modern Italy This study examines the remarkable flowering largely overlooked in portraiture scholarship to date of portraits of old women in Northern Italy and especially Bologna during the second half of the sixteenth century when as a result of religious reform the lives of women and the family came under increasing scrutiny *Old Women and Art in the Early Modern Italian Domestic Interior* draws on a wide range of primary visual sources including portraits religious images architectural views prints and drawings as well as extant palazzi and case furnishings and domestic objects created by the leading artists in Bologna including Lavinia Fontana Bartolomeo Passerotti Denys Calvaert and the Carracci The study also draws on an array of historical sources including sixteenth century theories of portraiture prescriptive writings on women and the family philosophical and practical treatises on the home economy sumptuary legislation books of secrets prescriptive writings on old age and household inventories to provide new historical perspectives on the domestic life of the propertied classes in Bologna during the period Author Erin Campbell contends that these images of unidentified women are not only crucial to our understanding of the cultural operations of art within the early modern world but also by working from the margins to revise the center provide an opportunity to present new conceptual frameworks and question our assumptions about old age portraiture and the domestic interior **Latin Literatures of Medieval and Early Modern Times in Europe and Beyond** Francesco Stella, Lucie Doležalová, Danuta Shanzer, 2024-07-15
